저희는 수많은 IT자격증 시험에 도전해보려 하는 IT인사들께 편리를 가져다 드리기 위해 PRINCE2 PRINCE2Practitioner실제시험 출제유형에 근거하여 가장 퍼펙트한 시험공부가이드를 출시하였습니다. 많은 사이트

에서 판매하고 있는 시험자료보다 출중한Fast2test의 PRINCE2 PRINCE2Practitioner덤프는 실제시험의 거의 모든 문제를 적중하여 고득점으로 시험에서 한방에 패스하도록 해드립니다. PRINCE2 PRINCE2Practitioner시험은Fast2test 제품으로 간편하게 도전해보시면 후회없을 것입니다.

## 최신 PRINCE2 Certification PRINCE2Practitioner 무료샘플문제 (Q165-Q170):

### 질문 # 165

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project. Which 2 statements should be recorded under the Risk management procedure heading?

- A. Any risk which has an expected value of more than E1 k will NOT be registered.
- B. When a new problem arises, a full impact analysis will be undertaken to assess the impact on the project' objectives and Business Case.
- C. 'Reduce' Response actions which result in a lower impact and/or probability rating.
- **D. Probability will be assessed against the scales defined in this Risk Management Strategy.**
- **E. Every threat and opportunity identified must be clearly defined in terms of cause, event and effect.**

정답: D,E

### 질문 # 166

Scenario

A photographer from Portraits Ltd, a professional photographic company, has taken on the role of Team Manager after taking some time to understand the requirements of the project. A contract for their services has been set up and is being monitored by the Purchasing Manager and a Work Package has been agreed. This contract specifies that the photographer must arrange a meeting with the Engineering Manager to establish a schedule for the photo sessions to minimize the impact on the Engineering staff. This meeting should have occurred by now.

The Engineering Manager was made aware of this requirement but when asked he reported that he has received no communication from the photographer. The Project Manager has tried to call the photographer and has had no response. The Project Manager believes there is a risk that Portraits Ltd are overbooking work and prioritizing other clients' work. If Portraits ltd do not deliver on schedule the project will be delayed and the expected benefits will be reduced.

The contract is to be reviewed and Portraits Ltd reminded of their agreement.

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Which 2 statements should be recorded under the Risk management procedure heading?

- A. Any risk which has an expected value of more than £1 k will NOT be registered.
- B. When a new problem arises, a full impact analysis will be undertaken to assess the impact on the project' objectives and Business Case.
- C. 'Reduce' Response actions which result in a lower impact and/or probability rating.
- **D. Probability will be assessed against the scales defined in this Risk Management Strategy.**
- **E. Every threat and opportunity identified must be clearly defined in terms of cause, event and effect.**

정답: D,E

### 질문 # 167

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will

deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered.

ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

□ End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.

The Purchasing Manager reports to the Finance Director and is responsible for managing and monitoring supplier contracts.

The Operations Director is responsible for the delivery of all training and for the training development budget. His department organizes courses, venues and trainers. They work with the Product and the Sales teams to provide a comprehensive training schedule. ABC Company's IT manager reports to the Operations Director.

The Business Development Director has recently been appointed to identify new training needs and propose new products. She will work with the Operations Director to ensure a cost-conscious approach and that appropriate development technologies are used for the health and safety course.

The Training Development Manager reports to the Business Development Director and is responsible for developing training materials and gaining accreditation, in accordance with the standard course development model. Course developers in his team have skills in a range of development technologies and are allocated to projects as needed.

The Training Delivery Manager, who reports to the Operations Director, is responsible for ensuring that internal and external trainers deliver ABC Company training courses to the required standard. He also checks course materials to ensure they are fit for purpose and of the required quality.

The Central Services Director has responsibility for corporate communications, facilities management and configuration management. He recently led a project to consolidate all company quality systems into one quality management system and set up a corporate quality department, now managed by the Corporate Quality Manager.

The Corporate Document Manager reports to the Central Services Director. She helped establish the company's document management system and now operates it across the business. She manages a team of administrators and contracts staff when workload is high.

The Sales Director joined ABC Company two months ago and is keen to establish himself by suggesting new markets for the courses and material. All account managers and the marketing team report to him. They promote existing training courses to other training companies and existing customers.

End of the additional information.

The executive has set the following tolerances for stage 2:

Time (+/- 1 week)

Cost (+/- £20,000)

Scope (using MoSCoW prioritization technique)

Risk (based on the risk appetite defined in the risk management approach) These tolerances have been recorded in the stage plan.

The project manager will report progress regularly via highlight reports to the project board and use exception reports to raise exceptions. In addition, the project assurance role will monitor the stage to provide confidence to the project board that exceptions are being reported.

How well does this apply the 'manage by exception' principle, and why?

- A. It applies the principle well, because tolerances should be set for the related aspects of project performance for each stage.
- B. It applies the principle well, because the project manager needs to control the project using discrete management stages.
- C. It applies the principle poorly, because it is the regular reporting of progress that should give the project board the required confidence.
- **D. It applies the principle poorly, because tolerances should be set for each stage against each of the six aspects of project performance.**

**정답: D**

## 질문 # 168

Scenario:

The Ministry of Food Hygiene (MFH) has a quality management system which contains a document control process to manage all documentation requirements. The document control process was created by the MFH Quality Manager, who now maintains all of

MFH's documents and performs an organization-wide configuration management role. The MFH Quality Manager will administer the configuration management procedure for the Restructuring project since this must comply with the MFH document control process.

According to PRINCE2, which statement about appointing the MFH Quality Manager to administer the configuration management procedure is correct?

- A. The MFH Quality Manager should only administer the configuration management procedure on one project at a time. If the MFH Quality Manager already performs this task on another project, another individual should be appointed.
- B. The MFH Quality Manager should administer the configuration management procedure on this project because this task should always be assigned to corporate or programme management.
- C. The MFH Quality Manager would be suitable to perform this task because he is the author of the document control process and is likely to have the knowledge required for this role.

정답: C

### 질문 # 169

Using the Project Scenario and the Extract from Stage Plan for stage 3 provided as additional intonation for this question in the Scenario Booklet, answer the following 5 questions.

The Stage Plan for stage 3 has been produced.

The Engineering Manager insists that there are to be no interruptions to operations whilst photographs are being taken of the engineering staff performing their everyday duties and operating machinery. Two weeks ago the professional photographer produced the photo session schedule based on the operational staff schedule.

The operational staff schedule is produced weekly and maintained by the Engineering Manager.

None of the E500 change budget has been used to date and this is available for the stage.

Which 2 statements apply to the External dependencies section?

- A. Delete entry 5 because the new company logo is being delivered by a separate project and will be detailed in the plans for that project.
- B. Move entry 5 to Plan description because the new company logo will be delivered during stage 3.
- C. Move entry 5 to Plan prerequisites because the new company logo will influence the label designs.
- D. Delete entry 7 because it should be shown in the Product Description for the label design.
- E. Delete entry 6 because the customer details were used in stage 2 to create the customer list.

정답: D,E
