

Free PDF Quiz Cyber AB - CMMC-CCA - Valid Latest Certified CMMC Assessor (CCA) Exam Questions

P.S. Free & New CMMC-CCA dumps are available on Google Drive shared by Prep4sureGuide: https://drive.google.com/open?id=1b4QYrkTOYmRD4bSObaH_kWpsXtEbBglo

In modern time, new ideas and knowledge continue to emerge, our CMMC-CCA training prep has always been keeping up with the trend. Besides, they are accessible to both novice and experienced customers equally. Some customer complained to and worried that the former CMMC-CCA training prep is not suitable to the new test, which is wrong because we keep the new content into the CMMC-CCA practice materials by experts.

Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.
Topic 2	<ul style="list-style-type: none">• Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.
Topic 3	<ul style="list-style-type: none">• CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.

Topic 4	<ul style="list-style-type: none"> Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.

100% Pass Cyber AB CMMC-CCA - First-grade Latest Certified CMMC Assessor (CCA) Exam Questions

Laziness will ruin your life one day. It is time to have a change now. Although we all love cozy life, we must work hard to create our own value. Then our CMMC-CCA study materials will help you overcome your laziness. Study is the best way to enrich your life. Our CMMC-CCA study materials are suitable for various people. No matter you are students, office workers or common people, you can have a try. In addition, you can take part in the CMMC-CCA Exam if you finish all learning tasks. The certificate issued by official can inspire your enthusiasm.

Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q123-Q128):

NEW QUESTION # 123

The Cyber AB has completed an investigation into a report submitted by a CCA regarding a potential violation by another CCA. They have determined that the violation falls within the scope of the relevant Industry Working Group's authority. What is the likely course of action for the Cyber AB in this scenario?

- A. Refer the incident to the relevant Industry Working Group for resolution, which may include remediation, coaching, or termination, with a right of appeal.
- B. Continue the investigation and make a final determination on the violation.
- C. Dismiss the investigation as it falls outside Cyber AB's direct authority.
- D. Immediately suspend the CCA's certification pending the working group's resolution.

Answer: A

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CoPC delegates certain violations to Industry Working Groups, with Cyber AB referring them for resolution. Option A (continuing) oversteps this delegation. Option C (suspension) is premature. Option D (dismissing) ignores process. Option B is correct.

Extract from Official Document (CoPC):

* Paragraph 4.1(4)(a) - Violation Resolution (pg. 10): "Refer incidents to the relevant Industry Working Group for resolution, which may include remediation or termination, with a right of appeal." References:

CMMC Code of Professional Conduct, Paragraph 4.1(4)(a).

NEW QUESTION # 124

In ensuring it meets its mandates to protect CUI under CMMC, a contractor has implemented a robust, dynamic session lock with pattern-hiding displays to prevent access and viewing of data. After every 5 minutes of inactivity, the current session is locked and a blank, black screen with a battery life indicator is displayed. How is Session Lock typically initiated?

- A. By the system administrator manually
- B. Through user authentication processes
- C. Automatically, after a predefined period of inactivity
- D. Only when manually triggered by the user before leaving their workstation

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

CMMC practice AC.L2-3.1.10 - Session Lock mandates that organizations "initiate a session lock after a defined period of inactivity" to prevent unauthorized access to systems handling CUI. The typical and required initiation method is automatic, triggered by a predefined inactivity threshold (e.g., 5 minutes in this case), ensuring consistent protection without relying on user or admin intervention. Manual initiation by a system administrator or user is less effective and not scalable, while user authentication processes relate to unlocking, not initiating the lock. The CMMC guide emphasizes automation to enforce this control uniformly across systems.

Extract from Official CMMC Documentation:

* CMMC Assessment Guide Level 2 (v2.0), AC.L2-3.1.10: "Initiate session lock after an organization- defined time period of inactivity (e.g., 15 minutes or less)."

* NIST SP 800-171A, 3.1.10: "Test mechanisms to ensure session lock occurs automatically after a specified period of inactivity."

