Microsoft GH-900 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Project Management: This section is designed for Project Coordinators and Product Managers and focuses on using GitHub Projects for project management. Candidates learn to create and manage GitHub Projects, utilize project boards for organizing tasks, and integrate project workflows with issues and pull requests to maintain project visibility and progress.
Topic 2	<ul style="list-style-type: none"> Privacy, Security, and Administration: This domain measures skills of Security Administrators and Organization Managers in securing and administering GitHub environments. It covers ensuring repository security through branch protection rules, using security tools like Dependabot, managing access and permissions at repository and organization levels, creating and managing organizations, setting up organization-level security, and overseeing teams and members.
Topic 3	<ul style="list-style-type: none"> Introduction to Git and GitHub: This section of the exam measures skills of Junior Developers and Platform Support Specialists and covers the basic understanding of Git and GitHub. It explains what Git is and why it is used, the fundamental Git workflow, and concepts related to repositories including their local and remote distinctions. Candidates learn essential Git commands such as initializing and cloning repositories, adding and committing changes, pushing and pulling updates, and branching and merging. It also covers navigating GitHub by creating accounts, managing repositories, understanding its interface, and working with issues and pull requests.
Topic 4	<ul style="list-style-type: none"> Working with GitHub Repositories: This domain targets Repository Administrators and Content Managers, focusing on managing repository settings and permissions. Candidates learn to configure repositories, use templates, and effectively manage files by adding, editing, and deleting. The domain also addresses versioning of files and the use of GitHub Desktop for streamlined file management tasks within repositories.
Topic 5	<ul style="list-style-type: none"> Benefits of the GitHub Community: This section targets Community Managers and Open Source Contributors, focusing on engaging with the GitHub community. Candidates learn to participate in open source projects, utilize GitHub Discussions for collaboration and support, and contribute meaningfully to community-driven projects.
Topic 6	<ul style="list-style-type: none"> Modern Development: This domain assesses abilities of DevOps Engineers and Continuous Integration Specialists in implementing modern development practices. It emphasizes understanding DevOps principles and leveraging GitHub Actions for automation and CI CD pipeline implementation. Candidates also learn GitHub's tools and best practices for conducting and managing code reviews.

Microsoft GitHub Foundations Sample Questions (Q54-Q59):

NEW QUESTION # 54

What best describes Markdown?

- A. Containerization solution
- B. Version control system
- C. Markup language
- D. Scripting language
- E. Programming language

Answer: C

Explanation:

Markdown is a lightweight markup language with plain-text formatting syntax. It is designed to be easy to write and read in its raw form, and it can be converted into HTML and other formats. Markdown is commonly used for formatting readme files, writing messages in online discussion forums, and creating rich text documents.

Markup Language:

Option A is correct because Markdown is indeed a markup language. It is not a programming language, scripting language, version control system, or containerization solution.

Incorrect Options:

Option B is incorrect because Markdown is not a programming language; it does not involve control structures or variables.

Option C is incorrect because Markdown is not used for scripting or automation.
Option D is incorrect because Markdown does not manage version control.
Option E is incorrect because Markdown is not related to containerization technologies like Docker.

NEW QUESTION # 55

How can a user highlight a post to the top of the Discussions page?

- A. Create an issue from the discussion.
- **B. Pin the discussion.**
- C. Star the discussion.
- D. Save the discussion.

Answer: B

Explanation:

To highlight a post at the top of the Discussions page on GitHub, you can Pin the discussion. Pinning a discussion ensures it remains prominently visible at the top of the list, making it easier for others to find and participate in that discussion. This is particularly useful for important announcements or frequently referenced topics.

NEW QUESTION # 56

Which of the following can be performed within GitHub Mobile?

- **A. Managing notifications from github.com**
- B. Forking and cloning repositories
- C. Managing enterprise and organization settings
- D. Chat with other GitHub Mobile users via voice calling
- E. Utilizing the mobile device as a self-hosted runner

Answer: A

Explanation:

GitHub Mobile provides a streamlined experience for managing your GitHub notifications and participating in discussions, but it does not offer full functionality compared to the desktop or web interface.

Managing Notifications:

Option E is correct because GitHub Mobile allows users to manage notifications, keeping them up to date with their repositories, issues, pull requests, and other activities on GitHub.

Incorrect Options:

Option A is incorrect because GitHub Mobile cannot be used as a self-hosted runner.

Option B is incorrect because managing enterprise and organization settings is not supported in GitHub Mobile.

Option C is incorrect because GitHub Mobile does not offer a chat or voice calling feature.

Option D is incorrect because forking and cloning repositories are not actions available in GitHub Mobile.

GitHub Docs: GitHub Mobile

NEW QUESTION # 57

What folder is the definition files stored in when creating custom issue forms?

- A. .issues
- B. .GitHub
- C. .issues/ISSUE_TEMPLATE
- **D. .github/ISSUE_TEMPLATE**

Answer: D

Explanation:

When creating custom issue forms on GitHub, the definition files are stored in the .github/ISSUE_TEMPLATE folder. This directory

is used to define issue templates and forms that help standardize the information collected when users open new issues in the repository. The `.github` folder is a special directory used for various repository configurations and workflows.

NEW QUESTION # 58

What are primary benefits of using GitHub issues templates?

(Each answer presents a complete solution. Choose two.)

- A. To easily coerce existing issues into a standard format
- B. To automatically label or assign newly created issues
- C. To provide an easy-to-fill-out form for creating new issues
- D. To automatically create new branches when issues are created

Answer: B,C

Explanation:

The primary benefits of using GitHub issues templates include:

A. To automatically label or assign newly created issues: Issue templates can be configured to automatically apply labels or assign users when the issue is created, helping to streamline triage and management processes.

B. To provide an easy-to-fill-out form for creating new issues: Templates provide a standardized format for submitting issues, ensuring that all necessary information is captured and reducing the need for follow-up questions.

Coercing existing issues into a standard format or automatically creating new branches when issues are created are not functions provided by GitHub issues templates.

NEW QUESTION # 59

• • • • •

It is universally accepted that the competition in the labor market has become more and more competitive in the past years. In order to gain some competitive advantages, a growing number of people have tried their best to pass the GH-900 exam. Because a lot of people hope to get the certification by the related exam, now many leaders of companies prefer to the candidates who have the GH-900 Certification. In their opinions, the certification is a best reflection of the candidates' work ability, so more and more leaders of companies start to pay more attention to the GH-900 certification of these candidates.
