

Exam CIPS L3M6 Overview, Latest L3M6 Test Cram

P.S. Free 2026 CIPS L3M6 dumps are available on Google Drive shared by Prep4King: https://drive.google.com/open?id=18C-gvDF2h_mmUwFrmUcpyn61Xjyz5dXw

Our L3M6 study guide provides free trial services, so that you can gain some information about our study contents, topics and how to make full use of the software before purchasing. It's a good way for you to choose what kind of L3M6 test prep is suitable and make the right choice to avoid unnecessary waste. Besides, if you have any trouble in the purchasing L3M6 practice torrent or trial process, you can contact us immediately and we will provide professional experts to help you online.

CIPS L3M6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Understand the Environmental Impact of Warehousing and Distribution: This section targets Logistics Coordinators and examines how warehousing and distribution contribute to environmental challenges. Topics include air pollution, carbon footprint, noise pollution, accidents, land use, and visual intrusion. It also discusses the environmental costs associated with logistics activities such as greenhouse gas emissions and global warming and strategies to mitigate these impacts. The role of government policies in sustainable logistics is emphasized, including reducing freight intensity, improving utilization rates, promoting greener transport modes, enhancing energy efficiency, and cutting emissions.
Topic 2	<ul style="list-style-type: none">Understand the Concepts of Sustainability and Corporate Social Responsibility (CSR): This section of the exam measures the knowledge of Procurement Specialists and covers the foundational concepts of sustainability and CSR. It explains how sustainability involves meeting present needs without compromising future generations' ability to do the same. The focus extends beyond traditional economic criteria, incorporating environmental and social impacts into procurement decisions. CSR emphasizes extending corporate goals to include social responsibility, promoting good citizenship, and encouraging positive impacts on stakeholders, including social, economic, and cultural diversity.

Topic 3	<ul style="list-style-type: none"> Understand Methods for the Storage and Movement of Inventory: This section assesses the expertise of Warehouse Managers in inventory storage and movement methods. It includes principles of warehouse design, focusing on location, layout factors such as flow and space utilization, and flexibility. It also explains various types of warehousing equipment like material handling systems, palletization techniques, packaging standards, and automation technologies that align with environmental standards.
Topic 4	<ul style="list-style-type: none"> Understand the Environmental Impact of Procurement and Supply: This section evaluates the skills of Supply Chain Analysts in understanding how procurement affects the environment. It explores global challenges such as balancing globalization with green logistics, public awareness, external pressures, and international regulations. The environmental impact of transportation and storage is covered, including air pollution, carbon footprint calculations, noise pollution, accidents, and land use. Additionally, it highlights the government's role in promoting sustainability through policies like greener transport modes, energy efficiency, and emission reduction.

100% Pass CIPS - Valid Exam L3M6 Overview

To ensure your 100% satisfaction, L3M6 free demo are available for the certification exam you're going to take before you purchased. All our L3M6 dumps collection is quite effectively by millions of people that passed L3M6 Real Exam and become professionals in IT field. You will never regret choosing our L3M6 test answers as your practice materials because we will show you the most authoritative study guide.

CIPS Socially Responsible Warehousing and Distribution Sample Questions (Q128-Q133):

NEW QUESTION # 128

Warehouses and stores have various impacts on the environment. Select all that apply.

- A. Accidents/risks
- B. Land take
- C. Visual intrusion
- D. Ocean pollution
- E. Vibration

Answer: A,B,C,E

Explanation:

The CIPS L3M6 syllabus lists multiple environmental impacts of warehouses: accidents/risks (A) from operations, land take (B) from construction, vibration (D) from equipment, and visual intrusion (E) from aesthetics. Ocean pollution (C) is unrelated to typical warehousing unless near coastal areas, which isn't specified. CSR monitoring tracks these impacts for sustainability.

NEW QUESTION # 129

The CDP has 4 dimensions. What are they?

- A. Discovery, awareness, management, and leadership
- B. Disclosure, awareness, management, and leadership
- C. Discovery, awareness, morals, and leadership
- D. Disclosure, awareness, morals, and leadership

Answer: B

Explanation:

The CDP (Carbon Disclosure Project) is a global disclosure system that helps organizations measure and manage their

environmental impacts. It operates on four key dimensions: disclosure, awareness, management, and leadership. These dimensions represent a progression:

- * Disclosure: Reporting environmental data transparently.
- * Awareness: Understanding the organization's environmental impact.
- * Management: Taking steps to mitigate those impacts.
- * Leadership: Demonstrating best practices in environmental stewardship.

These align with the CDP's methodology for assessing organizations' environmental performance, as recognized in the CIPS L3M6 framework under sustainability reporting.

NEW QUESTION # 130

Environmental sustainability is only promoted at the national level.

- A. FALSE
- B. TRUE

Answer: A

Explanation:

False. The CIPS L3M6 syllabus highlights sustainability promotion at multiple levels-local, national, regional, and international (e.g., UN agreements). Limiting it to national efforts ignores global CSR frameworks.

Reference:

NEW QUESTION # 131

The use of automatic equipment to perform activities that were previously done by people, e.g., storing and picking orders, is known as what?

- A. Arbitration
- B. Automation
- C. Assimilation
- D. Aviation

Answer: B

Explanation:

Automation refers to using technology (e.g., AGVs, robotics) to replace human labor in tasks like storing and picking orders, improving efficiency and safety. The CIPS L3M6 syllabus identifies automation as a key trend in modern warehousing, making this the correct answer.

Reference:

NEW QUESTION # 132

A socially responsible strategy for store and warehouse design can create a competitive advantage by considering the entire life cycle, from construction to _____.

- A. Destruction
- B. Decommissioning
- C. Commissioning
- D. Compensation

Answer: B

Explanation:

Decommissioning refers to the end-of-life phase of a warehouse, including dismantling and waste management. A socially responsible strategy considers the full life cycle-construction to decommissioning-to minimize environmental impact and costs, creating a competitive edge. The CIPS L3M6 syllabus highlights this approach, making it the correct answer.
