Microsoft also offers training courses and study materials to help candidates prepare for the exam.

Microsoft Collaboration Communications Systems Engineer Sample Questions (Q253-Q258):

NEW QUESTION # 253

You have a Teams Phone deployment that contains an Operator Connect provider in Canada.

You implement a common area phone named lobbyphone1.

You need to configure lobbyphone1 to meet the following requirements:

- * Outgoing calls must be placed only from within Canada.
- * Dial out during audio conferencing must be restricted.

How should you complete the command? To answer, select the appropriate options in the answer area.

☐

Answer:

Explanation:

☐

NEW QUESTION # 254

You have a Microsoft Teams Phone deployment.

You are deploying Direct Routing by using a certified Session Border Controller (SBC). The FQDN of the SBC is sbcVcontoso.com. You use signaling port 5067.

You cannot place calls and receive an error message in the Microsoft Teams admin center as shown in the following exhibit.

☐

What is a possible cause of the issue?

- A. The Forward P-Asserted Identify (PA!) header is disabled.
- B. The Baltimore root certificate is missing on the SBC.
- C. The failover timer is set to 0 seconds
- D. Location-Based Routing is enabled for the SBC

Answer: A

NEW QUESTION # 255

You have a Teams Phone deployment.

You port your company's main phone number from Teams Calling Plans to an Operator Connect provider.

Currently, the number is assigned to a resource account named Reception1. Reception1 is assigned to an auto attendant named Attendant1.

You need to reconfigure the phone number to work with Operator Connect.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

☐

Answer:

Explanation:

☐

Explanation:

☐

NEW QUESTION # 256

You have a Teams Phone deployment that contains an office in Mumbai.

The Mumbai office has a new Session Border Controller (SBC) named SBC1 that uses Direct Routing.

Users must be able to use SBC1 only when they are at the Mumbai office.

How should you complete the commands? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 257

Drag and Drop Question

You have a Microsoft Teams deployment.

You need to enable Audio Conferencing for scheduled Teams meetings. The solution must meet the following requirements:

- When attendees dial in to a meeting, they must be prompted to record their name before joining.

- Meeting participants must be notified when attendees join or leave a meeting.

What should you configure for each requirement? To answer, drag the appropriate settings to the correct requirements. Each setting may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Conference Bridges,

When attendees dial in to a meeting, they must be prompted to record their name before joining.

To enable dial-in users to record their names before joining a Microsoft Teams meeting, an administrator must configure the Audio Conferencing bridge settings in the Microsoft Teams admin center. Specifically, they need to navigate to Meetings > Conference Bridges, select the appropriate bridge, enable Meeting entry and exit notifications, and then toggle Ask callers to record their name before joining a meeting to On.

Box 2: Meeting settings

Meeting participants must be notified when attendees join or leave a meeting.

To ensure meeting participants are notified when others join or leave a Microsoft Teams meeting, the Meeting entry and exit notifications setting within the Audio Conferencing bridge settings in the Microsoft Teams admin center must be enabled. This is a global setting that applies to all users, and it is enabled by default.
