

# Latest CTS Training, CTS Dump Check

P.S. Free & New CTS dumps are available on Google Drive shared by VCE4Dumps: [https://drive.google.com/open?id=1-Xv5s0Cr6\\_tm6oMXwMtdv5enLr\\_UbwN2](https://drive.google.com/open?id=1-Xv5s0Cr6_tm6oMXwMtdv5enLr_UbwN2)

It is understandable that different people have different preference in terms of CTS study guide. Taking this into consideration, and in order to cater to the different requirements of people from different countries in the international market, we have prepared three kinds of versions of our CTS Preparation questions in this website, namely, PDF version, online engine and software version, and you can choose any one version of CTS exam questions as you like.

## AVIXA CTS Exam Certification Details:

Exam Name	AVIXA Certified Technology Specialist (CTS)
Passing Score	350 / 500
Books / Training	Candidate Handbook
Non-Member Exam Price	\$475(USD)
MemberExam Price	\$375(USD)
Sample Questions	AVIXA CTS Sample Questions
Exam Code	CTS
Schedule Exam	Pearson VUE

## CTS Dump Check | Reliable CTS Test Tips

The only goal of all experts and professors in our company is to design the best and suitable CTS study materials for all people. According to the different demands of many customers, they have designed the three different versions of the CTS certification study guide materials for all customers: PDF, Soft and APP versions. They sincerely hope that all people who use CTS Exam Questions from our company can pass the CTS exam and get the related certification successfully. And our pass rate for CTS exam questions is high as more than 98%.

## AVIXA Certified Technology Specialist Sample Questions (Q184-Q189):

### NEW QUESTION # 184

During the installation of an audiovisual system, a client states that they wish to add a videoconferencing system that was not considered in the initial scope of the project. What form is required?

- A. Request for Change (RFC)
- B. Request for Information (RFI)
- C. Request for Quotes (RFQ)
- D. Request for Proposals (RFP)

**Answer: A**

Explanation:

When a client requests an addition to the project that wasn't included in the original scope, such as a videoconferencing system, a Request for Change (RFC) is needed. An RFC formally documents the change in scope, budget, or timeline and ensures that all parties agree to the modifications.

CTS Technology Specialist Reference

The CTS guidelines discuss the use of RFCs to manage scope changes, helping avoid misunderstandings and ensuring all modifications are approved and documented.

#### NEW QUESTION # 185

When choosing an amplifier for a 70 V system, what amplifier output would be the BEST option for a space with 12 speakers, each tapped to 30 W?

- A. 12 channel, 30 W at 8 #
- B. 1 channel, 500 W at 70 V
- C. 12 channel, 30 W at 70 V
- D. 2 channel, 200 W at 70 V

**Answer: B**

Explanation:

In a 70 V distributed audio system, the total power requirement is the sum of the power taps of all speakers.

With 12 speakers each tapped at 30 W:

$12 \text{ speakers} \times 30 \text{ W} = 360 \text{ W}$

It's standard practice to add a 20% headroom to accommodate potential future expansions and to ensure the amplifier isn't operating at full capacity continuously:

$360 \text{ W} \times 1.2 = 432 \text{ W}$

Therefore, an amplifier that can deliver at least 432 W at 70 V is appropriate. Option A provides 500 W at 70 V, which meets this requirement with additional headroom, making it the best choice.

#### NEW QUESTION # 186

What is a MAIN benefit of an externally managed AV/IT service?

- A. cost reduction in operations through clear responsibilities
- B. complete outsourcing of the AV/IT department
- C. reduce costs for business-software
- D. on-demand availability of computer system resources

**Answer: A**

#### NEW QUESTION # 187

A saeen is 144 in (3658 mm) wide and the throw ratio is 2.3:1. How far from the screen should the projector be placed?

- A. 331 in (8413 mm)
- B. 288 in (7303 mm)
- C. 446 in (11339 mm)
- D. 302 in (7681 mm)

**Answer: A**

Explanation:

The throw distance of a projector can be calculated using the throw ratio formula:  $\text{Throw Distance} = \text{Throw Ratio} \times \text{Screen Width}$

