SAP C_BCBDC_2505 dumps & Testinsides C_BCBDC_2505 PDF & C_BCBDC_2505 actual test

Are you still worried about not passing the C_BCBDC_2505 exam? Do you want to give up because of difficulties and pressure when reviewing? You may have experienced a lot of difficulties in preparing for the exam, but fortunately, you saw this message today because our well-developed C_BCBDC_2505 Exam Questions will help you tide over all the difficulties. As a multinational company, our C_BCBDC_2505 training quiz serves candidates from all over the world.

SAP Certified Associate - SAP Business Data Cloud Sample Questions (Q85-Q90):

NEW QUESTION # 85
With an import model, when changes happen in the original data source, what happens in the SAP Analytic Model?
Please choose the correct answer.
Response:

- A. All data in the original data source is transferred to the model, including unchanged data.
- B. Only the changes in the original data source are transferred to the model; unchanged data is not transferred.
- C. Nothing. The changes in the original data source are not reflected in the model.

Answer: C

NEW QUESTION # 86

Which components support semantic enrichment of data in SAP Business Data Cloud?

There are 2 correct answers to this question.

Response:

- A. Business Builder
- B. Data Monitor
- C. Calculated Measures
- D. Data Marketplace

Answer: A,C

NEW QUESTION # 87

What is required to use version management in an SAP Analytics Cloud story?

- A. Classic mode
- B. Analytic model
- C. Planning model
- D. Optimized mode

Answer: C

Explanation:

To leverage version management capabilities within an SAP Analytics Cloud (SAC) story, it is a fundamental requirement that the story is built on a planning model. Version management is a core feature specifically designed for planning functionalities. It enables users to create, manage, and compare different scenarios or iterations of data, such as "Actual," "Budget," "Forecast," or various planning versions. This is critical for budgeting, forecasting, and what-if analysis, allowing planners to work on different data sets concurrently and track changes over time. While analytic models are used for general reporting and analysis, they do not inherently support the robust version management features that are integral to planning processes. Therefore, if you intend to utilize version management to compare different data scenarios or manage planning cycles, your SAC story must be connected to a planning model.

NEW QUESTION # 88

What is the role of SAP Databricks in SAP Business Data Cloud?

Please choose the correct answer.

Response:

- A. To enrich data products with AI and machine learning
- B. To provide a graphical interface for the business user who will develop data models
- C. To integrate ABAP function modules for data type conversions in SAP-based data sources
- D. To enhance intelligent applications by adding planning functions

Answer: A

NEW QUESTION # 89

Which of the following data source objects can be used for an SAP Datasphere Replication Flow? Note: There are 2 correct answers to this question.

- A. MS Azure SQL table
- B. Oracle database table
- C. Google Big Query dataset
- D. ABAP CDS view

Answer: B,D

Explanation:

SAP Datasphere Replication Flows are designed for efficient and continuous data transfer from source systems into Datasphere. For these flows, specific types of data source objects are supported to ensure robust and reliable replication. Two common and highly

supported data source objects are an ABAP CDS view (Core Data Services view) and an Oracle database table. ABAP CDS views are particularly relevant for replicating data from SAP source systems (like SAP S/4HANA or SAP ERP), as they provide a semantically rich and optimized way to access business data. Oracle database tables represent a broad category of third-party relational databases from which data can be replicated. While Datasphere offers connectivity to various cloud data warehouses like Google BigQuery or MS Azure SQL for virtual access or snapshotting, Replication Flows are typically used for continuous, high-volume data ingestion from operational databases and SAP systems using their native database tables or views like CDS views.

NEW QUESTION # 90

......

As we entered into such a web world, cable network or wireless network has been widely spread. That is to say, it is easier to find an online environment to do your practices. This version of C_BCBDC_2505 test prep can be used on any device installed with web browsers. We specially provide a timed programming test in this online test engine, and help you build up confidence in a timed exam. With limited time, you need to finish your task in C_BCBDC_2505 Quiz guide and avoid making mistakes, so, considering your precious time, we also suggest this version that can help you find out your problems immediately after your accomplishment.
