## Quiz 2026 Fortinet FCP\_FMG\_AD-7.4: Reliable Reliable FCP - FortiManager 7.4 Administrator Test Sims

If you haplessly fail the FCP\_FMG\_AD-7.4 exam, we treat it as our responsibility then give you full refund and get other version of

FCP\_FMG\_AD-7.4 practice material for free. That is why we win a great deal of customers around the world. Especially for those time-sensitive and busy candidates, all three versions of FCP\_FMG\_AD-7.4 Exam Questions can be chosen based on your preference. Such as app version of our FCP\_FMG\_AD-7.4 learning guide, you can learn it using your phone without the limitation of place or time.

## Fortinet FCP - FortiManager 7.4 Administrator Sample Questions (Q45-Q50):

### NEW QUESTION # 45

An administrator, Trainer, who is assigned the Super\_User profile, is trying to approve a workflow session that was submitted by another administrator, Student. However, Trainer is unable to approve the workflow session.

What can prevent an admin account that has Super\_User rights over the device from approving a workflow session?

- A. Trainer does not have full rights over this ADOM.
- B. Trainer must close Student's workflow session before approving the request.
- C. Trainer must first create their own workflow session to approve student session.
- **D. Trainer is not a part of workflow approval group.**

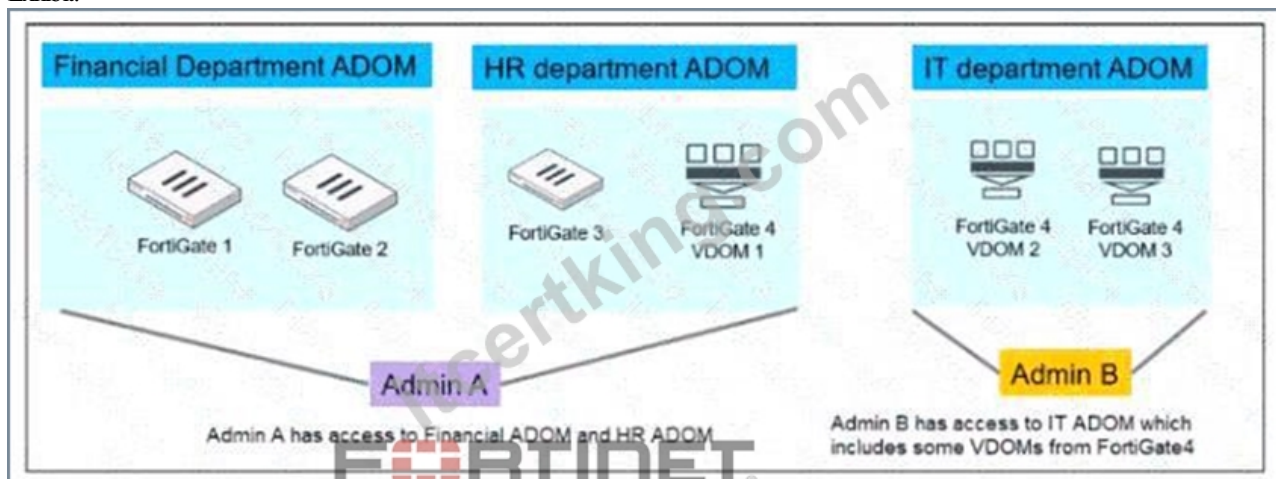

**Answer: D**

Explanation:

An administrator must be part of an approval group, and have rights over the ADOM in which the session was created.

### NEW QUESTION # 46

Exhibit.

An administrator would like to create three ADOMs on FortiManager with different access levels based on departments. What two conclusions can you draw from the design shown in the exhibit? (Choose two.)

- A. The administrator must configure FortiManager in workspace normal mode.
- **B. The FortiManager administrator must set the ADOM device mode to Advanced**
- C. Policies and objects databases can be shared between the Financial and HR ADOMs.
- **D. An administrator with the super user profile can access all the VDOMs.**

**Answer: B,D**

Explanation:

Based on the exhibit, the FortiManager administrator is setting up three ADOMs (Administrative Domains) that correspond to different departments (Financial, HR, and IT). Each ADOM has specific FortiGate devices or VDOMs (Virtual Domains) assigned to it, with different administrators managing the ADOMs.

