We all know that CIS-SPM study materials can help us solve learning problems. But if it is too complex, not only can't we get good results, but also the burden of students' learning process will increase largely. Unlike those complex and esoteric materials, our CIS-SPM Study Materials are not only of high quality, but also easy to learn. Our study materials do not have the trouble that users can't read or learn because we try our best to present those complex and difficult test sites in a simple way.

ServiceNow CIS-SPM Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Security Assessment and Testing: This section focuses on security audit principles and methodologies, penetration testing techniques, and the use of security metrics and reporting.

So the clients can carry about their electronic equipment available on their hands and when they want to use them to learn our CIS-SPM study materials they can take them out at any time and learn offline.

ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q12-Q17):

NEW QUESTION # 12

When a demand is converted to a project, the following fields retain the start and due date:

Choose 2 answers

- A. Approved start date
- B. Approved end date
- C. Actual end date
- D. Actual start date

Answer: A,B

NEW QUESTION # 13

What is the demand workbench used for?

Choose 2 answers

- A. Comparing demands with portfolios
- B. Approving demands
- C. Approving ideas
- D. Comparing and prioritizing demands against other demands

Answer: A,D

Explanation:

Explanation

The demand workbench is a feature of ServiceNow Demand Management that allows you to view and assess business demands in a single place. You can use the demand workbench to compare demands with portfolios and see how they align with your strategic goals and objectives. You can also use the demand workbench to compare and prioritize demands against other demands based on their scores, risks, and benefits. You can find more information about the demand workbench in the Product Documentation for ServiceNow.

NEW QUESTION # 14

Which is the minimum role that has access to the Project Administration > Settings > Preferences-Project module?

- A. it_program_manager
- B. sys_admin
- C. it_pps_admin
- D. it_project_manager

Answer: C

Explanation:

According to the ServiceNow documentation¹, the it_pps_admin role is the minimum role that has access to the Project Administration > Settings > Preferences-Project module. This role can configure the project preferences, such as the default project template, the default project currency, and the default project status. The other options are incorrect because:

A. it_program_manager: The it_program_manager role can create and manage programs, but not project preferences².

B. sys_admin: The sys_admin role can access all modules and features on the platform, but it is not the minimum role required for the Project Administration > Settings > Preferences-Project module³.

C. it_project_manager: The it_project_manager role can create and manage projects, but not project preferences⁴.

2: https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/project-portfolio-management/concept/c_ProgramManagement.html

3: https://docs.servicenow.com/bundle/vancouver-platform-administration/page/administer/users-and-groups/concept/c_Roles.html

4: https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/project-management/concept/c_ProjectManagement.html

NEW QUESTION # 15

When creating a project from demand, what related records are moved and copied upon Project Creation?

- A. Cost Plan and Assessment.
- B. Resource Plan and Change Requests.
- C. Resource Plan and Cost Plan.
- D. Idea and Demand.

Answer: C

Explanation:

According to the Create a customer project from a demand document, when creating a project from demand, the resource plan and the cost plan are moved and copied upon project creation. The resource plan defines the resources required for the project, and the cost plan defines the estimated and actual costs for the project. The other options are not correct, as they are not related records that are moved and copied upon project creation. The change requests, the idea, and the demand are not moved or copied to the project, but they are linked to the project as references. The assessment is not a record that is associated with the project, but with the demand.

NEW QUESTION # 16

The Project management application supports two types of external dependencies. What are they?

Choose 2 answers

- A. Task Dependency.
- B. Change Dependency.

- C. Soft Dependency.
- D. Milestone Dependency.
- E. Hard Dependency.

Answer: C,E

Explanation:

The Project Management application supports two types of external dependencies: hard dependency and soft dependency. A hard dependency is a dependency that must be met before a task can start or finish. A soft dependency is a dependency that is preferred but not mandatory for a task to start or finish. You can find more information about these dependency types in the Product Documentation for ServiceNow.

NEW QUESTION # 17

.....
