Scrum is a popular and widely used framework for Agile project management. It is based on the principles of transparency, inspection, and adaptation, and it emphasizes the importance of teamwork, collaboration, and continuous improvement. One of the key roles in the Scrum framework is the Product Owner, who is responsible for defining and prioritizing the product backlog, ensuring that the team is delivering value to the customers, and communicating with stakeholders.

Scrum PSPO-I Exam is a challenging and comprehensive test that requires individuals to have a deep understanding of Scrum and its application in real-world scenarios. However, passing the exam is a significant achievement that can open up many career opportunities for individuals in the software development industry.
