Salesforce Certified Field Service Consultant Sample Questions (Q130-Q135):

NEW QUESTION # 130

Universal Containers wants to track Technicians' van stock using the Salesforce Field Service mobile app a ensure that Technicians report when parts are used.

Which three data elements should a Consultant recommend tracking to support these requirements?

Choose 3 answers

- A. Warehouse Locations
- B. Mobile Locations
- C. Products Required
- D. Products Consumed
- E. Inventory

Answer: B,D,E

Explanation:
Explanation
Inventory is used to track product quantities in different locations such as warehouses or vans. Products Consumed are used to report when parts are used by technicians during service appointments and adjust inventory levels accordingly. Mobile Locations are used to track inventory in technicians' vans or trucks using geolocation data from their mobile devices. Warehouse Locations are used to track inventory in fixed locations such as warehouses or depots using address data from their records. Products Required are used to request products from inventory for a service appointment, but do not ensure that technicians report when parts are used. - A. Apply the reshuffle action within the Gantt.
- B. Create a custom Gantt action to call an apex class to reschedule appointments.
- C. Define a global optimization job to run hourly.
- D. Write a batch apex class to unscheduled low priority work orders.

Answer: A

NEW QUESTION # 133

in which two scenarios should a consultant recommend multi day service appointment? Choose 2 answers

- A. jobs need to be performed at the same site on the same day of the week.
- B. jobs require multiple stages of work performed by different resources.

- C. jobs require consecutive days of work and can span over weekends.
- D. Jobs can take longer than the available resources hours in a day.

Answer: C,D

Explanation:
Multi-day service appointments are used when jobs can take longer than the available resources hours in a day or require consecutive days of work and can span over weekends. Jobs that need to be performed at the same site on the same day of the week or require multiple stages of work performed by different resources can be handled by single-day service appointments with appropriate scheduling policies and optimization rules.
