Medical Professional CHFM Latest Exam Answers, CHFM Study Materials

Certified Healthcare Facility Manager (CHFM) certification exam (CHFM) prep material there is. The 3 kinds of Medical Professional CHFM preparation formats ensure that there are no lacking points in a student when he attempts the actual CHFM exam. The Certified Healthcare Facility Manager (CHFM) certification exam (CHFM) exam registration fee varies between 100\$ and 1000\$, and a candidate cannot risk wasting his time and money, thus we ensure your success if you study from the updated Medical Professional CHFM practice material. We offer the demo version of the actual Certified Healthcare Facility Manager (CHFM) certification exam (CHFM) questions so that you may confirm the validity of the product before actually buying it, preventing any sort of regret.

Medical Professional Certified Healthcare Facility Manager (CHFM) certification exam Sample Questions (Q81-Q86):

NEW QUESTION # 81

Where a required fire alarm system is out of service for more than 4 hours in a 24-hour period, which of the following is required according to NFPA Life Safety Codes?

Notify the authority having jurisdiction.

Provide an approved fire watch for all parties left unprotected by the shutdown.

Notify the building administrator.

Notify the fire alarm service company for repair.

- A. 1 and 2 only
- B. 2 and 4 only
- C. 3 and 4 only
- D. 1 and 3 only

Answer: A

Explanation:

NFPA 101 (Life Safety Code, Section 9.6.1.6) requires that when a fire alarm system is out of service for more than 4 hours in a 24-hour period, the facility must (1) notify the authority having jurisdiction (AHJ) and (2) provide an approved fire watch until the system is restored. Internal notifications such as to administrators or vendors may occur, but the code specifically mandates AHJ notification and fire watch.

References: NFPA 101, Section 9.6.1.6; CHFM Candidate Handbook - Compliance domain.

NEW QUESTION # 82

Which of the following techniques are used for predictive maintenance?

vibration monitoring

oil analysis

PM frequency analysis

ultrasound

- A. 1, 2, and 3 only
- B. 1, 2, and 4 only
- C. 2, 3, and 4 only
- D. 1, 3, and 4 only

Answer: B

Explanation:

Predictive maintenance involves techniques that monitor the condition of equipment to anticipate failure before it occurs. Common predictive techniques include:

Vibration monitoring (1) - Detects imbalance, misalignment, or bearing wear.

Oil analysis (2) - Identifies contamination, wear particles, or breakdown in lubricants.

Ultrasound (4) - Detects leaks, arcing, and mechanical friction.

PM frequency analysis (3) is part of preventive maintenance, not predictive maintenance.

References:

ASHE/CHFM Study Guide - Maintenance strategies (preventive vs. predictive).

AHA/CHFM Candidate Handbook - Maintenance and Operations domain.

NEW QUESTION # 83

Which of the following must be included in a written fire procedure or plan?

- A. locations of fire extinguishers
- B. posted evacuation routes
- C. listing of the pull-station locations
- **D. method for notifying the fire department**

Answer: D

Explanation:

Written fire procedures must include the method for promptly notifying the fire department or emergency response agency, ensuring immediate response to protect life and property. Evacuation routes and equipment locations are important operational elements, but the mandatory code requirement is a defined notification procedure.

References: NFPA 101, Section 4.7; Joint Commission Environment of Care Standards, EC.02.03.01.

NEW QUESTION # 84

The operations and maintenance department budget is to be developed for the next fiscal year based on the first 5 months of actual costs for the current fiscal year. Which of the following formulas should be used to forecast the next fiscal year's budget, assuming no adjustments for inflation?

- **A. current 5-month actual $\times 12/5$**
- B. most recent month actual $\times 12$
- C. current 5-month actual $\times 5/12$
- D. 2 most recent months' actual $\times 6$

Answer: A

Explanation:

Budget forecasting based on partial-year actuals uses the annualization formula:

Annual Forecast

=

Actual Costs for Months

Number of Months

\times

12

Annual Forecast=

Number of Months

Actual Costs for Months

$\times 12$

For 5 months of data, the multiplier is 12/5.

Correct (D): current 5-month actual $\times 12/5$.

Incorrect:

(A) $\times 5/12$ would shrink the budget, not project it.

(B) Uses only one month, not representative.

(C) Uses only 2 months, less reliable.

References:

AHA/CHFM Candidate Handbook - Financial Management domain (budget preparation and forecasting).

ASHE Financial Management training modules - Forecasting annual budgets from partial-year actuals.

NEW QUESTION # 85

According to The Joint Commission Emergency Management Standards, a facility must

- A. establish agreements with utility, equipment, and supply vendors to provide support in order to maintain operations for 96 hours.
- B. provide utilities, equipment, and supplies in order to maintain operations for 96 hours.
- **C. evaluate capabilities and response efforts for the organization to maintain operations for 96 hours.**
- D. maintain inventories of critical supplies in sufficient quantities to maintain operations for 96 hours.

Answer: C

Explanation:

The Joint Commission Emergency Management Standards require organizations to evaluate their capabilities and plan for how they would maintain operations during an emergency for up to 96 hours. This does not mandate stockpiling or guaranteeing resources for that duration, but rather ensuring that the facility has assessed its resources, strategies, and agreements to maintain patient care and safety during prolonged emergency conditions.

Incorrect Options:

A and B: Maintaining actual supplies/utilities for 96 hours is not specifically required.

C: Agreements with vendors may be part of the plan but are not the mandated standard.

References:

The Joint Commission: Emergency Management (EM) Standards - 96-hour sustainment requirement.

AHA/ASHE CHFM Review Materials - Compliance domain: Emergency preparedness and response.

CHFM Candidate Handbook - Compliance domain outlines emergency management as a tested area.

NEW QUESTION # 86