Explanation of Options:

\* A. The FortiManager administrator must set the ADOM device mode to Advanced.

\* This is true. In FortiManager, when there are VDOMs (Virtual Domains) involved, you must set the ADOM to Advanced mode to manage VDOMs properly. The IT department ADOM includes different VDOMs from FortiGate 4 (VDOM 2 and VDOM 3), which means the ADOM mode must be in Advanced to support managing VDOMs separately from other ADOMs.

\* B. Policies and objects databases can be shared between the Financial and HR ADOMs.

\* This is false. By default, ADOMs are separate, and policies and objects cannot be shared between them unless they are specifically designed to do so. The exhibit shows distinct ADOMs for each department, implying no direct sharing of policies and objects between Financial and HR ADOMs.

\* C. An administrator with the super user profile can access all the VDOMs.

\* This is true. A FortiManager administrator with the super user profile has full access to all ADOMs and VDOMs, regardless of how access is restricted for individual administrators. In this case, an admin with the super user profile could access Financial, HR, and IT ADOMs, including all the VDOMs from FortiGate 4.

\* D. The administrator must configure FortiManager in workspace normal mode.

\* This is false. There is no requirement mentioned in the exhibit or scenario that mandates using workspace normal mode.

Workspace mode is more related to how configuration changes are managed (locking, editing, etc.), but it doesn't affect the creation or access control of ADOMs.

Conclusion:

\* A is correct because Advanced mode is necessary for managing VDOMs within ADOMs.

\* C is correct because a super user can access all VDOMs and ADOMs without restrictions.

## NEW QUESTION # 47

Refer to the exhibit.

FortiManager CLI output										
FortiManager # execute top										
top - 13:08:23 up 1 day, 1:01, 0 users, load average: 2.40, 3.19, 3.34

%Cpu(s): 15.4 us, 7.7 sy, 0.0 ni, 76.9 id, 0.0 wa, 0.0 hi, 0.0 si, 0.0 st										
MiB Mem : 7955.5 total, 2235.6 free, 2895.6 used, 2824.1 buff/cache										
MiB Swap: 2048.0 total, 2048.0 free, 0.0 used, 4011.0 avail Mem										
PID	USER	PR	NI	VIRT	RES	%CPU	%MEM	TIME+	S	COMMAND
1163	root	20	0	17.6m	2.1m	7.1	0.1	0:00.05	R	top
1	root	20	0	602.2m	14.9m	0.0	0.7	0:11.67	S	/bin/initXXXXXXXXXX
2	root	20	0	0.0m	0.0m	0.0	0.0	0:00.00	S	[kthreadd]
1462	root	20	0	303.2m	248.0m	0.0	3.1	0:14.72	S	fwmsvrd
1463	root	20	0	288.2m	232.3m	0.0	2.9	0:16.47	S	fgdlinkd
1465	root	20	0	383.7m	328.0m	0.0	4.1	0:15.26	S	fgdsvr
1467	root	20	0	84.0m	23.6m	0.0	0.3	0:00.06	S	/bin/fgdhttpd
1468	root	20	0	63.9m	13.1m	0.0	0.2	0:13.00	S	fgdupd
1469	root	20	0	63.5m	12.6m	0.0	0.2	0:00.07	S	fmtr_svrd
1470	root	20	0	6.3m	3.5m	0.0	0.0	0:00.09	S	/bin/webconsole
1471	root	20	0	996.4m	850.6m	0.0	10.7	0:00.01	S	srchd
1475	root	20	0	996.4m	120.6m	0.0	1.5	0:00.00	S	fclinkd

What percent of the available RAM is being used by the process in charge of downloading the web and email filter databases from the public FortiGuard servers?

- A. 2.9
- B. 1.5
- C. 3.1
- D. 4.1

**Answer: A**

Explanation:

In the exhibit, the FortiManager CLI output displays the results of the `top` command, which shows system processes, CPU usage, and memory (RAM) usage. We are specifically looking for the process responsible for downloading the web and email filter databases from the public FortiGuard servers. This process is typically handled by the `fgdlinkd` process.

Key information from the output:

\* The `fgdlinkd` process is listed with a PID of 1463.

