Exam Oracle 1z0-1057-24 Answers, Latest 1z0-1057-24 Exam Fee

We have three different versions of Oracle Project Management Cloud 2024 Implementation Professional prep torrent for you to choose, including PDF version, PC version and APP online version. Different versions have their own advantages and user population, and we would like to introduce features of these versions for you. There is no doubt that PDF of 1z0-1057-24 exam torrent is the most prevalent version among youngsters, mainly due to its convenience for a demo, through which you can have a general understanding and simulation about our 1z0-1057-24 Test Braindumps to decide whether you are willing to purchase or not, and also convenience for paper printing for you to do some note-taking. As for PC version of our Oracle Project Management Cloud 2024 Implementation Professional prep torrent, it is popular with computer users, and the software is more powerful. Finally when it comes to APP online version of 1z0-1057-24 test braindumps, as long as you open this study test engine, you are able to study whenever you like and wherever you are.

Oracle Project Management Cloud 2024 Implementation Professional Sample Questions (Q46-Q51):

NEW QUESTION # 46
You are now the project manager of a newly created implementation project. Which two items are not part of managing an implementation project?

- A. Assign tasks to various users who are responsible for managing setup data.
- B. Select the offering you want to implement.
- C. Generate a list of setup tasks.
- D. Monitor the progress of completing setup tasks.
- E. Enable optional functional areas and features by opting in.

Answer: B,E

Explanation:
Selecting the offering you want to implement and enabling optional functional areas and features by opting in are not part of managing an implementation project. These are part of configuring an implementation project, which is done before managing an implementation project. Configuring an implementation project allows you to define the scope and features of your implementation based on your business needs. Managing an implementation project involves assigning tasks to various users who are responsible for managing setup data, monitoring the progress of completing setup tasks, and generating a list of setup tasks. These are part of executing an implementation project, which is done after configuring an implementation project. Executing an implementation project allows you to perform the setup tasks and validate the setup data for your implementation.

NEW QUESTION # 47

You have projects and tasks defined with transaction controls, which does not allow certain types of charges to the project. Your business needs to create invoices in AP with this project every period and hence would like to make the process easier by creating a distribution set. As you create the distribution set, you notice that thesedistribution set lines are not validated against the project transaction controlsand you are allowed to save it without any validation errors. Identify thereasonwhy the project transaction controls are notapplied.

(Choose the best answer.)

- A. There is noexpenditure itemdateinformation available on the distribution set line.
- B. There is no expenditure type information available on the distribution set line.
- C. The account code combination is not available on the distribution set line.
- D. There is no expenditure organization information available on the distribution set line.

Answer: A

Explanation:

Ref:https://docs.oracle.com/en/cloud/saas/project-portfolio-management/18c/oapfm/project-costing- configuration-define-project-costing-integrations.html#OAPFM174886 How can I validate distribution sets for projects information?

Oracle Fusion Projects performs validations on Oracle Fusion Payables distribution sets for payables invoices at the time you create the actual distribution set lines. It validates the project and task number during the invoice validation.

Distribution sets are typically used on recurring transactions, and the associated project does not have transaction controls.When you create a distribution set in Oracle Fusion Payables, the distribution set line is not validated against the project transaction controls in Oracle Fusion Projects because you do not enter an expenditure itemdate, which is required for transaction control validation.The expenditure itemdate is not provided because you use the distribution sets for an indefinite period of time.

NEW QUESTION # 48

Which three can be tracked as Status tracking for Project Invoice Approval Notifications? (Choose three.)

- A. Date-wise updates to the document
- B. Persons with whom it is still pending approval
- C. Pre-approval activities
- D. Person assigned for approval
- E. Prior actions

Answer: B,D,E

Explanation:

Status tracking is a feature that allows you to track the progress and history of project invoice approval notifications. Status tracking provides information such as who approved or rejected the invoice, when and why they took the action, who is currently assigned to approve or reject the invoice, etc. Three of the information that can be tracked as status tracking for project invoice approval notifications are:

* Person assigned for approval: This shows the name of the person who is currently assigned to approve or reject the invoice notification.

