Our ITIL-4-CDS study materials guarantee the pass rate from professional knowledge, services, and flexible plan settings. The 99% pass rate is the proud result of our ITIL-4-CDS Study Materials. I believe that pass rate is also a big criterion for your choice of products, because your ultimate goal is to obtain ITIL-4-CDS certification.

## Peoplecert ITIL 4 Specialist: Create, Deliver and Support Sample Questions (Q26-Q31):

### NEW QUESTION # 26

An organization is planning to implement a new service management toolset for effective integration of management practices. Which feature of the service management toolset will be the MOST important in achieving this?

- A. Advanced analytics
- B. Flexible workflow automation
- C. Inventory and discovery of IT assets
- D. High availability and security

**Answer: B**

**NEW QUESTION # 27**

A mobile app development company has implemented a new strategy in its software development process. Instead of large, infrequent updates, it now releases smaller updates every two weeks. These updates are shaped by regular user reviews and suggestions, which the company actively seeks and incorporates into each new version. Which guiding principle is this approach MOST closely aligned with?

- **A. Progress iteratively with feedback**
- B. Think and work holistically
- C. Optimize and automate
- D. Focus on value

**Answer: A**

**NEW QUESTION # 28**

An internal service provider of a charity foundation wants to ensure that all queries coming from users and customers are processed within the agreed time. Records show that the flow of incoming queries is uneven; the teams processing the queries may be overwhelmed one day and have idle capacity on another. What is the BEST way for the service provider to ensure timely processing of all queries?

- A. Limit the number of incoming queries so they could be processed on time
- B. Prioritize all incoming queries according to their economic value to maximize profit and minimize penalties
- **C. Prioritize queues using a combination of criteria to maximize value and minimize risks**
- D. Increase capacity to process all queries without delays

**Answer: C**

**NEW QUESTION # 29**

An internal service provider has made the service desk a single point of contact for all user queries, including incidents, service requests, complaints, and compliments. To ensure a fair allocation of the service desk resources, a common rule for processing all incoming queues has been agreed: "first in, first out." It has soon become apparent that some incidents reported by users spend too much time waiting to be processed and triaged by the service desk. This leads to delayed incident resolution and negative business impact. What is the BEST way to improve the situation?

- A. Recommend users to submit queries well in advance to ensure timely processing
- **B. Prioritize incoming queries based on their type and associated urgency**
- C. Implement separate service desks for incident and service requests
- D. Increase the number of service desk agents to process the incoming queries faster

**Answer: B**

**NEW QUESTION # 30**

An organization has received complaints from customers regarding incident resolution times. The organization is using value stream mapping to visualize the activities involved in restoring service following an outage. The team has designed an optimized flow that begins with the incident being generated by a monitoring tool and ends when service is restored. Leadership is concerned that this approach has failed to provide the insight needed to reduce delays. Which is the BEST action the team can take to address leadership's concern?

- **A. Determine where work is sitting in queues**
- B. Compare the map to actual activities
- C. Introduce additional sources of demand
- D. Automate repeatable work activities

**Answer: A**
