Cyber AB CMMC-CCP인증덤프공부자료 - CMMC-CCP퍼펙트 덤프 최신 샘플

KoreaDumps에서는 Cyber AB CMMC-CCP 시험에 대비한 고품질 Cyber AB CMMC-CCP덤프를 제공해 드립니다. Cyber AB CMMC-CCP덤프는 IT 업계 종사자들에 있어서 아주 중요한 인증시험이자 인기 자격증을 취득할 수 있는 필수과목입니다. Cyber AB CMMC-CCP시험을 합격하여 자격증을 취득하시면 취업하는데 가산점이 될 수 있고 급여 인상이나 이직에도 많은 도움을 드릴 수 있습니다.

Cyber AB CMMC-CCP 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none"> • CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.
주제 2	<ul style="list-style-type: none"> • Scoping: This section of the exam measures the analytical skills of cybersecurity practitioners, highlighting their ability to properly define assessment scope. Candidates must demonstrate knowledge of identifying and classifying Controlled Unclassified Information (CUI) assets, recognizing the difference between in-scope, out-of-scope, and specialized assets, and applying logical and physical separation techniques to determine accurate scoping for assessments
주제 3	<ul style="list-style-type: none"> • CMMC Ecosystem: This section of the exam measures the skills of consultants and compliance professionals and focuses on the different roles and responsibilities across the CMMC ecosystem. Candidates must understand the functions of entities such as the Department of Defense, CMMC-AB, Organizations Seeking Certification, Registered Practitioners, and Certified CMMC Professionals, as well as how the ecosystem supports cybersecurity standards and certification.

최신 Cyber AB CMMC CMMC-CCP 무료 샘플문제 (Q207-Q212):

질문 # 207

Which statement BEST describes the requirements for a C3PAO?

- A. An authorized C3PAO must meet some DoD and all ISO/IEC 17020 requirements.
- **B. A C3PAO must be authorized by CMMC-AB before being able to conduct assessments.**
- C. An accredited C3PAO must meet all DoD and some ISO/IEC 17020 requirements.
- D. AC3PAO must be accredited by DoD before being able to conduct assessments.

정답: B

설명:

Understanding C3PAO Requirements
A Certified Third-Party Assessment Organization (C3PAO) is an entity authorized by the CMMC Accreditation Body (CMMC-AB) to conduct CMMC Level 2 Assessments for organizations handling Controlled Unclassified Information (CUI).

Key Requirements for a C3PAO to Conduct Assessments:
Must be authorized by CMMC-AB before conducting assessments.

Must meet CMMC-AB and DoD cybersecurity and process requirements.

Must comply with ISO/IEC 17020 standards for inspection bodies.

Must undergo a rigorous vetting process, including cybersecurity verification.

* A. An authorized C3PAO must meet some DoD and all ISO/IEC 17020 requirements # Incorrect

* C3PAOs must comply with CMMC-AB authorization requirements before performing assessments.

* While they must align with ISO/IEC 17020, they do not necessarily meet all requirements upfront.

* B. An accredited C3PAO must meet all DoD and some ISO/IEC 17020 requirements # Incorrect

* C3PAOs are not accredited by DoD; they are authorized by CMMC-AB to perform assessments.

* Accreditation follows full compliance with CMMC-AB and ISO/IEC 17020 requirements.

* C. A C3PAO must be accredited by DoD before being able to conduct assessments # Incorrect

* The DoD does not directly accredit C3PAOs - CMMC-AB is responsible for authorization and oversight.

* D. A C3PAO must be authorized by CMMC-AB before being able to conduct assessments # Correct

* CMMC-AB grants authorization to C3PAOs, allowing them to perform assessments only after meeting specific requirements.

Why is the Correct Answer "D" (A C3PAO must be authorized by CMMC-AB before being able to conduct assessments)?

* CMMC-AB Certified Third-Party Assessment Organization (C3PAO) Guidelines

* States that C3PAOs must receive CMMC-AB authorization before conducting assessments.

- * CMMC 2.0 Assessment Process (CAP) Document
 - * Specifies that only C3PAOs authorized by CMMC-AB can conduct official CMMC assessments.
 - * ISO/IEC 17020 Compliance for C3PAOs
 - * Defines the inspection body requirements for C3PAOs, which must be met for accreditation.

질문 # 208

The Advanced Level in CMMC will contain Access Control (AC) practices from

- A. Level 3
- B. Levels 1, 2, and 3
- C. Levels 1 and 2
- D. Level 1

정답: B

설명:

The CMMC Model v2.0 is cumulative. The Advanced Level (Level 3) requires full implementation of NIST SP 800-171 (aligned to Level 2) and adds a subset of additional practices from NIST SP 800-172. Because levels build on one another, the Access Control (AC) practices at Level 3 inherently include those from Level 1 (basic FCI protections), Level 2 (CUI protections), and additional Level 3 requirements.

