HPE Hybrid Cloud Solutions Sample Questions (Q109-Q114):

NEW QUESTION # 109

Your customer wants to receive emails When a hardware event occurs on their HPE proLiant Gen10 server. Click where you can find the iLO management interface to set this option.

Answer:

Explanation:

Explanation

To set the email notification option, you need to go to the "Administration" tab and select the "Management" option. Then you need to enter the email address and SMTP server information in the "AlertMail" section and enable the "AlertMail" feature. You can also specify which events you want to receive emails for by selecting the appropriate severity level.

NEW QUESTION # 110

Your customer needs to deploy 25 virtual machines and wants a pre-integrated solution that includes compute, storage, and data protection. What is the best platform for your customer?

- A. HPE SimpliVity platform
- B. HPE Apollo server portfolio
- C. HPE Synergy platform
- D. HPE Ezmeral Container platform

Answer: A

Explanation:

HPE SimpliVity platform: This hyper-converged infrastructure solution provides a pre-integrated package that includes compute, storage, and data protection. It is optimized for virtual machine deployments and offers simplified management, making it the best choice for deploying 25 VMs with integrated data protection.

Reference:

HPE SimpliVity

NEW QUESTION # 111

Is HPE GreenLake a public cloud service?

- A. Yes
- B. No

Answer: B

Explanation:

HPE GreenLake is a hybrid cloud service that combines the flexibility and cost-effectiveness of public cloud with the security and control of on-premises IT infrastructure. It allows organizations to consume IT resources on a pay-per-use basis while maintaining control over their IT infrastructure.

NEW QUESTION # 112

A customer wants to create a 3TB boot partition on their HPE ProLiant DL360 Gen10 Plus server.

What setting must be enabled to allow this configuration?

- A. **unlimited Extensible Firmware Interface (UEFI) Boot Mode**
- B. Legacy BIOS Boot Mode
- C. Virtualization-Maximum performance
- D. Secure Boot

Answer: A

Explanation:

setting that must be enabled to allow a 3TB boot partition on their HPE ProLiant DL360 Gen10 Plus server is B. Unified Extensible Firmware Interface (UEFI) Boot Mode. This is because UEFI Boot Mode supports booting from disks larger than 2.2 TB by using the GUID Partition Table (GPT) format. GPT allows for partitions of up to 9.4 ZB (9.4 x 10²¹ bytes).
