DAA-C01 Exam Training, Reliable DAA-C01 Braindumps Free

Our DAA-C01 practice engine with passing rate up to 98 percent can build a surely system to elude any kind of loss of you and help you harvest success effortlessly. We are in dire to help you conquer any questions about DAA-C01 training materials emerging during your review. If you want to be accepted as an indispensable member in your working condition, and obliterate opponents from a great distance, start by using our DAA-C01 Exam Prep to pass the DAA-C01 exam now.

Snowflake SnowPro Advanced: Data Analyst Certification Exam Sample Questions (Q33-Q38):

NEW QUESTION # 33

How do Snowsight dashboards facilitate the presentation of data for business use analyses?

- A. Snowsight doesn't support visual data representation.
- B. Snowsight limits data representation options, hindering analyses.
- C. They enable diverse data representation for effective analyses.
- D. Snowsight dashboards are exclusively text-based, limiting analyses.

Answer: C

Explanation:

Snowsight dashboards enable diverse data representation for effective analyses in business use cases.

NEW QUESTION # 34

A marketing team wants to understand the impact of their campaigns on website traffic and conversions. You have the following

tables in Snowflake: sCAMPAIGN PERFORMANCE: 'CAMPAIGN ONT), (DATE), 'CLICKS' (INT), 'IMPRESSIONS' (INT), 'COST (NUMBER) 'DATE' (DATE), 'PAGE_VIEWS' ONT), (INT) 'CONVERSIONS' 'DATE (DATE), ONT), (NUMBER) Which SQL query and visualization technique would be most suitable for identifying the correlation between campaign spend and website conversions over time, allowing the team to quickly identify campaigns with a high return on investment (ROI)?

- A. Three separate pie charts, one showing the percentage of clicks per campaign, one showing the percentage of impressions per campaign, and one showing the percentage of conversions per campaign.
- B. A simple bar chart showing total clicks per campaign ID, generated from a query that joins 'CAMPAIGN PERFORMANCE with 'WEBSITE _ TRAFFIC' on the DATE column.
- C. An excel Pivot table from exported data from all these tables which uses the data points required.
- **D. A line chart displaying 'COST from 'CAMPAIGN PERFORMANCE, from 'WEBSITE TRAFFIC, and 'CONVERSION COUNT from 'CONVERSIONS' over time (' DATE), joined on the 'DATE column, with a calculated ROI metric displayed as a separate line on the same chart. The query uses a common table expression (CTE) to first calculate daily ROI.**
- E. A scatter plot visualizing the relationship between 'COST' from 'CAMPAIGN PERFORMANCE and 'CONVERSION COUNT from 'CONVERSIONS', aggregated by 'DATE and calculated ROI, generated from a query using window functions to compute cumulative sums and moving averages.

Answer: D

Explanation:

Option D is the most effective. A line chart plotting cost, unique visitors, and conversion count over time allows for visual identification of trends and correlations. Displaying ROI on the same chart provides a direct measure of campaign effectiveness. The CTE helps organize the ROI calculation. Option B, while useful, doesn't explicitly show the temporal relationship. Options A and C offer limited insights into ROI. Exporting and using Excel (E) is not scalable or efficient for dynamic analysis.

NEW QUESTION # 35

When connecting BI tools to Snowflake for dashboard creation, what considerations are crucial for seamless integration? (Select all that apply)

- A. Availability of a Snowflake account only
- **B. Network latency between BI tool and Snowflake**
- **C. Compatibility of BI tool with Snowflake**
- **D. Data encryption requirements**

Answer: B,C,D

Explanation:

Seamless integration requires considering compatibility, encryption, and network latency between BI tools and Snowflake.

NEW QUESTION # 36

How do secure views contribute to data analysis practices in terms of access control and data security?

- A. They prevent the creation of materialized views.
- B. They restrict data access but don't impact data security.
- C. Secure views limit data accessibility for improved security.
- **D. Secure views enhance data security while allowing selective data access.**

Answer: D

Explanation:

Secure views enhance data security while allowing selective data access.

NEW QUESTION # 37

A retail company suspects a sudden drop in sales in the 'Electronics' category. You, as a data analyst, need to perform a diagnostic analysis. Which of the following data collection strategies would be MOST effective to pinpoint the root cause, considering the limitations of Snowflake's cost optimization?

- **A. Gather customer support tickets related to 'Electronics' purchases from the last month, focusing on complaints about**

product quality or delivery issues.

- B. Collect aggregated monthly sales data for the 'Electronics' category, comparing this year's figures to the previous year's.
- C. Execute a sampling query to extract 10% of the sales data of Electronic Category and compare it with previous period data.
- D. Collect detailed sales data (product ID, price, discounts, region, customer segment, timestamps) for the 'Electronics' category for the last 3 months, focusing on daily and hourly trends.
- E. Extract a full data dump of all sales transactions across all categories and historical periods to identify any anomalies globally.

Answer: A,D

Explanation:

Option A provides granular data for trend analysis, and option D brings qualitative data (support tickets) that can reveal underlying issues like product defects or shipping problems. Collecting ALL sales data (option B) is resource-intensive and inefficient for initial diagnostic analysis. Option C lacks the necessary granularity. Option E can be used to establish a baseline for comparison, but is not efficient due to sampling of data.

NEW QUESTION # 38

.....

If you want to get a higher position in your company, you must do an excellent work. Then your ability is the key to stand out. Perhaps our DAA-C01 study guide can help you get the desirable position. At present, many office workers are willing to choose our DAA-C01 Actual Exam to improve their ability. With the help of our DAA-C01 exam questions, not only they have strengthened their work competence and efficiency, but also they gained the certification which is widely accepted by the bigger enterprise.