Supporting Extracts from Official Content:

- * CMMC Model v2.0 Overview: "The model is cumulative; practices at a higher level include the practices of all lower levels."
- * Level 3 description: "Advanced... Expert Level requires implementation of NIST SP 800-171 plus a subset of NIST SP 800-172." Why Option D is Correct:
- * The Advanced Level includes all AC practices from Level 1 and Level 2, as well as the additional ones unique to Level 3.
- * Therefore, it contains Access Control practices from Levels 1, 2, and 3.

References (Official CMMC v2.0 Content):

- * CMMC Model v2.0, Overview of Levels (Cumulative nature of practices).
- * NIST SP 800-171 and NIST SP 800-172 (control sources for Levels 2 and 3).

질문 # 209

As defined in the CMMC-AB Code of Professional Conduct, what term describes any contract between two legal entities?

- A. Agreement
- B. Alliance
- C. Union
- D. Accord

정답: A

설명:

Understanding the Definition of an Agreement in the CMMC-AB Code of Professional Conduct The CMMC-AB Code of Professional Conduct defines an agreement as any contract between two legal entities.

This includes:

Contracts between an OSC and a C3PAO for CMMC assessments.

Service agreements between cybersecurity providers and defense contractors.

Any formal, legally binding arrangement related to CMMC compliance.

- * A. Union # Incorrect
 - * A union typically refers to an organization representing workers and is not used to describe a contractual relationship.
 - * B. Accord # Incorrect
 - * While an accord can mean an agreement, it is not the standard legal term for a binding contract in CMMC documentation.
 - * C. Alliance # Incorrect
 - * An alliance refers to a strategic partnership, but does not necessarily imply a legally binding contract.
 - * D. Agreement # Correct
 - * The CMMC-AB Code of Professional Conduct defines an agreement as any legally binding contract between two entities.
- Why is the Correct Answer "D. Agreement"?
- * CMMC-AB Code of Professional Conduct
 - * Defines "Agreement" as a legally binding contract between two parties.

- * CMMC-AB Licensed Training and Assessment Provider Guidelines
 - * Requires that all engagements be governed by a formal agreement (contract) between the parties.
 - * DFARS and CMMC Certification Contracts
 - * States that OSC-C3PAO relationships must be formalized through a legal agreement.

질문 # 210

An Assessment Team is reviewing a practice that is documented and being checked monthly. When reviewing the logs, the practice is only being completed quarterly. During the interviews, the team members say they perform the practice monthly but only document quarterly. Is this sufficient to pass the practice?

- A. Yes, the practice is being done as documented.
- **B. No, the work is not being done as stated.**
- C. Yes. the interview process is enough to pass a practice.
- D. No, all three assessment methods must be met to pass.

정답: B

설명:

In a CMMC Level 2 Assessment, an assessor must achieve a high level of confidence that a practice is both implemented and institutionalized. This is determined through the Examine, Interview, and Test (E-I-T) methods as outlined in NIST SP 800-171A and the CMMC Assessment Process (CAP).

Conflict of Evidence: The scenario presents a direct conflict between the three pillars of evidence. The Policy /Documentation (Examine) states the practice occurs monthly. The Logs/Artifacts (Examine/Test) show it occurs quarterly. The Interviews claim it happens monthly but is only recorded quarterly.

The "Not Met" Determination: Under the CAP, if the evidence collected does not consistently support the assessment objective, the practice cannot be marked as "Met." Specifically:

Adequacy and Sufficiency: The logs (the primary proof of performance) are insufficient to prove the monthly requirement stated in the documentation.

Inconsistency: Assessors look for "corroboration." When interviews contradict the physical artifacts (the logs), the objective evidence (the logs) carries significant weight. If a practice is required monthly but only recorded quarterly, the assessor cannot verify that it was actually performed during the missing months.

Why other options are incorrect:

Option B: The practice is not being done as documented because the documentation says "monthly" and the logs only show "quarterly." **Option C:** This is a common misconception. Not all three methods (E, I, and T) are required for every single practice (the Assessment Guide specifies which are required), but all used methods must yield consistent "Met" results.

Option D: Interviews alone are almost never sufficient to pass a practice that requires technical or administrative artifacts (logs).

Reference Documents:

CMMC Assessment Process (CAP) v1.0: Section 3.4 (Collect and Verify Evidence) and Section 3.5 (Determine Findings).

CMMC Level 2 Assessment Guide: Introduction to Assessment Methods, emphasizing that findings must be supported by the "preponderance of evidence." NIST SP 800-171A: Chapter 2, "Assessment Procedures," regarding the necessity of artifacts to prove implementation over time.

질문 # 211

The Level 1 practice description in CMMC is Foundational. What is the Level 2 practice description?

- **A. Advanced**
- B. Continuously Improved
- C. Expert
- D. Optimizing

정답: A

설명:

Understanding CMMC 2.0 Levels and Their Descriptions The Cybersecurity Maturity Model Certification (CMMC) 2.0 consists of three levels, each representing increasing cybersecurity maturity:

* Level 1 - Foundational

* Focuses on basic cyber hygiene

* Implements 17 practices aligned with FAR 52.204-21
