Oracle Financial Consolidation and Close 2024 Implementation Professional Sample Questions (Q96-Q101):

NEW QUESTION # 96

Which statement is true of journals created from Recurring templates?

- A. Journals for recurring templates are created automatically when you open a period for journals.
- B. The initial status of journals created from Recurring templates is Posted.
- C. The initial status of journals created from Recurring templates is Approved.
- D. The line items in journals created from Recurring templates are read only.

Answer: A

Explanation:

Journals for recurring templates are created automatically when you open a period for journals. Recurring templates are used to

create journals that repeat in multiple periods with the same or different amounts. You can specify the frequency, start period, end period, and amount type for recurring templates. The initial status of journals created from recurring templates is Unposted, not Approved or Posted. The line items in journals created from recurring templates are editable, not read only. - A. FCCS_SystemTypes
- B. FCCS_No Data Source
- C. FCCS_Data Input
- D. FCCS_Proportion

Answer: D

NEW QUESTION # 100

Which two statements are true about shared members in Valid Intersection rules? (Choose two.)

- A. Selecting the primary instance of a member does not include shared members.
- B. Selecting a shared member for a rule does not include its primary instance.
- C. If the primary instance of the member is selected for a rule, all shared members for the instances are included.
- D. If a shared member is selected for a rule, the primary instance of the member is selected as well.

Answer: B,C

Explanation:

The following statements are true about shared members in Valid Intersection rules:

If the primary instance of the member is selected for a rule, all shared members for the instances are included. This means that data can be entered or calculated for any shared member of the primary member.

Selecting a shared member for a rule does not include its primary instance. This means that data can be entered or calculated only for the specific shared member, not for the primary member or other shared members. The other statements are not true about shared members in Valid Intersection rules. If a shared member is selected for a rule, the primary instance of the member is not selected as well. Selecting the primary instance of a member does include shared members. Oracle Financial Consolidation and