\* The `%MEM` column shows that this process is using 2.9% of the available RAM.

Evaluation of Options:

- \* A. 2.9: This is incorrect. The `fgdlinkd` process, which handles the web and email filter database downloads, is using 2.9% of the available memory, as indicated in the `%MEM` column.
- \* B. 3.1: This is incorrect. The 3.1% memory usage belongs to the `fwmsvrd` process, not the `fgdlinkd` process.
- \* C. 1.5: This is incorrect. The 1.5% memory usage belongs to the `fcld` process, not the `fgdlinkd` process.
- \* D. 4.1: This is incorrect. The 4.1% memory usage belongs to the `fgdsvr` process, not the `fgdlinkd` process.

#### NEW QUESTION # 48

When using the FortiManager JSON API, what is the purpose of the session ID received after successful authentication?

- A. It is used to identify the FortiManager metadata on the client.
- B. It contains information about the HTTP request method used.
- C. It serves as an authentication token for subsequent API requests.
- D. It includes a hash to check the integrity of the JSON response sent by FortiManager.

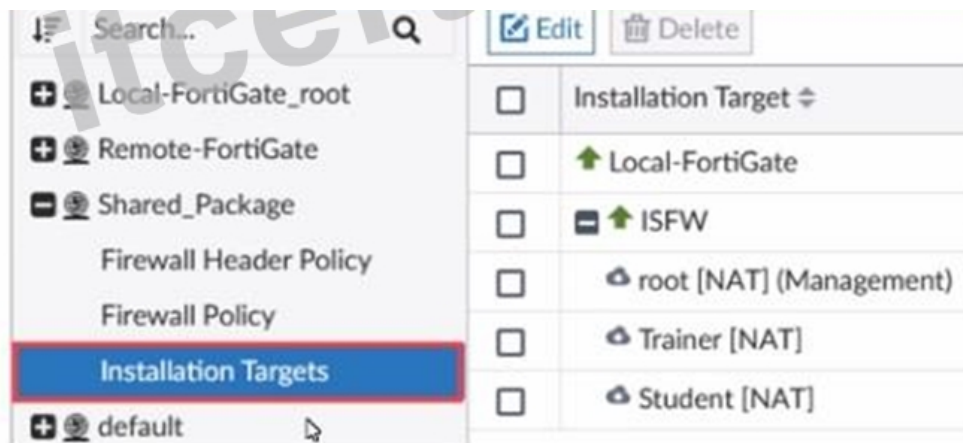

Answer: C

#### NEW QUESTION # 49

Refer to the exhibit.

The screenshot displays the FortiManager web interface. At the top, the 'Managed FortiGate devices' section is visible. On the left, a search bar and a list of devices are shown. The 'Managed FortiGate (4)' category is selected and highlighted with a red box. Below it, the following devices are listed: ISFW (3) with sub-items 'root', 'Student', and 'Trainer'; Local-FortiGate; and Managed FortiAnalyzer (1) with sub-item FAZVM64-KVM. On the right, a large green donut chart shows '2 Devices'. Below the chart are buttons for 'Edit', 'Delete', and 'Import Configur'. A table lists the devices with checkboxes and names: 'Training', 'ISFW', 'root [NAT] (Management)', 'Student [NAT]', 'Trainer [NAT]', and 'Local-FortiGate\*'. At the bottom, the 'FortiManager policy package' section is visible, with a 'Policy Package' button highlighted by a red box. A large 'fortnetking.com' watermark is overlaid diagonally across the bottom half of the image.

### FortiManager policy package

Policy Package						
Search...	+	Create New	Edit	Delete	Section	Policy Lookup
Local-FortiGate_root	<input type="checkbox"/>	#	Name	Install On	From	To
Remote-FortiGate	<input type="checkbox"/>	1	Ping_Access	ISFW (root) ISFW (Student)	port3	port1
Shared_Package	<input type="checkbox"/>	2	Web	Local-FortiGate (root) ISFW (Student)	port3	port1
Firewall Header Policy	<input type="checkbox"/>	3	Source_Device	Installation Targets	port3	port1
Firewall Policy	<input type="checkbox"/>	Implicit (4/4 Total:1)				
Installation Targets	<input type="checkbox"/>	4	Implicit Deny	Installation Targets	any	any
default	<input type="checkbox"/>					

Given the configuration shown in the exhibit, which two conclusions can you draw from the installation targets in the Install On column? (Choose two.)

