想更好更快的通過Salesforce的B2C-Commerce-Architect考試嗎？快快選擇我們Testpdf吧！它可以迅速的完成你的夢想。我們Testpdf是一個為多種IT認證考試的人，提供準確的考試材料的網站，我們Testpdf是一個可以為很多IT人士提升自己的職業藍圖，我們的力量會讓你難以置信。你可以先嘗試我們Testpdf為你們提供的免費下載關於Salesforce的B2C-Commerce-Architect考試的部分考題及答案，檢測我們的可靠性。

最新的 Salesforce Architect B2C-Commerce-Architect 免費考試真題 (Q16-Q21):

問題 #16

A B2C Commerce Developer has just finished implementing a new promotion code form on checkout. During review, an Architect notes that the form is not using CSRF validation correctly.

Which two options are best practice recommendations for dealing with CSRF validation? Choose 2 answers

- A. Only use POST methods over HTTP.
- **B. Ensure the CSRF protection is validated on form submission.**
- C. Only use GET methods over HTTPS.
- **D. Automatically renew the CSRF Token if expired.**

答案： B,D

問題 #17

A company actively uses CI/CD processes for their Service Cloud implementation and is adding Marketing Cloud and Marketing Cloud Connect to their architecture. Under the current setup each developer has their own developer sandbox for development. Developers merge their changes into a sandbox for QA regularly, then once every week changes are moved to staging, and from staging to production instances.

Which set up should a Solution Architect propose to support this development approach considering costs and data segregation?

- **A. Set up one Marketing Cloud instance for each sandbox in Service Cloud**
- B. Set up one Marketing Cloud instance with a business unit for production and one business unit for testing that is connected to all Developer sandboxes
- C. Set up one Marketing Cloud instance for production and create a Marketing Cloud sandbox to connect to each of the Service Cloud sandboxes
- D. Set up one Marketing Cloud instance for testing and one for production, where the testing instance is connected to the staging sandbox

答案： A

問題 #18

A company manages its regional operations as separate businesses. The regional sites (Site A and Site B) operate with:

- * Separate realms
- * Different code bases
- * Different category navigation menus
- * Frequent updates on category structure

The requirement from the business is to provide hreflang link tags on category pages pointing to the same category on the other regional site. Example HTML for one of these links as displayed on Site A is:

Which solution should the Architect choose while keeping performance in mind?

- A. Create additional locales in all realms create a new custom attribute on the category that is localized. Populate the attribute with the other site URLs and use it to display the hreflang tag.
- B. Create a new custom attribute on the Category. Populate the attribute with the other entire site URLs corresponding to locales in JSON Format. Use the attribute to display the hreflang link tag.
- **C. Create a new custom object type Populate the hreflang mapping for each category and locale in this custom object. Use the custom object to display the hreflang link tag.**
- D. Create a custom Business Manager module. Ask the business to maintain the hreflang link tags for each regional site in this Business Manager module.

答案： C

解題說明：

For a multi-regional setup with different realms and frequent updates, using a custom object to manage hreflang mappings offers flexibility and scalability. Custom objects can efficiently store URL mappings for each category across different locales, making it easier to manage and update as category structures change.

This method allows for centralized control over hreflang mappings and simplifies maintenance compared to other options which might involve more complex integrations or manual updates.

問題 #19

During a load test the storefront shows steady but slow performance on all the paces being tested. The Architect opens Pipeline Profiler and sorts the data by "total time" column. The following come as the top Ave items:

Which controller should the Architect focus on to further investigate the performance issue?

- A. Search Show as this is one of the key controllers that the customer uses
- B. Product-HitTile as it has the highest hits during the load test.
- **C. Product-Detail as it has the highest total time and highest maximum time.**
- D. Home-IncludeHeaderMenu as it has highest average time.

答案： C

解題說明：

Focusing on the 'Product-Detail' controller is prudent given that it has the highest total time and the highest maximum time (Answer C), suggesting that it significantly contributes to the overall load and potential slowdowns on the site. By analyzing and optimizing this controller, the architect can potentially achieve the most substantial improvement in performance. Efforts might include optimizing database queries, caching frequently requested data, or simplifying complex logic in the Product-Detail page's processing.

問題 #20

The client provided these business requirements:

* The B2C Commerce storefront will integrate with the client's Order Management System (OMS).

* The storefront will provide real-time order export of successfully processed orders. The OMS supports both web service export and SFTP batch order export, but the client has expressed concern about the availability of the OMS.

Which two solutions satisfy the requirements and address the OMS reliability concern?

Choose 2 answers

- A. implement a batch export of orders via web service, excluding exported orders. This runs as a scheduled job with an hourly run rate and marks processed orders as exported upon success.
- **B. Implement a live export of orders during checkout via web service, marking the processed order as exported when the AM returns successfully.**
- **C. Implement a batch export of orders to SFTP, excluding exported orders. This runs as a scheduled job with a high-frequency run rate and marks processed orders as exported upon success.**
- D. Implement a live export of orders during checkout via SFTP, marking the processed order as exported when it has completed successfully.

答案： B,C

問題 #21

.....

如果你發現我們B2C-Commerce-Architect有任何品質問題或者沒有考過，我們將無條件全額退款，Testpdf是專業提供Salesforce的B2C-Commerce-Architect最新考題和答案的網站，幾乎全部覆蓋了B2C-Commerce-Architect全部的知識點。

最新B2C-Commerce-Architect考證：<https://www.testpdf.net/B2C-Commerce-Architect.html>
