

# Reliable NCP-CI-AWS Exam Prep - NCP-CI-AWS Latest Real Test

## How to Get Ready for the Nutanix NCP-CI-AWS Exam Quickly?

In today's challenging IT sector, earning the Nutanix NCP-CI-AWS certification helps you accelerate your career. The Nutanix Certified Professional NCP-CI-AWS certification proves your technical expertise and also bolsters your credibility in the industry. Furthermore, success in the NCP-CI-AWS certification exam differentiates you from a pool of thousands of job seekers and enhances your chances of landing well-paid jobs and promotions. However, many applicants encounter problems such as a short time and a lack of self-assessment while preparing for the Nutanix Certified Professional - Cloud Integration - AWS v6.7 NCP-CI-AWS exam. If you are also facing these challenges, don't worry and choose JustCerts, which is dedicated to providing actual and the latest NCP-CI-AWS exam questions in three formats. With the help of these real [Nutanix Dumps](#), you can get ready for the exam in a short time.

## Authentic (Valid) Details Regarding The Nutanix NCP-CI-AWS Exam Questions

- VENDOR: (Nutanix)
- EXAM CODE: (NCP-CI-AWS)
- EXAM NAME: (Nutanix Certified Professional - Cloud Integration - AWS v6.7)
- Number OF Questions: (75)
- Certification Name: (Nutanix Certified Professional)
- Exam Language: (ENGLISH)
- Promo Code For Nutanix NCP-CI-AWS Exam Questions: "SAVE25"

DOWNLOAD the newest DumpsTorrent NCP-CI-AWS PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1qs8BEGui6He5q44YcbhgFagB31q5ojs>

The users will notice the above favorable qualities in the web-based Nutanix NCP-CI-AWS Practice Test. But the distinguishing factor that will add to your comfort is that it is suitable for all operating systems (IOS, Macs, Androids, and Windows). The valuable part of this format is that it does not require frustrating installations or heavy plugins.

## Nutanix NCP-CI-AWS Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Deploying an NC2 on AWS Environment: This portion assesses your knowledge of cloud cluster deployment, cloud provider network configuration, and your skills in addressing cluster deployment challenges.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Managing an NC2 on AWS Environment: This exam component tests your understanding of node and cluster management tasks, along with your ability to oversee cluster and cloud resource health.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Prepare the AWS cloud environment: This exam segment evaluates your ability to set up the AWS cloud environment, initiate NC2 service subscription, establish implementation criteria, and recognize networking prerequisites.</li></ul>

- **Configuring an NC2 on AWS Environment:** This section examines your proficiency in setting up cloud networking and security measures, as well as addressing connectivity issues.

## **Nutanix NCP-CI-AWS Dumps Get Success Nutanix NCP-CI-AWS Minimal Effort**

However, you should keep in mind that to get success in the NCP-CI-AWS certification exam is not a simple and easy task. A lot of effort, commitment, and in-depth Nutanix Certified Professional - Cloud Integration - AWS (NCP-CI-AWS) exam questions preparation is required to pass this NCP-CI-AWS Exam. For the complete and comprehensive Nutanix Certified Professional - Cloud Integration - AWS (NCP-CI-AWS) exam dumps preparation you can trust valid, updated, and NCP-CI-AWS Questions which you can download from the DumpsTorrent platform quickly and easily.

## **Nutanix Certified Professional - Cloud Integration - AWS Sample Questions (Q28-Q33):**

### **NEW QUESTION # 28**

An administrator is deploying a new NC2 cluster on AWS and needs to ensure full connectivity is established between the company's on-premises datacenter and the AWS cloud.

Which two AWS offering will satisfy this requirement? (Choose two.)

- A. Dedicated interconnect
- **B. Direct Connect**
- **C. AWS VPN**
- D. ExpressRoute

**Answer: B,C**

Explanation:

To establish full connectivity between the company's on-premises datacenter and the AWS cloud, the following AWS offerings will satisfy this requirement:

**AWS VPN:** This service allows you to create a secure connection between your on-premises network or other remote network and your AWS VPC using an IPsec VPN tunnel. It is suitable for low to moderate bandwidth requirements and provides secure, encrypted connections.

**Direct Connect:** AWS Direct Connect is a dedicated network connection from your premises to AWS. It provides a private, high-bandwidth, low-latency connection which is ideal for high-throughput applications and workloads that need consistent network performance.

### **NEW QUESTION # 29**

An administrator is attempting to deploy an NC2 cluster.