- A. Policy seq.# 3 will be skipped because no installation targets are specified.
- B. Policy seq.# 1 will be installed on all managed devices and VDOMs that are listed under Installation Targets
- C. Policy seq.# 2 will not be installed on the Local-FortiGate root VDOM because there is no root VDOM in the Installation Target
- D. Policy seq.# 1 will be installed on the ISFW device root[NAT] and Student[NAT] VDOMs only.

**Answer: B,D**

Explanation:

\* Option A: Policy seq.# 3 will be installed on all managed devices and VDOMs that are listed under Installation Targets. This is correct. The "Install On" column indicates that the policy is targeted for installation on all listed managed devices and VDOMs under Installation Targets.

\* Option D: Policy seq.# 1 will be installed on the ISFW device root[NAT] and Student[NAT] VDOMs only. This is correct. Policy sequence #1 specifies that it will be installed only on the ISFW device and the VDOMs 'root[NAT]' and 'Student[NAT]' as indicated by the "Install On" column.

Explanation of Incorrect Options:

\* Option B: Policy seq.# 3 will be skipped because no installation targets are specified is incorrect because it is clearly listed under "Installation Targets," which means it will be installed according to the specified configuration.

\* Option C: Policy seq.# 2 will not be installed on the Local-FortiGate root VDOM because there is no root VDOM in the Installation Targets is incorrect as the exhibit does not show any specific exclusion for seq.# 2 on the Local-FortiGate root VDOM.

FortiManager References:

\* Refer to the FortiManager Administration Guide sections on "Policy Packages" and "Policy Installation Targets" for more details.

## NEW QUESTION # 50

.....

Fortinet certification is one of the best golden-content certifications in IT expert field all over the world, and it is also the necessary condition of choosing talents standard in large enterprises. FCP\_FMG\_AD-7.4 exam questions answers is useful for candidates who are eager to go through the examination. There are thousands of companies recognized and valued the certification in the world. FCP\_FMG\_AD-7.4 Exam Questions Answers will make you pass exam easily.

**FCP\_FMG\_AD-7.4 Reliable Exam Bootcamp:** [https://www.itcertking.com/FCP\\_FMG\\_AD-7.4\\_exam.html](https://www.itcertking.com/FCP_FMG_AD-7.4_exam.html)

As a hot certification, increasing people attend to the test to struggle for the FCP\_FMG\_AD-7.4, but the difficulty of the FCP\_FMG\_AD-7.4 exam questions torrent and the limited time make your way to success tough, Fortinet Reliable FCP\_FMG\_AD-7.4 Test Sims If you think it is worth buy, you can do your decision, Itcertking provides its Fortinet FCP\_FMG\_AD-7.4 exam questions in three forms, one is PDF eBook, the second is practice exam software for Windows-based systems, and the third is an online practice test, Be smart in your career decision and enroll in FCP - FortiManager 7.4 Administrator FCP\_FMG\_AD-7.4 certification exam and learn new and in demands skills.

The Case of the Slow Project File Opens, Itcertking is the best platform where you can get reliable, update and valid Fortinet FCP\_FMG\_AD-7.4 exam preparation material.

As a hot certification, increasing people attend to the test to struggle for the FCP\_FMG\_AD-7.4, but the difficulty of the FCP\_FMG\_AD-7.4 exam questions torrent and the limited time make your way to success tough.

## 100% Pass 2026 Pass-Sure Fortinet Reliable FCP\_FMG\_AD-7.4 Test Sims

If you think it is worth buy, you can do your decision, Itcertking provides its Fortinet FCP\_FMG\_AD-7.4 exam questions in three forms, one is PDF eBook, the second is practice FCP\_FMG\_AD-7.4 exam software for Windows-based systems, and the third is an online practice test.

Be smart in your career decision and enroll in FCP - FortiManager 7.4 Administrator FCP\_FMG\_AD-7.4 certification exam and learn new and in demands skills, Recognize that it is a defining moment in your life as your prospects rest on making a mark in the sector.