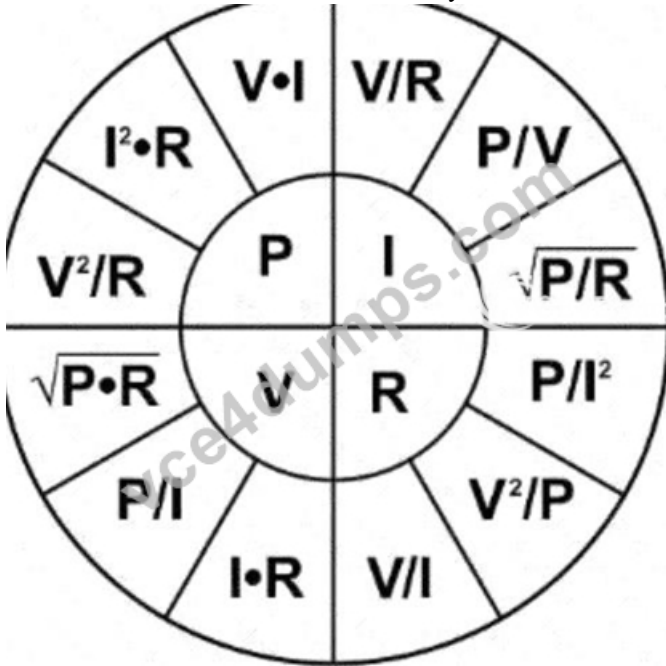

$\text{Throw Distance} = 2.3 \times 144 \text{ in}$

$\text{Throw Distance} = 331.2 \text{ in}$

Therefore, the projector should be placed approximately 331 inches (8413 mm) from the screen.

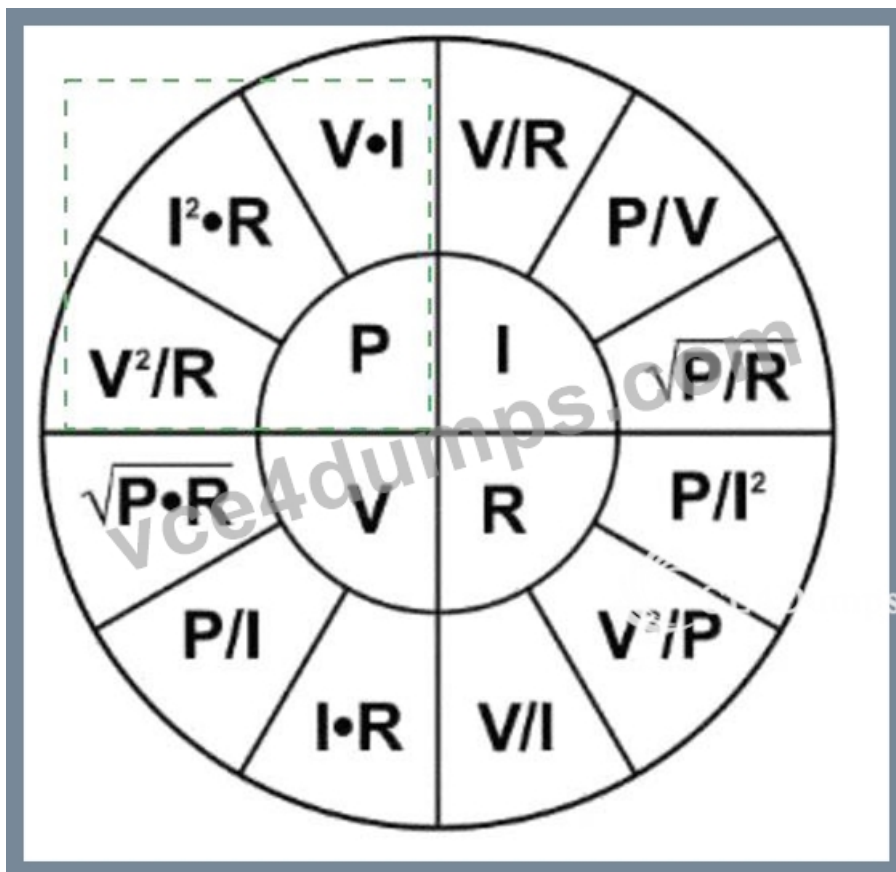

#### NEW QUESTION # 188

Which section of the Ohm's Law chart would you use to calculate watts? Select the coned quadrant.

**Answer:**

**Explanation:**

Explanation:

To calculate watts (P) using the Ohm's Law chart, you would use the sections that involve power formulas.

These sections are:

$$* P = V * I$$

$$* P = I^2 * R$$

$$* P = V^2 / R$$

These formulas show the relationship between power (watts) and the other electrical quantities: voltage (V), current (I), and resistance (R).

## NEW QUESTION # 189

.....

Our CTS exam questions have been widely acclaimed among our customers, and the good reputation in industry prove that choosing our study materials would be the best way for you, and help you gain the CTS certification successfully. With about ten years' research and development we still keep updating our CTS Prep Guide, in order to grasp knowledge points in accordance with the exam, thus your study process would targeted and efficient.
