Candidates who successfully pass the exam earn the Salesforce Certified Service Cloud Consultant credential, which demonstrates their proficiency in Salesforce Service Cloud and their ability to design and implement solutions that meet business requirements.

Salesforce Certified Service cloud consultant Sample Questions (Q179-Q184):

NEW QUESTION # 179

Universal Containers has completed development and testing of its Service Cloud implementation and plans to migrate functionality from the sandbox environment to the production environment.

What should be used for migration functionality?

- **A. Data loader, change sets, and Force.com Excel Connector**
- B. Visual Workflow, data loader, and Force.com IDE
- C. Mass Transfer Records, change sets, and Visual Studio Code
- D. Visual Studio Code and change sets

Answer: A

Explanation:

Data loader, change sets, and Force.com IDE are tools that can be used for migrating functionality from a sandbox environment to a production environment. Data loader is a tool that can import, export, insert, update, delete, or upsert data in Salesforce. Change sets are outbound sets of metadata components that can be sent from one Salesforce org to another. Force.com IDE is an integrated development environment that allows you to edit, compile, test, and deploy metadata components using Eclipse. NEW QUESTION # 180

Cloud Kicks (CK) has recently started using Entitlements within its support process. However, CK has found many cases with inaccurate data. As many Entitlements are similarly named, service agents are selecting Entitlements that are not associated with the Account assigned on the Case.

What is the recommended method to meet the requirements?

- **A. Lookup Filter**
- B. Approval Process
- C. Cross-Object Formula
- D. Auto-Add Milestones

Answer: A

NEW QUESTION # 181

The contact center manager at Universal Containers is concerned that the first call resolution rate for their team is too low and would like to see improvement in this metric. What should a consultant recommend to improve this metric?

- A. Workforce management
- **B. Skills -based routing**
- C. Private branch exchange
- D. Interactive voice response

Answer: B

NEW QUESTION # 182

the support manager at universal containers wants to see monthly historical metrics for first call resolution by call center and agent. Which reporting should consultant recommend

- A. Case report grouped by call center
- **B. Reporting Snapshots by call center**
- C. Dynamic Dashboard by Call Center
- D. Report Subscriptions by call center

Answer: B

Explanation:

Reporting Snapshots by call center is a reporting tool that can enable the support manager at Universal Containers to see monthly historical metrics for first call resolution by call center and agent. Reporting Snapshots allow administrators to capture point-in-time

data from reports and store them as records in custom objects. These records can then be used to create historical trending reports that show how data changes over time. Verified References :

NEW QUESTION # 183

Cloud Kicks (CK) has created hundreds of Knowledge articles about its products. The articles have been attached to closed cases. A new product release will require changes to dozens of articles. After revising the articles, CK wants to see that a prior article version was associated with the closed cases.

What is the recommended method to meet the requirements?

- A. Enable Knowledge User for Service Agents.
- B. Use the Clone option to create a new article.
- C. Select Flag as new version' checkbox when publishing.
- D. Use Smart Link to Article to select the prior version.

Answer: D

NEW QUESTION # 184

.....
