ISO-IEC-27001-Foundation Passing Score Feedback - Valid Dumps ISO-IEC-27001-Foundation Pdf

This type of APMG-International ISO-IEC-27001-Foundation actual exam simulation helps to calm your exam anxiety. Since the software keeps a record of your attempts, you can overcome mistakes before the APMG-International ISO-IEC-27001-Foundation final exam attempt. Knowing the style of the APMG-International ISO-IEC-27001-Foundation examination is a great help to pass the test and this feature is one of the perks you will get in the desktop practice exam software.

APMG-International ISO-IEC-27001-Foundation Exam Syllabus Topics:

Topic	Details
Topic 1	• Self Confidence: Self-confidence is the belief in one's abilities, competence, and value, reflecting a sense of assurance and inner strength.
Topic 2	• Framework Design: Framework design is the process of developing a reusable structural foundation that supports and guides the creation and organization of software systems.
Topic 3	• Security Breaches: Security breaches occur when unauthorized access or violations of security protocols are detected or imminent, potentially compromising data or system integrity.
Topic 4	• Compliance: Regulatory compliance refers to an organization's commitment to understanding and adhering to applicable laws, policies, and regulations to operate within established legal and ethical standards.
Topic 5	• Continuous Improvement Process (CI, CIP): A continuous or continual improvement process (CIP or CI) involves ongoing, systematic efforts to enhance products, services, or operational processes to achieve higher efficiency and effectiveness over time.
Topic 6	• Data Security: Data security refers to protecting digital information—such as that stored in databases or networks—from destruction, unauthorized access, or malicious attacks, ensuring confidentiality and integrity.

Foundation Passing Score

Knowledge is defined as intangible asset that can offer valuable reward in future, so never give up on it and our ISO-IEC-27001-Foundation exam preparation can offer enough knowledge to cope with the exam effectively. To satisfy the needs of exam candidates, our experts wrote our ISO-IEC-27001-Foundation practice materials with perfect arrangement and scientific compilation of messages, so you do not need to study other ISO-IEC-27001-Foundation training questions to find the perfect one anymore.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q39-Q44):

NEW QUESTION # 39
Which of the following statements about the relationship between ISO/IEC 27001 and ISO/IEC 27002 is true?
* ISO/IEC 27002 provides implementation advice on the controls selected during the ISO/IEC 27001 information security risk management process
* ISO/IEC 27002 provides a process for information security risk management which implements the requirements of ISO/IEC 27001

- A. Only 1 is true
- B. Both 1 and 2 are true
- C. Neither 1 or 2 is true
- D. Only 2 is true

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27001 & 27002:2022 standards:
ISO/IEC 27001 Annex A lists reference controls. ISO/IEC 27002 provides detailed guidance on the implementation of those controls, including purpose, guidance, and examples. Clause 6.1.3 of ISO/IEC
27001 makes the link explicit: controls from Annex A are referenced, but ISO/IEC 27002 explains how to implement them. However, ISO/IEC 27002 does not provide a process for risk management-that is covered by ISO/IEC
27005. Risk management requirements are in ISO/IEC 27001 (Clauses 6.1.2 and 6.1.3).
Therefore, statement 1 is true, but statement 2 is false. Correct answer: A.

NEW QUESTION # 40
Which ISMS documentation is part of the minimum scope of documented information required to be managed and controlled?

- A. The budget assigned to operate the ISMS and its related allocations
- B. Records of management decisions related to continual improvement
- C. A statement of correspondence between other ISO standards and the ISMS
- D. Third party information security awareness materials

Answer: B

Explanation:
Clause 7.5 (Documented Information) specifies that organizations must maintain documentation necessary for the effectiveness of the ISMS. Additionally, Clause 9.3 (Management Review) requires "records of decisions related to continual improvement opportunities" as an output of management review. This is a core requirement and forms part of the documented information that must be retained and controlled. Third- party materials (B), budgets (C), and cross-reference statements to other ISO standards (D) are not required by ISO/IEC 27001. Only documents that directly demonstrate compliance, decision-making, and continual improvement are mandated. Therefore, the verified minimum required documentation includes records of management review decisions related to continual improvement, confirming answer: A.

NEW QUESTION # 41
To whom does the scope of the Terms and conditions of employment control apply?

- A. Employees only
- B. Personnel and the organization

- C. All employees, contractors and third-party users
- D. Contractors only

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.6.1 (Terms and conditions of employment) states:
"The contractual agreements with employees and contractors shall state their and the organization's responsibilities for information security." This means the control applies not just to employees, but also contractors and, where relevant, third-party users who are subject to contractual obligations with the organization. The goal is to ensure that all parties engaged in work under the organization's control understand their security responsibilities before, during, and after employment or contract engagement.
Options A and B are too narrow, excluding key groups. Option C misrepresents the scope by implying a mutual responsibility but not identifying the individuals covered. The explicit scope includes employees, contractors, and third-party users.
Therefore, the correct answer is D.

NEW QUESTION # 42
Identify the missing word(s) in the following sentence.
"Information security, cybersecurity and privacy protection - [?]" is the title of ISO/IEC 27005.

- A. Information security management systems - Requirements
- B. Information security controls
- C. Guidance on managing information security risks
- D. Guidelines for information security management systems auditing

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27005 standards:
ISO/IEC 27005:2022 is titled:
"Information security, cybersecurity and privacy protection - Guidance on managing information security risks." This standard provides structured methodologies for identifying, analyzing, evaluating, and treating risks, in alignment with ISO/IEC 27001's risk management requirements (Clause 6.1.2 and 6.1.3). It supports organizations in implementing the risk management process that underpins an ISMS. Options A and B are titles of other ISO standards (ISO/IEC 27007 for auditing, ISO/IEC 27001 for requirements). Option D refers to ISO/IEC 27002 (controls).
Thus, the correct answer is C: Guidance on managing information security risks.

NEW QUESTION # 43
Who is required to ensure that staff are supported so that they can contribute to the information security management system?

- A. Auditors who audit each area of operation
- B. Top management of the organization
- C. ISO/IEC 27001 practitioners within the organization
- D. Management responsible for each area of operation

Answer: B

Explanation:
Clause 5.1 (Leadership and Commitment) requires that:
"Top management shall demonstrate leadership and commitment with respect to the information security management system by... ensuring that the resources needed for the ISMS are available... and supporting persons to contribute to the effectiveness of the ISMS." This makes it explicit that top management has the responsibility to ensure personnel are supported so they can contribute to the ISMS. Option B (line management) may provide local support, but ultimate accountability rests with top management. Auditors (C) only evaluate compliance, not provide support.
Practitioners (D) help implement, but they don't bear formal responsibility under the standard.
Thus, the verified answer is A: Top management of the organization.

NEW QUESTION # 44

......

Three formats of ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) practice material are always getting updated according to the content of real ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) examination. The 24/7 customer service system is always available for our customers which can solve their queries and help them if they face any issues while using the ISO-IEC-27001-Foundation Exam product. Besides regular updates, Prep4pass also offer up to 1 year of free real ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam questions updates.
