AZ-140 Exam Introduction | AZ-140 New Soft Simulations

ITCertMagic gives its customers an opportunity to try its AZ-140 product with a free demo. If you want to clear the Configuring and Operating Microsoft Azure Virtual Desktop (AZ-140) test, then you need to study well with real AZ-140 exam dumps of ITCertMagic. These AZ-140 Exam Dumps are trusted and updated. We guarantee that you can easily crack the AZ-140 test if use our actual Microsoft AZ-140 dumps.

Microsoft Configuring and Operating Microsoft Azure Virtual Desktop Sample Questions (Q118-Q123):

NEW QUESTION # 118

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Azure Virtual Desktop host pool named Pool1 that is integrated with an Azure Active Directory Domain Services (Azure AD DS) managed domain.

You need to configure idle session timeout settings for users that connect to the session hosts in Pool1.

Solution: From an Azure AD DS-joined computer, you modify the AADDC Users GPO settings.

Does that meet the goal?

- A. No
- B. Yes

Answer: A

Explanation:

Set time limit for active but idle Remote Desktop Services sessions:

Computer Configuration\ Administrative Templates\ Windows Components\ Remote Desktop Services\ Remote Desktop Session Host\ Session Time Limits\

NEW QUESTION # 119

You need to configure a conditional access policy to meet the authentication requirements.

What should you include in the policy configuration? To answer, select the appropriate options in the answer area.

NOTE Each correct selection is worth one point.

Answer Area

 Set Cloud apps or actions to include: Azure Virtual Desktop Azure Virtual Desktop: Azure Resource Manager Provider Azure Virtual Desktop Client
Set Session controls to include: Persistent browser session Sign-in frequency Use app enforced restrictions

Answer:

Explanation:

Answer Area

 Set Cloud apps or actions to include: Azure Virtual Desktop Azure Virtual Desktop: Azure Resource Manager Provider Azure Virtual Desktop Client
Set Session controls to include: Persistent browser session Sign-in frequency Use app enforced restrictions

Explanation

Table Description automatically generated

Set Cloud apps or actions to include:

 Azure Virtual Desktop
Azure Virtual Desktop: Azure Resource Manager Provider
Azure Virtual Desktop Client

Set Session controls to include:

 Persistent browser session
Sign-in frequency
Use app enforced restrictions

NEW QUESTION # 120

You have an Azure Virtual Desktop deployment that contains a host pool. The host pool contains 10 session hosts. The session hosts are configured by using a custom image and ephemeral disks.

You need to deploy Microsoft OneDrive for Business.

Which two actions should you perform for each session host? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Install FSLogix.
- B. Install the OneDrive sync app by using the per-user installation option.
- C. **Install the OneDrive sync app by using the per-machine installation option.**
- D. Implement Application Masking.
- E. Deploy an MSIX app attach package.

Answer: A,C

Explanation:

The two actions you should perform for each session host in order to deploy Microsoft OneDrive for Business are:

A). Install FSLogix - FSLogix provides a single-user solution for running multiple OneDrive for Business clients simultaneously on the same session host.

B). Install the OneDrive sync app by using the per-machine installation option - according to the Microsoft AZ-140 Official Guide, "OneDrive for Business supports per-machine installation, which is required for a multi- user VDI environment." This means that the OneDrive sync app must be installed on each session host using the per-machine installation option.

NEW QUESTION # 121

You have an Azure Virtual Desktop deployment that uses Azure Active Directory Domain Services (Azure AD DS). You have the following host pool:

- * Name: Pool1
- * Type: Personal
- * Number of session hosts: 5

You plan to deploy two new session hosts to Pool1. What should you do before you deploy the session hosts?

- A. Create a scaling plan.
- B. Create a registration key.
- C. Precreate a computer account in Azure AD DS.
- D. Increase the maximum session limit.

Answer: C

Explanation:

Explanation

This is done by using the Add-AzDomainComputer cmdlet in PowerShell. After the computer accounts have been created, the new session hosts can be deployed. For more information, please refer to the following Microsoft documentation:

<https://docs.microsoft.com/en-us/azure/virtual-desktop/create-session-host-pools#precreate-comp>

NEW QUESTION # 122

You have an Azure Virtual Desktop deployment that contains an Azure compute gallery. The Azure compute gallery contains an image definition named Definitions Definition1 contains the following image versions:

- * 1.0.0
- * 1.1.0
- * 1.2.0

You need to ensure that when a virtual machine is created from the Azure compute gallery, the 1.1.0 image version is used by default.

What should you do?

- A. Select Exclude from latest for image version 1.0.0.
- B. Apply a lock to image version 1.1.0.
- C. Select Exclude from latest for image version 1.2.0.
- D. Apply a tag named default to image version 1.1.0.

Answer: C

Explanation:

Exclude from latest. You can keep a version from being used as the latest image version. <https://learn.microsoft.com/en-us/azure/virtual-machines/shared-image-galleries?tabs=azure-cli>

NEW QUESTION # 123

.....

As the tech industry continues to evolve and adapt to new technologies, professionals who hold the Configuring and Operating Microsoft Azure Virtual Desktop (AZ-140) certification are better equipped to navigate these changes and stay ahead of the curve, increasing their value to employers and clients.
