NEW QUESTION # 23
A customer mentions they're facing challenges introducing new employees to a complex Software as a Service (SaaS) application. They report high training costs and low adoption rates. What WalkMe feature best addresses this challenge?

- A. Sentiment Analysis

- B. Task Automation Tools
- C. Customizable Landing Pages
- D. Digital Onboarding and Training Modules

Answer: D

Explanation:
The WalkMe feature that best addresses the challenge of introducing new employees to a complex SaaS application-while reducing training costs and boosting adoption-is:
B . Digital Onboarding and Training Modules ☐
☐ Why this is the best fit:
* These modules include tools like Smart Walk-Thrus, contextual SmartTips, and in-app training flows designed to guide employees step-by-step through tasks in real time.
* They help reduce manual efforts and training expenses while improving user adoption and productivity
☐ Why not the other options:
* A. Sentiment Analysis - This analyzes user feedback and tone, not directly used for onboarding or initial training walkme.com.
* C. Customizable Landing Pages - These offer navigation aids but don't provide the interactive, guided training needed.
* D. Task Automation Tools - Useful for automating repetitive tasks, but not focused on supporting new employee onboarding and learning flows.
So, for addressing high training costs and low adoption rates in a SaaS rollout scenario, Digital Onboarding and Training Modules provide the ideal WalkMe solution.