* Prior actions: This shows the list of actions that have been taken on the invoice notification by previous approvers or rejectors, such as approve, reject, request information, etc.

* Persons with whom it is still pending approval: This shows the list of persons who are still in the approval chain for the invoice notification and have not taken any action yet. Pre-approval activities and date-wise updates to the document are not information that can be tracked as status tracking for project invoice approval notifications. Pre-approval activities are tasks that need to be performed before submitting an invoice for approval, such as validating or transferring the invoice. Date-wise updates to the document are changes that are made to the invoice document after it has been submitted for approval, such as adjusting or reversing the invoice. /project-portfolio-management/20c/oapfm/manage-project-invoices.html#OAPFM2356291

NEW QUESTION # 49

Which setup option is common to both financial and project plan types?

- A. Identify whether the plan type is the default selection when you create budget or forecast versions.
- B. Enable the entry of plan amounts in currencies other than the project currency.
- C. Enable the use of a workflow for managing budget or forecasting status changes.

- D. Manage the options for creating control budgets in Oracle Fusion Budgetary Control.

Answer: B

Explanation:
Ref:https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-control- configuration-manage-financial-and-project-plan-types.html#OAPFM75315 Financial and Project Plan Setup Options The following table describes the basic budget, forecast, or project plan setup options that determine how a plan type is used in the context of a project. Except for third-party scheduling, you can't edit these options at the project level.
Option
Location
Description
Planning amounts
Financial plan type
Indicates that the financial plan type supports the creation of versions with the following amounts:
* Cost amounts
* Revenue amounts
* Both cost and revenue amounts
* Either cost or revenue amounts
Approved budget or primary forecast
Financial plan type
Determines whether a financial plan type is used for creating approved budget versions or primary forecast versions that are used for plan comparison or project performance reporting.
Default financial plan type
Financial plan type
Determines whether the financial plan type is the default selection when you create budget or forecast versions.
Workflows
Financial plan type
Enables the use of a workflow for managing budget or forecast status changes.
Third-party scheduling software
Project plan type
Indicates whether project planning is performed in Microsoft Project.
If third-party scheduling is disabled in the project plan type, you can use the associated project or project template to create a project in Microsoft Project. However, you can't export the new project or link it to one created in Oracle Fusion Project Portfolio Management.
Multiple transaction currencies
Financial and project plan type
Enables entry of plan amounts in currencies other than the project currency.
Budgetary control settings
Financial plan type
Manages options for creating control budgets in Oracle Fusion Budgetary Control.

NEW QUESTION # 50
Your client has decided to import time cards into Project Costing from Oracle Fusion Time and Labor. They have a requirement to make adjustments to time card entries whenever needed.
In which work area will the employees and contingent workers be able to modify their time cards?

- A. Cost
- B. Time
- C. Both Time and Cost
- D. Asset

Answer: B

Explanation:
The employees and contingent workers will be able to modify their time cards in the Time work area. This work area allows them to enter, review, edit, and submit their time cards for approval. They can also view the status and history of their time cards and make corrections as needed. The Time and Cost work area allows the project managers and cost accountants to review, adjust, and transfer time card transactions to projects and tasks. The Asset work area allows the asset managers and cost accountants to review, adjust, and transfer asset transactions to Oracle Fusion Assets. These work areas are not used by the employees and

contingent workers to modify their time cards. Reference:https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-time-and-labor.html#OAPFM2356221

NEW QUESTION # 51
......

For years our team has built a top-ranking brand with mighty and main which bears a high reputation both at home and abroad. The sales volume of the 1z0-1057-24 test practice guide we sell has far exceeded the same industry and favorable rate about our 1z0-1057-24 learning guide is approximate to 100%. Why the clients speak highly of our 1z0-1057-24 reliable exam torrent? Our dedicated service, high quality and passing rate and diversified functions contribute greatly to the high prestige of our 1z0-1057-24 exam questions.
