## Sample 350-601 Questions | Vce 350-601 Files

The Cisco 350-601 certification exam is without a doubt a terrific and quick way to develop your profession in your field. These advantages include the opportunity to develop new, in-demand skills, advantages in the marketplace, professional credibility, and the opening up of new job opportunities. Implementing Cisco Data Center Core Technologies (350-601 DCCOR) 350-601 real reliable test cram and test book help you pass the Implementing Cisco Data Center Core Technologies (350-601 DCCOR) exam successfully.

Cisco 350-601 exam covers a wide range of topics, including network infrastructure, virtualization, storage network, automation, and security. Candidates are expected to have a thorough understanding of these topics and demonstrate their ability to implement and manage them in a data center environment. 350-601 Exam also tests the candidates' knowledge of Cisco's data center technologies, such as Cisco Application Centric Infrastructure (ACI) and Cisco Unified Computing System (UCS).

## Cisco Implementing Cisco Data Center Core Technologies (350-601 DCCOR) Sample Questions (Q312-Q317):

### NEW QUESTION # 312

An engineer must configure a monitoring solution for a Cisco Nexus 9000 Series Switch based data center.

The solution must provide real-time insight into the network health with subscription-based monitoring. The monitoring must be initiated from the client side, and the data must be sent via encryption. Which configuration steps complete the configuration?

- Set the telemetry feature of the Nexus switch. Specify a certificate for telemetry transport. Configure a sensor group and destination.
- Enable GRPC on the Nexus switch. Generate a certificate. Configure gNMI inputs in Telegraf and output to InfluxDB.
- Configure Grafana on the Nexus switch. Specify the logging certificate. Enable syslog level 7 export to Grafana.
- Activate SNMPv3 on the Nexus switch. Set the globalEnforcePriv parameter. Configure an SNMP agent to poll information.

- A. Option D
- B. Option C
- C. Option B
- D. Option A

Answer: D

### NEW QUESTION # 313

Refer to the exhibit A network engineer plans to upgrade the current software images of a Cisco Nexus switch What is the impact of starting the EPLD upgrade?

```
switch# show install all impact epld n9000-epld.9.2.1.img
Compatibility check:
Module      Type      Upgradable      Impact      Reason
-----
1           SUP      Yes             disruptive  Module Upgradable

Retrieving EPLD versions... Please wait

Images will be upgraded according to following table:
Module  Type  EPLD          Running-Version  New-Version  Upg-Required
-----
1      SUP  MI FPGA      0x23            0x23        No
1      SUP  IO FPGA      0x06            0x06        No
1      SUP  MI FPGA2     0x23            0x23        No
```

- A. The switch skips the EPLD upgrade for each EPLD device of the switch.
- B. The switch reboots multiple times for the new EPLD versions to take effect.
- C. The switch reboots one time for the new EPLD versions to take effect.
- D. The switch skips the EPLD upgrade for MIFPGA and proceeds with the other EPLD devices.

Answer: A

### NEW QUESTION # 314

Drag and drop the characteristics from the left onto the correct storage systems on the right.

expensive and complex to manage
moderately expensive and simple to configure
most resilient, highly scalable, and high-performance storage
appliance providing file system access
lacks scalability, performance, and advanced features

NAS
SAN

**Answer:**

Explanation:

expensive and complex to manage
moderately expensive and simple to configure
most resilient, highly scalable, and high-performance storage
appliance providing file system access
lacks scalability, performance, and advanced features

NAS
lacks scalability, performance, and advanced features
moderately expensive and simple to configure
appliance providing file system access
SAN
expensive and complex to manage
most resilient, highly scalable, and high-performance storage

Explanation:

Graphical user interface Description automatically generated with medium confidence

NAS	
lacks scalability, performance, and advanced features	
moderately expensive and simple to configure	
appliance providing file system access	
SAN	
expensive and complex to manage	
most resilient, highly scalable, and high-performance storage	

2,4,5 - NAS 1,3 - SAN

#### NEW QUESTION # 315

A customer data center is configured for distribution of user roles, call home, and NTP. The data center was split into two geographically separate locations called DC1 and DC2. The requirement is for the user role configurations to be distributed in DC1 and for NTP and call home features to be constrained to DC2. Which two configuration sets must be used to meet these requirements? (Choose two.)

- A.
 

```
! On Data Center 1
configure terminal
cfs 1
roles
aaa
```
- B.
 

```
! On Data Center 1
configure terminal
cfs region 1
ntp
callhome
```
- C.
 

```
! On Data Center 1
configure terminal
cfs 1
ntp
callhome
```
- D.
 

```
! On Data Center 2
configure terminal
cfs region 2
roles
```
- E.
 

```
! On Data Center 2
configure terminal
cfs 2
roles
aaa
```

- A. Option B

- B. Option C
- C. Option E
- D. Option A
- E. Option D

**Answer: B,E**

**Explanation:**

This example shows how to move the Call Home application to CFS region 2:

```
switch# config t
switch(config)# cfs region 2
switch(config-cfs-region)# callhome
switch(config-cfs-region)# show cfs region name callhome
```

[https://www.cisco.com/c/en/us/td/docs/switches/datacenter/sw/4\\_2/nx-os/system\\_management/configuration/guide/sm\\_nx\\_os\\_cli/sm\\_2cfs.html](https://www.cisco.com/c/en/us/td/docs/switches/datacenter/sw/4_2/nx-os/system_management/configuration/guide/sm_nx_os_cli/sm_2cfs.html)

**NEW QUESTION # 316**

A UCS B-Series server located in B5108 chassis 1 slot 1 is currently unavailable. The server needs to be associated with a specific service profile when it becomes available. Which associate service profile option should be selected to accomplish this goal?

- A. restrict migration
- B. server
- C. server pool
- D. custom server

**Answer: D**

**Explanation:**

[https://www.cisco.com/en/US/docs/unified\\_computing/ucs/sw/gui/config/guide/141/UCSM\\_GUI\\_Configuration\\_Guide\\_141\\_chapter28.html](https://www.cisco.com/en/US/docs/unified_computing/ucs/sw/gui/config/guide/141/UCSM_GUI_Configuration_Guide_141_chapter28.html)

Follow this procedure if you did not associate the service profile with a blade server or server pool when you created it, or to change the blade server or server pool with which a service profile is associated.

**Procedure**

**Step 1** In the Navigation pane, click the Servers tab.

**Step 2** On the Servers tab, expand Servers > Service Profiles.

**Step 3** Expand the node for the organization that contains the service profile that you want to associate with a new server or server pool.

If the system does not include multi-tenancy, expand the root node.

**Step 4** Right-click the service profile you want to associate with a server and select Change Service Profile Association.

**Step 5** In the Associate Service Profile dialog box, select one of the following options:

Option	Description
Server Pool	Select a server pool from the drop-down list. Cisco UCS Manager assigns a server from this pool to the service profile. Continue with Step 7.
Server	Navigate to the desired available server in the navigation tree and select the server which will be assigned to the service profile. Continue with Step 7.
Custom Server	Specifies the chassis and slot that contains the server that will be assigned to the service profile. If the server is not in the slot or is otherwise unavailable, the service profile will be associated with the server when it becomes available. Continue with Step 6.

**Step 6** If you chose Custom Server, do the following:

- In the Chassis Id field, enter the number of the chassis where the selected server is located.

## NEW QUESTION # 317

.....

The passing rate of our products is the highest. Many candidates can also certify for our Cisco 350-601 study materials. As long as you are willing to trust our Cisco 350-601 Preparation materials, you are bound to get the Cisco 350-601 certificate. Life needs new challenge. Try to do some meaningful things.