The cluster configuration is as follows:

- \* Name - Cluster-1
- \* Nodes of type i4i.metal
- \* Replication Factor 2
- \* Existing VPC resources
- \* VPC - 10.0.0.0/16
- \* Subnets:
  - \* Bare metal hosts: 10.0.1.0/24
  - \* User VMs:10.0.2.0/24
  - \* Public: 10.0.3.0/24

During the deployment process, the administrator notices the following alert:

What should the administrator do to ensure the cluster deployment does not fail?

- **A. Ensure an outbound Internet connection exists from 10.0.1.0/24.**
- B. Create a new VPC and modify the cluster configuration to use the new VPC.
- C. Check AWS VPC and subnet quotas for the cloud account.
- D. Modify the administrator 's RBAC permissions in the NC2 console.

**Answer: A**

Explanation:

- \* The alert indicates a potential issue with the VPC/Subnet settings, preventing the cluster nodes from contacting Nutanix services.
- \* To resolve this, the administrator needs to ensure that the subnet 10.0.1.0/24, which is assigned for Bare metal hosts, has an outbound Internet connection.
- \* This connection is necessary for the cluster nodes to communicate with external Nutanix services for updates, license validation, and other essential operations.
- \* Verify that there are appropriate route tables and security group rules allowing outbound traffic to the Internet from the 10.0.1.0/24 subnet.
- \* Ensure that there is either an Internet Gateway (IGW) attached to the VPC or a NAT Gateway configured if using private subnets. Refer to the Nutanix documentation and AWS VPC configuration guides to ensure proper Internet connectivity and routing setups.

### NEW QUESTION # 30

An NC2 cluster on AWS has been deployed to act as a DR site for an on-premises cluster. A Layer 2 Stretch has been established and the Gateway on-premises is used for all traffic for the subnet from both clusters.

What would be the course of action to restore service should the on-premises Data Center go completely offline?

- A. Failover the VMs and remove the Forward policy on the NC2 on AWS cluster.
- B. Failover the VMs and update the Forward policy on the NC2 on AWS cluster.
- **C. Failover the VMs and remove the Forward policy on the on-premises cluster.**
- D. Failover the VMs and update the Forward policy on the on-premises cluster.

**Answer: C**

Explanation:

In a Layer 2 stretched environment where the default gateway resides on-premises, a "Forward policy" is used to route traffic from the cloud back to the data center. If the on-premises data center goes completely offline, the on-premises gateway is no longer reachable, which would halt all North-South communication for the VMs failed over to AWS. To restore full service, the administrator must not only failover the VMs to the NC2 cluster but also remove the Forward policy on the on-premises cluster (or specifically update the routing logic to ensure the AWS cluster takes over gateway duties). This allows the cloud cluster to stop attempting to tunnel traffic to the missing on-premises gateway and instead utilize local cloud-based exit points for network traffic, restoring external connectivity.

### NEW QUESTION # 31

An administrator has been tasked with performing a test migrating from an NC2 environment to a Nutanix on-premises environment.

Where should the administrator perform this task?

- **A. NC2 Prism Central**
- B. On-premises Prism Central
- C. NC2 Prism Element
- D. Nutanix Cloud Services Portal

**Answer: A**

Explanation:

When performing a migration from an NC2 environment to a Nutanix on-premises environment, the task should be performed using the NC2 Prism Central. This is because NC2 Prism Central provides a centralized management interface that allows administrators to manage and migrate workloads between cloud and on-premises environments seamlessly.

Nutanix Cloud Clusters (NC2) Documentation

### NEW QUESTION # 32

A company has just adopted Nutanix as their technology of choice and is preparing to deploy Nutanix Cloud Clusters (NC2). Which step must be taken first to gain access to the CN2 console?

- A. Start a free trial via Billing Portal.
- B. Navigate to cloud.nutanix.com
- C. Create a My Nutanix account
- D. Open a support case with Nutanix.

**Answer: C**

Explanation:

- \* Before accessing the Nutanix Cloud Clusters (NC2) console, the first step is to create a My Nutanix account.
  - \* This account serves as the primary gateway for managing and accessing Nutanix services, including NC2.
  - \* Once the account is created, users can log in to the Nutanix portal, where they can manage their subscriptions, start trials, and access various Nutanix services, including the NC2 console.
- Refer to the Nutanix documentation on getting started with NC2 and the My Nutanix account creation process.

### NEW QUESTION # 33

.....

The passing rate of our NCP-CI-AWS study material is very high, and it is about 99%. We provide free download and tryout of the NCP-CI-AWS question torrent, and we will update the NCP-CI-AWS exam torrent frequently to guarantee that you can get enough test bank and follow the trend in the theory and the practice. We provide 3 versions for you to choose thus you can choose the most convenient method to learn. Our NCP-CI-AWS Latest Questions are compiled by the experienced professionals elaborately. So it will be very convenient for you to buy our product and it will do a lot of good to you.
