

DevOps-SRE權威認證 - DevOps-SRE證照資訊

BONUS!!! 免費下載KaoGuTi DevOps-SRE考試題庫的完整版: https://drive.google.com/open?id=13m_Bux2z9lhCPmnV1388FlaPORsam9J

你是IT人士嗎？你想成功嗎？如果你想成功你就購買我們KaoGuTi Peoplecert的DevOps-SRE考試認證培訓資料吧，我們的培訓資料是通過實踐檢驗了的，它可以幫助你順利通過IT認證，有了KaoGuTi Peoplecert的DevOps-SRE考試認證培訓資料你在IT行業的將有更好的發展，可以享受高級白領的待遇，可以在國際上闖出一片天地，擁有高端的技術水準，你還在擔心什麼，KaoGuTi Peoplecert的DevOps-SRE考試認證培訓資料將會滿足你這一欲望，我們與你同甘共苦，一起接受這挑戰。

Peoplecert的認證考試最近越來越受到大家的歡迎了。IT認證考試有很多種。你參加過哪一個考試呢？比如DevOps-SRE等很多種考試。這些都是很重要的考試，你想參加哪一個呢？我們在這裏說一下DevOps-SRE認證考試。如果你想參加這個考試，那麼KaoGuTi的DevOps-SRE考古題可以幫助你輕鬆通過考試。

最實用的DevOps-SRE認證考試資料

獲得DevOps-SRE認證是眾多IT人員職業生涯的成功保證，而KaoGuTi網站中的DevOps-SRE題庫學習資料可以幫助您做到這一點。只要您支付您想要的考古題，您就能馬上得到它，在通眾多使用過本題庫產品的客戶回饋中，證明Peoplecert DevOps-SRE考古題是值得信賴的。DevOps-SRE題庫可以確保考生順利通過考試，大家還有什么理由不選擇呢？快將DevOps-SRE考古題加入購物車吧，您絕對不會後悔的！

DevOps是一系列實踐，結合了軟件開發和IT操作，以改善軟件產品的協作和交付。站點可靠性工程（SRE）是DevOps的擴展，該擴展側重於保持軟件系統的可靠性和正常運行時間。SRE從業人員負責設計，建造和操作高度可用，可擴展和耐故障的系統。

最新的 PeopleCert DevOps DevOps-SRE 免費考試真題 (Q36-Q41):

問題 #36

Which of the following communication and collaboration practices BEST contribute to the effectiveness of the SRE team?

- A. Data in SRE should be managed separately from others.
- B. Project managers share limited data only upon request.
- C. Team members should manage their own data discretely.
- **D. Data is flowing freely within and around the SRE team**

答案: D

問題 #37

What is the primary difference between SRE and DevOps?

- A. SRE is an implementation of DevOps but focuses mostly on post-production responsibilities
- B. DevOps and SRE are the same thing
- C. DevOps is mostly for software engineers and SRE is mostly for infrastructure engineers
- D. DevOps encourages closer collaboration between development and operations whereas SRE is about building a silo around production operations

答案: A

解題說明:

Comprehensive and Detailed Explanation From Exact Extract:

The primary difference between SRE and DevOps lies in their implementation focus and origins, though they share similar objectives. According to Google's official SRE documentation:

"SRE can be seen as a specific implementation of DevOps with some idiosyncratic extensions."

- Site Reliability Engineering Book, Chapter: What is Site Reliability Engineering?

While DevOps is a broad cultural and organizational philosophy aimed at closing the gap between development and operations through collaboration and automation, SRE provides a concrete, engineering-driven approach to achieving those goals - particularly through practices like error budgets, SLIs/SLOs, toil reduction, and incident response.

SRE focuses heavily on the post-production lifecycle - including reliability, monitoring, capacity planning, and incident response - whereas DevOps includes these concerns but emphasizes the entire software delivery lifecycle. Hence, Option A is the correct and most accurate answer.

Options B and C are incorrect:

- * B wrongly implies a division of roles (DevOps = developers, SRE = infrastructure), which is not how these frameworks operate.
- * C misrepresents SRE - it does not build silos but instead emphasizes shared responsibility and transparency in production systems.
- * D is incorrect because, while aligned, SRE and DevOps are not identical.

問題 #38

In which of the following SRE adoption models is reliability a 'first class citizen'?

