Virginia Insurance Virginia Life, Annuities, and Health Insurance Examination Series 11-01 Sample Questions (Q40-Q45):

NEW QUESTION # 40

All the following are considered Essential Health Benefits under the ACA, EXCEPT:

- A. Preventive care services
- B. Hospitalization
- C. Adult dental services
- D. Laboratory services

Answer: C

Explanation:

Detailed Answer in Step-by-Step Solution:

* The Affordable Care Act (ACA) mandates 10 Essential Health Benefits, including hospitalization (A), laboratory services (B), and preventive care (D), but adult dental services (C) are not included (pediatric dental care is, however).

* Adult dental is often an optional or separate coverage, not a required benefit.

The Virginia study guide, aligned with ACA regulations, lists the 10 Essential Health Benefits, excluding adult dental services while including pediatric dental and vision as distinct categories. Reference: Virginia Life, Annuities, and Health Insurance study guide, section on "Affordable Care Act."

NEW QUESTION # 41

What is a situation or condition that increases the likelihood of an insured loss occurring?

- A. Risk
- B. Peril
- C. Hazard
- D. Exposure

Answer: C

Explanation:

In insurance terminology, per Virginia Code § 38.2-100 et seq., a hazard (option A) is a condition increasing the likelihood or severity of a loss from a covered peril (e.g., smoking increases fire risk). Option B (peril) is the cause of loss (e.g., fire, theft). Option C (exposure) is the extent of potential loss, not the condition itself.

Option D (risk) is the broader uncertainty of loss, encompassing hazards and perils. The study guide likely differentiates these with examples-e.g., icy roads (hazard) causing a crash (peril)-highlighting hazard's role in amplifying loss probability, making A the exact match.

NEW QUESTION # 42

If an agent misleads or fails to adequately disclose the title and true nature of a policy offered to a potential insured, it may be considered:

- A. Misrepresentation

- B. Coercion
- C. Unfair discrimination
- D. Defamation

Answer: A

Explanation:

Virginia Code § 38.2-502 defines misrepresentation as an unfair practice, where an agent misstates or omits key policy details (e.g., calling a term policy "permanent") to mislead the insured. Option C fits this legal breach. Option A (defamation) involves false reputational harm, not policy sales. Option B (unfair discrimination, § 38.2-211) involves unequal treatment, not misrepresentation. Option D (coercion) implies force, not deception. The study guide likely warns of misrepresentation penalties-e.g., an agent fined for hiding exclusions-making C the applicable violation.

NEW QUESTION # 43

Which is true about a joint and survivor annuity?

- A. It is a combination of an annuity and whole life insurance.
- **B. The benefits are payable throughout the lifetimes of two or more people.**
- C. Each annuitant must provide evidence of insurability.
- D. The benefits cease when the surviving annuitant reaches life expectancy.

Answer: B

Explanation:

A joint and survivor annuity, as outlined in Virginia Code § 38.2-3100 et seq., is an annuity contract that pays benefits as long as at least one of the named annuitants (typically two, such as spouses) is alive. Option A accurately reflects this, stating benefits continue throughout their lifetimes, ceasing only upon the last survivor's death. Option B is false because payments aren't tied to life expectancy but to actual survival, per standard annuity terms in the study guide. Option C is incorrect; an annuity provides income, while whole life insurance offers a death benefit-combining them is a different product (e.g., a universal life policy), not a joint and survivor annuity. Option D is wrong because annuities, unlike life insurance, don't typically require evidence of insurability, as they're based on longevity, not mortality risk (Virginia Code § 38.2-3113). The study guide emphasizes the lifetime payment feature as the defining trait, confirming A.

NEW QUESTION # 44

Including a guaranteed insurability rider on a life insurance policy means that:

- **A. The policyowner may purchase additional life insurance periodically without proving insurability.**
- B. The original policy was sold on a non-medical basis.
- C. The company will require evidence of insurability for any future purchase of life insurance.
- D. Any extra premium charged for a health impairment will be discontinued if standard insurability is proved later.

Answer: A

Explanation:

Virginia Code § 38.2-3209 allows a guaranteed insurability rider, enabling the policyowner to buy additional coverage at specified intervals (e.g., every 3 years or life events like marriage) without proving insurability. Option D matches this definition. Option A is unrelated; non-medical underwriting isn't implied. Option B contradicts the rider's purpose, which waives insurability proof. Option C is false; premium adjustments aren't part of this rider. The study guide describes this rider as a planning tool for future needs, confirming D.

NEW QUESTION # 45

.....

Once you decide to take Virginia Insurance Virginia-Life-Annuities-and-Health-Insurance practice questions from PDF4Test then consider your money secure. PDF4Test is the only reliable brand that regularly updates Virginia Life, Annuities, and Health Insurance Examination Series 11-01 Virginia-Life-Annuities-and-Health-Insurance exam products.
