Get Valid SAP C_BCBTM_2509 Exam Questions and Answer

Our excellent C_BCBTM_2509 practice materials beckon exam candidates around the world with their attractive characters. Our experts made significant contribution to their excellence. So we can say bluntly that our C_BCBTM_2509 actual exam is the best. Our effort in building the content of our C_BCBTM_2509study dumps lead to the development of C_BCBTM_2509 learning guide and strengthen their perfection. And the price of our exam prep is quite favourable!

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q26-Q31):

NEW QUESTION # 26
What is the primary purpose of WalkMe's Digital Adoption Platform (DAP)?

- A. To reduce digital friction and guide users through complex software
- B. To implement advanced hardware solutions
- C. To manage payroll systems efficiently
- D. To automate recruitment processes

Answer: A

Explanation:
The WalkMe Digital Adoption Platform (DAP) is designed to improve the user experience by reducing friction when interacting with digital systems. It provides on-screen guidance, automation, and analytics that help users complete tasks accurately and efficiently.

"The primary purpose of WalkMe's Digital Adoption Platform is to reduce digital friction and guide users through complex software environments using AI-powered, context-aware assistance." Reference:
The platform enhances employee productivity, adoption success, and process efficiency across SAP and third-party applications by simplifying navigation and ensuring process compliance.
"WalkMe DAP provides contextual guidance directly within applications, enabling users to execute digital workflows with minimal errors or training." Incorrect Options:
A: WalkMe is software-based, not a hardware solution.
B: Recruitment automation is part of SAP SuccessFactors, not WalkMe.
D: Payroll management is unrelated to WalkMe's purpose.
Verified Correct answer: C: To reduce digital friction and guide users through complex software.

NEW QUESTION # 27
Which key solution of SAP Signavio helps in collaborative process mining?

- A. SAP Signavio Value Accelerator
- B. SAP Signavio Process Manager
- C. SAP Signavio Process Intelligence
- D. SAP Signavio Process Collaboration Hub

Answer: C

Explanation:
SAP Signavio Process Intelligence is the dedicated process mining and analysis component of the SAP Signavio Business Transformation Suite. It enables organizations to discover, analyze, and improve business processes collaboratively using real data.
"SAP Signavio Process Intelligence connects to system data, reconstructs end-to-end processes, and enables collaborative process mining and analysis to uncover inefficiencies and improvement opportunities." Reference:
The term collaborative process mining refers to enabling multiple stakeholders to analyze, discuss, and align process improvements based on shared process insights - a feature central to Process Intelligence.
"Process Intelligence integrates with the Process Collaboration Hub to allow joint analysis and process improvement discussions."
Option A (Collaboration Hub) is a supporting platform for sharing process models and insights, but it does not perform mining itself.
Option C (Process Manager) focuses on process modeling and design, not mining.
Option D (Value Accelerator) refers to predefined process frameworks and KPIs used for benchmarking, not mining.
Therefore, the correct and verified answer based on SAP's BTM documentation and the official Signavio solution portfolio is B:
SAP Signavio Process Intelligence.

NEW QUESTION # 28
What does WalkMe Discovery help organizations achieve?

- A. Automates training development processes
- B. Translates all tools into multiple languages automatically
- C. Enhances employee satisfaction scores by 50%
- D. Identifies underutilized tools and compliance risks

Answer: D

Explanation:
WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.
"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:
The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM²) framework goals for transparency and optimization.
"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.
"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does

not claim specific numerical outcomes related to satisfaction.
Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

NEW QUESTION # 29

What are modules of the SAP Signavio Transformation Suite?
(Note: There are 3 correct answers to this question.)

- A. Collaboration Hub
- B. Application Lifecycle Manager
- C. Process Insights
- D. Process Intelligence
- E. Business Process Modeling Notation

Answer: A,C,D

Explanation:
The SAP Signavio Business Transformation Suite (also called the Transformation Suite) comprises integrated modules that work together to help organizations understand, model, and optimize their business processes. The main modules are:
SAP Signavio Process Insights
SAP Signavio Collaboration Hub
SAP Signavio Process Intelligence
SAP Signavio Process Manager
"The SAP Signavio Transformation Suite includes Process Insights, Collaboration Hub, Process Intelligence, and Process Manager, delivering end-to-end process transformation capabilities." Reference:
Process Insights (Answer A):
Enables real-time monitoring and benchmarking of business process performance directly from SAP systems.
"Process Insights provides data-driven visibility into SAP ERP and S/4HANA processes, identifying quick wins for optimization."
Collaboration Hub (Answer D):
Acts as a central collaboration layer, allowing teams to access, share, and discuss process data organization-wide.
"The Collaboration Hub serves as the single source of truth for process-related information, enabling collaboration across departments." Process Intelligence (Answer E):
Performs process mining and analytics, uncovering inefficiencies and providing actionable insights.
"Process Intelligence uses event data to analyze and visualize how processes are executed in reality, identifying bottlenecks and improvement opportunities." Incorrect Options:
B: "Business Process Modeling Notation" (BPMN) is a modeling standard, not a suite module.
C: "Application Lifecycle Manager" belongs to SAP Solution Manager, not SAP Signavio.
Verified Correct Answers: A: Process Insights, D: Collaboration Hub, and E: Process Intelligence.

NEW QUESTION # 30

What are the benefits of SAP Business Transformation Management solutions?
(Note: There are 2 correct answers to this question.)

- A. They provide visibility into processes, people, and applications and therefore support our customers in their ERP transformation.
- B. They are process mining tools which can help identifying process and IT infrastructure bottlenecks.
- C. They are tools limited to IT landscape analysis and financial reporting.
- D. They empower organizations to drive digital transformation by enhancing process efficiency and IT infrastructure management.

Answer: A,D

Explanation:
SAP Business Transformation Management (BTM) Solutions are comprehensive, cross-functional tools designed to give organizations visibility across business processes, people, and technology - empowering them to manage digital transformation effectively.
"SAP BTM solutions provide end-to-end visibility across processes, people, and applications, helping organizations streamline ERP transformation initiatives." Reference:
Visibility Across the Enterprise (Answer B):

SAP BTM combines the analytical power of SAP Signavio (process intelligence), SAP LeanIX (enterprise architecture), and WalkMe (adoption enablement) to support holistic transformation initiatives.

"BTM solutions provide a unified view of the business and IT landscape, ensuring transparency across processes, systems, and stakeholders." Driving Digital Transformation and Efficiency (Answer C):

These solutions enable companies to improve process performance and IT infrastructure through insight-driven optimization and modernization.

"By enhancing process efficiency and IT infrastructure management, SAP BTM empowers organizations to drive digital transformation with measurable business outcomes." Incorrect Options:

A: BTM solutions go far beyond IT analysis; they connect business, IT, and people perspectives.

D: While process mining is part of the suite (via Signavio), BTM offers much broader transformation management beyond mining alone.

Therefore, the verified answers are:

B: They provide visibility into processes, people, and applications and therefore support our customers in their ERP transformation.

C: They empower organizations to drive digital transformation by enhancing process efficiency and IT infrastructure management.

NEW QUESTION # 31

......

Our C_BCBTM_2509 training materials provide 3 versions to the client and they include the PDF version, PC version, APP online version. Each version's using method and functions are different but the questions and answers of our C_BCBTM_2509 study materials is the same. The client can decide which C_BCBTM_2509 version to choose according their hobbies and their practical conditions. For instance, the PDF version is convenient for reading and supports the printing of our C_BCBTM_2509 Study Materials. If client uses the PDF version of C_BCBTM_2509 learning questions, you can also put on notes on it.