- A. Full
- B. Consulting
- C. Embedded
- D. Platform

答案: A

解題說明:

Comprehensive and Detailed Explanation From Exact Extract:

In the Full SRE model, reliability becomes a first-class citizen because SREs own the complete operational responsibility for the service and apply SRE principles end-to-end. The Google SRE Book describes several adoption models (Consulting, Embedded, and Full), and only the Full SRE model has SREs fully accountable for reliability outcomes.

From the Site Reliability Engineering Book, Chapter "SRE Engagement Models":

"In the Full SRE model, the SRE team is responsible for end-to-end reliability. Reliability becomes a first-class objective, supported through SLOs, error budgets, and systematic reduction of toil." The Full model includes:

- * Full ownership of reliability
- * Enforcement of SLOs
- * Error budget policies
- * Engineering-driven improvement

Other models:

- * Consulting # SRE gives guidance but doesn't own reliability
- * Embedded # temporary embedding to train teams, not full ownership
- * Platform # focuses on shared tooling, not service ownership

Thus, D. Full is correct.

問題 #39

Which of the following is BEST described as the role responsible to maintain the live incident state document?

- A. The planning specialist
- B. The incident commander
- C. The communications lead
- D. The logistics specialist

答案： A

解題說明：

Comprehensive and Detailed Explanation From Exact Extract:

In SRE incident management, Google defines several formal roles during a major incident, including Incident Commander (IC), Communications Lead, Operations/Responder, and Planning Specialist. According to the SRE Workbook: "The Planning Lead is responsible for maintaining the source-of-truth incident state document, tracking action items, and ensuring the IC has the current situation overview." (SRE Workbook - Chapter: Incident Management). This document contains timelines, changes, decisions, diagnostics, and action items—all crucial for reducing cognitive load during high-stress situations.

Option C-Planning Specialist-is therefore correct.

Option A (Logistics Specialist) is not defined as a core SRE incident role.

Option B (Communications Lead) manages outward communication, not the live incident log.

Option D (Incident Commander) leads the incident but delegates documentation to the planning role.

Hence, option C is the only answer that aligns with SRE's defined responsibilities.

問題 #40

Which of the following features of Puppet Labs is described as the ability locate identify, and group cloud nodes?

- A. Provisioning
- B. Delivery
- C. discovery
- D. Insight

答案： C

問題 #41

.....

想要通過 DevOps-SRE 認證考試並不是僅僅依靠與考試相關的書籍就可以辦到的。與其盲目地學習考試要求的相關知識，不如做一些有價值的試題。KaoGuTi 為您提供一個明確的和特殊的解決方案，我們為您提供詳細的 Peoplecert DevOps-SRE 的問題和答案。我們的專家來自不同地區有經驗的技術專家編寫 DevOps-SRE 考古題。我們的 DevOps-SRE 考古題是我們經過多次測試和整理得到的擬真題，確保考生順利通過 DevOps-SRE 考試。

DevOps-SRE 證照資訊：https://www.kaoguti.com/DevOps-SRE_exam-pdf.html

我們能讓你順利高分甚至滿分通過 DevOps-SRE 考試，短時間取得應該取得 MCTS 證照，DevOps-SRE 題庫覆蓋率很高，根據過去的考試練習題和答案的研究，KaoGuTi 能有效的捕捉 Peoplecert DevOps-SRE 考古題 認證考試試題內容，KaoGuTi DevOps-SRE 證照資訊的考古題就是一個最好的方法，Peoplecert DevOps-SRE 權威認證 我們保證給你提供最優秀的參考資料讓你一次通過考試，要想一次性通過 Peoplecert DevOps-SRE 認證考試您必須得有一個好的準備和一個完整的知識結構，選擇好的培訓可以有效的幫助你快速鞏固關 IT 方面的大量知識，讓你可以為 Peoplecert DevOps-SRE 認證考試做好充分的準備，Peoplecert DevOps-SRE 權威認證 那麼，我在學習這一考試主題時，就需要分配更多的時間和精力。

宗裏每月發的那些都讓他拿去買酒喝了，寧小堂道：人已經進去了，我們能讓你順利高分甚至滿分通過 DevOps-SRE 考試，短時間取得應該取得 MCTS 證照，DevOps-SRE 題庫覆蓋率很高，根據過去的考試練習題和答案的研
