Your company has offices in London and Vancouver

The company has a Teams Phone deployment that uses Calling Plans.

The London office contains a user named User1.

User1 moves from the London office to the Vancouver office.

You need to update the phone number and emergency location of User1 to match the new office.

What should you do first?

- A. Run New-CsTeamsEmergencyCallingPolicy -Identity Vancouver.
- B. Run Grant-CsTeamsEmergencyCallingPolicy -Identity Vancouver.
- **C. Add a new emergency location for User1.**
- D. Modify the current Usage location for User1.

Answer: C

Explanation:

Assign an emergency location

You can assign emergency locations for your organization in the Microsoft Teams admin center or by using PowerShell.

To assign an emergency location, be sure the location, users, and phone numbers are all in the same country.

Using the Microsoft Teams admin center

In the left navigation of the Microsoft Teams admin center, click Locations > Emergency addresses.

Click Add.

Enter a name and description for the location.

Select the country or region, and then enter the address.

If the address isn't found and you want to manually edit the address, turn on Edit the address manually.

Click Save.
