Which two components should a consultant use to satisfy the requirement?
Choose 2 answers

- A. API Actions
- B. SOQL Query
- C. DataRaptors
- D. Integration Procedures

Answer: C,D

NEW QUESTION # 53

A pharma company wants the ability to:

Upload a patient's insurance card, including automatic Member Plan record creation
Run a benefits verification check
Schedule on behalf of the patient with a provider
Cloud Accredited Professional
Which set of Health Cloud capabilities should enable the company to build this business process?

- A. Intelligent Appointment Management, Benefits Verification, Intelligent Document Automation, eFax Integration
- B. Utilization Management, Care Management, Intelligent Document Automation, Intelligent Appointment Management
- C. Intelligent Document Automation, Intelligent Appointment Management, Intelligent Document Reader, Benefits Verification
- D. virtual Care, Intelligent Appointment Management, Intelligent Document Automation, Intelligent Document Reader

Answer: C

Explanation:

Step-by-Step

Business Process Capabilities:

Intelligent Document Automation: Upload and process patient insurance cards.

Intelligent Document Reader: OCR and extract information to automatically create Member Plan records.

Benefits Verification: Check and verify patient insurance benefits.

Intelligent Appointment Management: Schedule on behalf of the patient with providers.

Salesforce Documentation Reference:

"Use Intelligent Document Automation and Intelligent Document Reader to upload and extract insurance card details, with automated Member Plan creation. Use Benefits Verification and Intelligent Appointment Management to enable scheduling and eligibility checks."

- Health Cloud: Intelligent Document Automation
- Health Cloud: Benefits Verification
- Health Cloud: Intelligent Appointment Management

Why not the other options?

Only D includes all needed automation for insurance card processing, Member Plan record creation, benefits verification, and scheduling.

Reference:

Intelligent Document Automation

Intelligent Document Reader

Benefits Verification

Intelligent Appointment Management

NEW QUESTION # 54

A payer needs to implement a program to address the rising healthcare expenses and ensure affordable care for its members. The payer aims to strike a balance between quality care and managing the cost of care effectively by streamlining its approval processes for care requests.

Which capability in Health Cloud helps the payer accomplish this?

- A. Provider Network Management
- B. Intelligent Appointment Management
- C. Integrated Care Management
- D. Utilization Management

Answer: D

Explanation:

Utilization Management is the capability in Health Cloud that helps the payer accomplish its goal of balancing quality care and managing the cost of care effectively. It enables the payer to streamline its approval processes for care requests using predefined rules and workflows.

NEW QUESTION # 55

Bloomington Caregivers is looking to view potential drug-to-drug interactions for its patients' medications and make recommendations based on that data within Health Cloud.

Which Health Cloud add-on should a consultant recommend to fulfill this requirement?

- A. Medication interactions
- B. RxNorm DDI connectivity
- C. Medication Management
- D. Allergy intolerance

Answer: C

Explanation:

Medication Management is a Health Cloud add-on product that helps providers and care coordinators manage the medication regimen of their patients, helping to improve patient safety and reduce healthcare costs. One of the features of Medication Management is the ability to perform medication reconciliation of patients' medication list and detect potential drug-to-drug interactions. This feature can help Bloomington Caregivers to view and address any medication issues for their patients and make recommendations based on the data within Health Cloud.
