Salesforce Certified Field Service Consultant Sample Questions (Q81-Q86):

NEW QUESTION # 81

Universal Containers wants to provide a view of emergency work that is only visible to dispatchers. What should the consultant do to meet the requirement?

- **A. Custom gantt filter**
- B. Custom list view
- C. Custom report in a private report folder
- D. Custom lightning component

Answer: A

NEW QUESTION # 82

Each container consists of multiple parts that are tracked by assets records.

Universal Container customers usually wait until several parts need service before requesting the technician come on a site to save money on the service charges. How should consultants configure the field service lightning to track the work performed?

- **A. Create a work order and work order line item for each asset being serviced**
- B. Create a work to type automatically create relevant line time for each asset
- C. Create a work order for all assets being serviced and work order line item for each product consumed
- D. Create a work order for each asset being serviced

Answer: A

NEW QUESTION # 83

Service appointments in a "cannot complete" status may indicate that an additional part or expert assistance is needed to complete the work. Universal Containers defined that service appointments in a "cannot complete" status are unable to be rescheduled or unscheduled for history tracking purposes.

Which two items should the consultant recommend to meet the requirement?

Choose 2 answers

- **A. Define "cannot complete" as a pinned status for scheduling and optimization services.**
- B. Define "cannot complete" as a pinned status for auto-dispatch services.
- C. Ensure that status transition are configured to allow the status update from "cannot complete" to "scheduled".
- **D. Ensure that status transitions are configured to prevent the update from "cannot complete" to "none".**

Answer: A,D

Explanation:

Explanation

Pinned statuses prevent service appointments from being rescheduled or unscheduled by scheduling and optimization services.

Status transitions define the valid status changes for service appointments based on business rules. References: 3

NEW QUESTION # 84

Universal Containers wants Technicians using the Salesforce Field Service mobile app to indicate when Service Appointments are at risk of late completion.

What should a Consultant recommend to meet this requirement?

- A. Change the Status field on the Service Appointment.
- B. Adjust the Scheduled End field on the Service Appointment.
- **C. Update the In Jeopardy field on the Service Appointment.**
- D. Post to the Service Appointment Chatter feed.

Answer: C

Explanation:

Explanation

The In Jeopardy field on the Service Appointment is a checkbox that indicates whether a service appointment is at risk of late completion based on travel time and service duration calculations. Technicians can update this field using the Field Service Mobile App to alert dispatchers and managers of potential issues. Posting to the Service Appointment Chatter feed, changing the Status field on the Service Appointment, or adjusting the Scheduled End field on the Service Appointment would not indicate that a service appointment is in jeopardy, but would communicate other information such as comments, progress, or rescheduling.
