CompTIA A+ Certification Exam: Core 2 Sample Questions (Q352-Q357):

NEW QUESTION # 352

In which of the following scenarios would remote wipe capabilities MOST likely be used? (Select TWO).

- A. A user cannot locate the phone after attending a play at a theater.

- B. A user is overseas and wants to use a compatible international SIM Card.
- C. A user left the phone at home and wants to prevent children from gaining access to the phone.
- D. A new IT policy requires users to set up a lock screen PIN.
- E. A user forgot the phone in a taxi, and the driver called the company to return the device.
- F. A user traded in the company phone for a cell carrier upgrade by mistake.

Answer: A,E

Explanation:

Remote wipe capabilities are used to erase all data on a mobile device remotely. This can be useful in situations where a device is lost or stolen, or when sensitive data needs to be removed from a device. Remote wipe capabilities are most likely to be used in the following scenarios:

E) A user cannot locate the phone after attending a play at a theater. F. A user forgot the phone in a taxi, and the driver called the company to return the device. In scenario E, remote wipe capabilities would be used to prevent unauthorized access to the device and to protect sensitive data. In scenario F, remote wipe capabilities would be used to erase all data on the device before it is returned to the user.

NEW QUESTION # 353
