VCEDumps provide people a relatively short period of time with a great important AZ-700 Exam tool to pass the qualification test. If someone choose the our high efficiency exam tool, our reliable AZ-700 dump can help users quickly analysis in the difficult point, high efficiency of review, and high quality through the exam, work for our future employment and increase the weight of the promotion, to better meet the needs of their own development.

Microsoft Designing and Implementing Microsoft Azure Networking Solutions Sample Questions (Q237-Q242):

NEW QUESTION # 237

You have the network security groups (NSGs) shown in the following table.

In NSG1, you create inbound rules as shown in the following table.

You have the Azure virtual machines shown in the following table.

NSG2 has only the default rules configured.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 238

You have an Azure subscription that contains the route tables and routes shown in the following table.

The subscription contains the subnets shown in the following table.

The subscription contains the virtual machines shown in the following table.

There is a Site-to-Site VPN connection to each local network gateway.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

<https://docs.microsoft.com/en-us/azure/virtual-network/virtual-networks-udr-overview>

NEW QUESTION # 239

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 240

You have a DNS domain named contoso.com that is hosted by a third party domain name registrar.

You have an Azure subscription.

You need to ensure that all DNS queries for the contoso.com domain are resolved by using Azure DNS.

What should you create in the registrar, and what should you create in Azure? To answer, drag the appropriate options to the correct targets. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 241

You have two Azure virtual networks in the East US Azure region as shown in the following table.

The virtual networks are peered to one another. Each virtual network contains four subnets.

You plan to deploy a virtual machine named VM1 that will inspect and route traffic between all the subnets on both the virtual networks.

What is the minimum number of IP addresses that you must assign to VM1?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

The question asks about setting up a VM to perform this traffic inspection, not an Azure Firewall.

The VM would function as a Network Virtual Appliance (NVA). NVAs are frequently configured as Firewalls using third party OS (Barracuda, Palo Alto, Cisco, etc), but this doesn't make it an Azure Firewall.

This should be easily doable with a single IP on the NIC attached to the VM that will be configured as an NVA.

NEW QUESTION # 242

.....

Our system is high effective and competent. After the clients pay successfully for the AZ-700 study materials the system will send the products to the clients by the mails. The clients click on the links in the mails and then they can use the AZ-700 study materials immediately. Our system provides safe purchase procedures to the clients and we guarantee the system won't bring the virus to the clients' computers and the successful payment for our AZ-700 Study Materials. Our system is strictly protect the clients' privacy and sets strict interception procedures to forestall the disclosure of the clients' private important information. Our system will automatically send the updates of the AZ-700 study materials to the clients as soon as the updates are available. So our system is wonderful.
