

# Quiz Pass-Sure CPQ-301 - Configure and Administer a Salesforce CPQ Solution Certification Dumps

Salesforce CPQ-301

Configure and Administer a Salesforce CPQ Solution

2

The Salesforce CPQ-301 exam covers a wide range of topics, including pricing and product configuration, product bundles, quote templates, and order management. Candidates must have a strong understanding of the Salesforce platform, including its core functionalities and CRM capabilities. The exam requires a deep understanding of Salesforce CPQ and its integration with other Salesforce products, such as Sales Cloud and Service Cloud.

### Salesforce Configure and Administer a Salesforce CPQ Solution Sample Questions (Q144-Q149):

**NEW QUESTION # 144**  
Universal Containers has a custom picklist field with three values on their products. The Admin would like to create a Dynamic Bundle to display products if the picklist value matches that of a Configurations Attribute. How should the Admin create Filter Product Rules to meet the business requirement?

- A. Create three rules, each with one condition that compares the product field with the Configuration attribute field.
- B. Create one rule with one condition that compares the product field with the configuration attribute field.
- C. Create one rule with three conditions, each that compares the configuration attribute field with a static value.
- D. Create three rules, each with two conditions that compare the configuration attribute with a static value and the product field.

**Answer: C**

**NEW QUESTION # 145**  
What are two considerations the CPQ specialist should take into account when authorizing the Salesforce CPQ calculation service for a user who is currently logged in?