NEW QUESTION # 125

A CCA who works for a C3PAO doubles as a penetration tester. When conducting a CMMC assessment for an OSC, he realizes their cybersecurity practices are lacking. Recognizing potential vulnerabilities in their systems, the CCA approaches the OSC's cyber team and offers his penetration testing services. Which CoPC guiding principle or practice has the CCA failed to live up to?

- A. Conflict of Interest
- B. Assurance
- C. Confidentiality
- **D. Professionalism**

Answer: D

Explanation:

Comprehensive and Detailed in Depth Explanation:

Soliciting business during an assessment violates Professionalism (Option C), not Assurance (Option A, not a principle), COI (Option B, related but not primary), or Confidentiality (Option D).

Extract from Official Document (CoPC):

* Paragraph 2.1 - Professionalism (pg. 4): "Never actively solicit business from customers during an assessment." References: CMMC Code of Professional Conduct, Paragraph 2.1.

NEW QUESTION # 126

You are a CCA who is part of an Assessment Team conducting a CMMC assessment on an aerospace company. While analyzing their network architecture, you realize that it includes a Demilitarized Zone (DMZ) to host their public-facing web servers. What is the primary purpose of a DMZ in a network architecture?

- A. To provide physical security for the organization's public-facing web servers
- B. To physically isolate the organization's internal network from the internet
- C. To allow unrestricted access between the internal network and the internet
- **D. To logically isolate the organization's public-facing web servers from the internal network**

Answer: D

Explanation:

Comprehensive and Detailed in Depth Explanation:

A Demilitarized Zone (DMZ) is a standard network security construct used to enhance the protection of an organization's internal network. Per NIST SP 800-171 and CMMC Level 2 guidelines (e.g., SC.L2-3.13.6), a DMZ logically separates public-facing services, such as web servers, from the internal network containing sensitive data like CUI. This logical isolation is achieved through firewalls, access control lists (ACLs), or routing configurations, not physical separation, reducing the risk of external threats penetrating the internal network.

Option A (physical isolation) misrepresents the DMZ's logical nature. Option B (physical security) pertains to facility controls, not network architecture. Option C (unrestricted access) contradicts the DMZ's purpose of controlled access. Option D correctly identifies the DMZ's role in logical isolation, making it the correct answer.

Reference Extract:

* NIST SP 800-171, 3.13.6: "Deny network communications traffic by default and allow by exception... achieved through logical segmentation like a DMZ."

* CMMC AG Level 2, SC.L2-3.13.6: "A DMZ isolates public-facing services from internal networks"

logically."Resources:<https://csrc.nist.gov/pubs/sp/800/171/a/final>;https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.0_FINAL_202112016_508.pdf

NEW QUESTION # 127

As a Certified CMMC Assessor, you are part of a team assessing a small defense contractor. During the assessment, an employee being interviewed appears unsure about some security practices and asks for your advice on how to answer certain questions to make their compliance appear better. As a Certified CMMC Assessor, what should you do in this situation?

- A. Offer to create documentation to cover gaps in their compliance.
- B. Suggest that they seek guidance from another Assessor.
- C. Politely refuse to provide any assistance and continue the assessment as planned.
- D. Provide guidance on how to answer questions to maximize the appearance of compliance.

Answer: C

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CoPC prohibits coaching or assisting during assessments to maintain objectivity (Option C). Options A, B, and D involve inappropriate assistance.

Extract from Official Document (CoPC):

* Paragraph 3.3(6) - Proper Use of Methods (pg. 7): "Do not provide guidance or assistance to OSC personnel during the assessment to influence responses." References:

CMMC Code of Professional Conduct, Paragraph 3.3(6).

NEW QUESTION # 128

.....

You don't need to worry about wasting your precious time but failing to get the CMMC-CCA certification. Many people have used our CMMC-CCA study materials and the pass rate of the exam is 99%. If any incident happens and you don't pass the CMMC-CCA exam, we will give you a full refund. Our sincerity stems from the good quality of our products. We will give you one year's free update of the exam study materials you purchase and 24/7 online service. Now just make up your mind and get your CMMC-CCA Exam Torrent!
