

H19-401_V2.0 Valid Real Test | H19-401_V2.0 Learning Engine

With our H19-401_V2.0 practice test software, you can simply assess yourself by going through the H19-401_V2.0 practice tests. We highly recommend going through the H19-401_V2.0 answers multiple times so you can assess your preparation for the HCSP-Presales-Campus Network Planning and Design V2.0. Make sure that you are preparing yourself for the H19-401_V2.0 test with our practice test software as it will help you get a clear idea of the real H19-401_V2.0 exam scenario. By passing the exams multiple times on practice test software, you will be able to pass the real H19-401_V2.0 test in the first attempt.

A team of experts at Exams. Facilitate your self-evaluation and quick progress so that you can clear the Huawei H19-401_V2.0 examination easily. The Huawei H19-401_V2.0 prep material 3 formats are discussed below. The Huawei H19-401_V2.0 Practice Test is a handy tool to do precise preparation for the Huawei H19-401_V2.0 examination.

HCSP-Presales-Campus Network Planning and Design V2.0 Pass Cert & H19-401_V2.0 Actual Questions & HCSP-Presales-Campus Network Planning and Design V2.0 Training Vce

We are pleased to inform you that we have engaged in this business for over ten years with our HCSP-Presales-Campus Network Planning and Design V2.0 H19-401_V2.0 exam questions. Because of our experience, we are well qualified to take care of your worried about the H19-401_V2.0 Preparation exam and smooth your process with successful passing results.

Huawei H19-401_V2.0 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Huawei Xinghe Intelligent Large-and Medium-Sized Campus Network Design Guide (VLAN Networking): Covers VLAN-based design for large and medium campuses including wired, wireless, access control, O&M, and multi-campus interconnection.
Topic 2	<ul style="list-style-type: none">Huawei Xinghe Intelligent Campus Solution: Details the Xinghe solution's core capabilities including automation, ultra-broadband, network simplification, access authentication, intelligent policy, O&M, and security.
Topic 3	<ul style="list-style-type: none">Huawei Xinghe Intelligent Campus Solution for Large-and Medium-Sized Networks (Virtualization Scenario) Design Guide: Guides VXLAN-based fabric architecture and overlay network design for virtualized large and medium campus environments.
Topic 4	<ul style="list-style-type: none">Huawei High-Quality Campus MSP Solution: Introduces Huawei's Managed Service Provider business model, solutions, product offerings, and industry-specific differentiators for campus networks.

Topic 5	<ul style="list-style-type: none"> • Huawei iMaster NCE-CampusInsight: Campus Network Analyzer: Presents Huawei's intelligent O&M analytics platform offering network health, user experience, application experience views, and a campus digital map.
Topic 6	<ul style="list-style-type: none"> • Huawei Xinghe Intelligent Campus Network Multi-Branch WAN Interconnection Solution Design Guide: Provides end-to-end SD-WAN design guidance for multi-branch WAN interconnection including architecture, services, deployment, and O&M.
Topic 7	<ul style="list-style-type: none"> • Huawei Campus SD-WAN Products and Solutions: Reviews WAN interconnection trends and introduces Huawei's SD-WAN solution along with the NetEngine AR product portfolio.

Huawei HCSP-Presales-Campus Network Planning and Design V2.0 Sample Questions (Q49-Q54):

NEW QUESTION # 49

Which of the following views is not one of the three views of iMaster NCE-CampusInsight?

- A. User experience view
- B. Network health view
- C. Terminal health view
- D. Application experience view

Answer: C

Explanation:

The iMaster NCE-CampusInsight platform is built around the "Experience-Centric" O & M philosophy, which is categorized into three primary views :

- * Network Health View (B): Monitors the overall stability and performance of switches and APs.
- * User Experience View (C): Tracks individual user journeys (connection, authentication, roaming).
- * Application Experience View (A): Analyzes the quality of specific services like video conferencing or ERP.

While terminal information is available, a "Terminal health view" is not considered one of the three core architectural pillars of the CampusInsight dashboard.

NEW QUESTION # 50

Which of the following networking modes are supported by Huawei SD-WAN?

- A. Partial-mesh
- B. Hub-spoke
- C. Hierarchical networking
- D. Full-mesh

Answer: A,B,C,D

Explanation:

Huawei's SD-WAN solution offers the industry's most flexible networking architectures. The supported modes include:

- * Hub-spoke (A): Best for star-shaped enterprise layouts where branches talk through a HQ.
- * Full-mesh (D): Every site talks directly to every other site (best for low-latency VoIP/Video).
- * Partial-mesh (C): A hybrid approach where only specific key sites are interconnected.
- * Hierarchical (B): Used for massive networks (over 1,000 sites), dividing the network into regions to improve scalability and management.

NEW QUESTION # 51

Which of the following features are key capabilities in multi-branch retail scenarios?

- A. SD-Branch
- B. Converged IoT

- C. Hyper-converged gateway
- D. Plug-and-play

Answer: A,B,C,D

Explanation:

The Xinghe Intelligent Campus for retail focus on four key areas:

- * SD-Branch (A): Unified management of WAN, LAN, and WLAN for small stores.
- * Converged IoT (B): Using APs with built-in IoT slots for Electronic Shelf Labels (ESL) or RFID asset tracking.
- * Hyper-converged Gateway (C): Using devices like the AR series that combine routing, switching, security, and a wireless controller into one box to save space.
- * Plug-and-play (D): Zero-touch provisioning (ZTP) so that non-technical store staff can simply plug in a device and have it configured automatically by the cloud.

NEW QUESTION # 52

iMaster NCE-Campus has a built-in terminal fingerprint database for identifying terminals.

- A. True
- B. False

Answer: A

Explanation:

One of the "Intelligent" features of the Xinghe Intelligent Campus is automated asset management. iMaster NCE-Campus maintains a built-in terminal fingerprint database containing characteristics for thousands of device types (IP cameras, printers, VoIP phones, smartphones, etc.). By analyzing traffic attributes (MAC OUI, HTTP User-Agent, DHCP options), the system automatically identifies the device type and can apply appropriate security policies (Group-based policies) without manual intervention.

NEW QUESTION # 53

Huawei iMaster NCE-Campus supports hierarchical templates, enabling child templates to inherit the configurations of parent ones.

- A. True
- B. False

Answer: A

Explanation:

To manage massive-scale deployments (such as retail chains with thousands of stores), iMaster NCE- Campus utilizes Hierarchical Configuration . Administrators can define a Parent Template with global settings (e.g, DNS, NTP, Security standards) and create Child Templates for specific regions or sites. The child templates automatically inherit all settings from the parent, allowing the administrator to only configure the "differentiated" parts (e.g, local subnets or SSIDs), which drastically reduces configuration errors and deployment time.

NEW QUESTION # 54

.....

The H19-401_V2.0 Exam practice software is based on the real H19-401_V2.0 exam dumps. The interface of H19-401_V2.0 exam practice software is user-friendly so you will not face any difficulty to become familiar with it. Practice test software contains simulated real H19-401_V2.0 exam scenario. It has numerous self-learning and self-assessment features to test their learning. Our software exam offers you statistical reports which will upkeep the students to find their weak areas and work on them. We guarantee if you trust the H19-401_V2.0 Exam Practice test software, getting the highest score in the actual H19-401_V2.0 exam will not be difficult anymore.
