Oracle 1D0-1065-23-D Online Version - 1D0-1065-23-D Authentic Exam Questions

We would like to benefit our customers from different countries who decide to choose our 1D0-1065-23-D study guide in the long run, so we cooperation with the leading experts in the field to renew and update our 1D0-1065-23-D study materials. Our leading experts aim to provide you the newest information in this field in order to help you to keep pace with the times and fill your knowledge gap. We can assure you that you will get the latest version of our 1D0-1065-23-D Training Materials for free from our company in the whole year after payment.

Oracle Fusion Cloud Procurement 2023 Implementation Professional - Delta Sample Questions (Q134-Q139):

NEW QUESTION # 134

Identify the document in which the Supplier field is not mandatory

- A. Request for Quotation
- B. Quotation
- C. Invoice
- D. Purchase Order
- E. Requisition

Answer: C

NEW QUESTION # 135

Which of the following best describes the purpose of the Procurement application in Oracle Fusion Cloud?

- A. To manage sales and customer relationships.
- B. To streamline and automate the procurement process.
- C. To handle financial planning and budgeting.
- D. To monitor and report on employee performance.

Answer: B

Explanation:

The Procurement application in Oracle Fusion Cloud is specifically designed to streamline and automate the procurement process. It enables organizations to efficiently manage their purchasing activities, track supplier performance, and control costs. The application provides features such as requisitioning, sourcing, purchasing, receiving, and supplier management, all aimed at optimizing the procurement process.

NEW QUESTION # 136

Which of the following is a key benefit of using Project Templates in Project-Driven Supply Chain?

- A. It provides real-time insights into project progress and milestones.
- B. It facilitates the sharing and reuse of project configurations and setups.
- C. It enables the creation of accurate project budgets and forecasts.
- D. It automates the creation and approval of purchase orders for project- related expenses.

Answer: B

Explanation:

Project Templates in Project-Driven Supply Chain allow users to create standardized project configurations and setups that can be shared and reused across different projects. This feature promotes consistency and efficiency in project management by eliminating the need for repetitive configuration tasks. It also ensures that best practices and approved setups are applied consistently across projects, saving time and effort for project teams.

NEW QUESTION # 137

What is the purpose of the supplier qualification process in Oracle Fusion Cloud Procurement?

- A. To manage and monitor supplier performance and compliance.
- B. To negotiate and finalize contractual agreements with selected suppliers.

- C. To track and analyze procurement spend and cost savings.
- **D. To evaluate and select the most suitable suppliers for procurement activities.**

Answer: D

Explanation:

The supplier qualification process in Oracle Fusion Cloud Procurement is designed to evaluate and select the most suitable suppliers for procurement activities. This process involves assessing suppliers based on various criteria such as their financial stability, previous performance, compliance with regulatory requirements, and ability to meet product or service specifications. The purpose is to ensure that only qualified and reliable suppliers are engaged in the procurement process.

NEW QUESTION # 138

What is the purpose of Punch Out in Oracle Fusion Cloud Procurement?

- A. To track the delivery status of goods purchased from suppliers
- B. To punch a hole in the firewall for secure access to the procurement system
- **C. To enable suppliers to access and manage their catalogs within the procurement system**
- D. To automate the purchasing process by integrating with external systems

Answer: C

Explanation:

Punch Out functionality allows suppliers to create and manage their catalogs within the procurement system. It enables suppliers to have direct access to the procurement system and maintain their catalogs with real-time updates, ensuring accurate and up-to-date product information for buyers.

NEW QUESTION # 139

.....
