## Professional Microsoft Latest PL-600 Test Vce Are Leading Materials & Trustable PL-600: Microsoft Power Platform Solution Architect

Unlike other kinds of PL-600 exam files which take several days to wait for delivery from the date of making a purchase, our PL-

600 study guide can offer you immediate delivery after you have paid for them. The moment you money has been transferred to our account, and our system will send our training materials to your mail boxes so that you can download PL-600 exam materials directly. With so many experiences of PL-600 tests, you must be aware of the significance of time related to tests. Time is actually an essential part if you want to pass the exam successfully as both the preparation of PL-600 test torrent and taking part in the exam need enough time so that you can accomplish the course perfectly well.

Microsoft PL-600 exam is ideal for solution architects, functional consultants, and IT professionals who work with Power Platform technologies on a regular basis. It is also suitable for developers and business analysts who want to expand their knowledge and skills in designing solutions using Microsoft Power Platform technologies. Passing the Microsoft PL-600 Exam is a great achievement that demonstrates a candidate's expertise in designing solutions that meet business requirements and deliver value to organizations.

## Microsoft Power Platform Solution Architect Sample Questions (Q111-Q116):

### NEW QUESTION # 111

A client uses Dynamics 365 Sales, Power BI datasets, and Power BI dataflows.

The Dynamics 365 Sales implementation has security roles that restrict data export. You need to ensure that data has the same restrictions in Power BI as it does in Dynamics 365 Sales.

You need to design the security to avoid sensitive data from being seen.

Which two actions should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Limit the role in Dynamics 365 Sales to only data allowed so it cannot be exported to Microsoft Excel.
- B. Use Microsoft Dataverse restrictions before setting up the Power BI reports.
- C. **Limit the role and ensure that exporting to Microsoft Excel is not allowed in both Dynamics 365 Sales and Power BI.**
- D. Share Power BI dashboards only with users who are granted to see this data.

**Answer: C,D**

Explanation:

A: When you share a dashboard or report, the people you share it with can view it and interact with it, but can't edit it. They see the same data that you see in the dashboard and reports and get access to the entire underlying dataset unless row-level security (RLS) is applied to the underlying dataset.

B: Depending on the sensitivity of an organization's data, it is often necessary to disable the ability to export or print reports.

### NEW QUESTION # 112

You need to recommend solutions to meet the integration requirements.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

| Requirement   | Solution   |
|---|--|
| View, assign, and resolve inspection bottlenecks.               |  |
| Automatically input measurement readings from inspection gauges |  |

**Answer:**

Explanation:

## Requirement Microsoft

View, assign, and resolve inspection bottlenecks.

## Solution

|                    |
|--------------------|
| Booking rules      |
| Schedule board     |
| Proficiency models |

Automatically input measurement readings from inspection gauges

|                               |
|-------------------------------|
| Custom connector              |
| Azure IoT Hub connector       |
| Azure IoT Central connector   |
| Microsoft Dataverse connector |

Explanation:

| Requirement   | Solution  |                  |                         |                             |                               |
|---|---|------------------|-------------------------|-----------------------------|-------------------------------|
| View, assign, and resolve inspection bottlenecks.               | <table border="1"><tr><td>Booking rules</td></tr><tr><td>Schedule board</td></tr><tr><td>Proficiency models</td></tr></table>   | Booking rules    | Schedule board          | Proficiency models          |                               |
| Booking rules   |   |                  |                         |                             |                               |
| Schedule board  |   |                  |                         |                             |                               |
| Proficiency models  |   |                  |                         |                             |                               |
| Automatically input measurement readings from inspection gauges | <table border="1"><tr><td>Custom connector</td></tr><tr><td>Azure IoT Hub connector</td></tr><tr><td>Azure IoT Central connector</td></tr><tr><td>Microsoft Dataverse connector</td></tr></table> | Custom connector | Azure IoT Hub connector | Azure IoT Central connector | Microsoft Dataverse connector |
| Custom connector  |   |                  |                         |                             |                               |
| Azure IoT Hub connector   |   |                  |                         |                             |                               |
| Azure IoT Central connector                                     |   |                  |                         |                             |                               |
| Microsoft Dataverse connector                                   |   |                  |                         |                             |                               |

Box 1: Schedule board

Note: The Dynamics 365 Field Service schedule board provides an overview of resource availability and bookings you can make. When you're looking at the schedule board for the current day, you'll see a blue line that indicates the current time of day. You can also see a picture of all the resources listed on the schedule board. To quickly view contact information for a resource, hover over their name to view the contact card.

Box 2: Azure IoT Central connector

Azure IoT Central makes it easy to connect, monitor, and manage your IoT devices at scale. With the IoT Central V3 connector, you can trigger workflows when a rule has fired, and take actions by executing commands, updating properties, getting telemetry from devices, and more. Use this connector with your Azure IoT Central V3 application.

This connector is available in the following products and regions:

| Service        | Class    | Regions   |
|----------------|----------|---|
| Logic Apps     | Standard |  <b>Microsoft</b><br>All Logic Apps regions <small>except the following:</small> <ul style="list-style-type: none"> <li>- Azure Government regions</li> <li>- Azure China regions</li> </ul> |
| Power Automate | Premium  | All Power Automate regions <small>except the following:</small> <ul style="list-style-type: none"> <li>- US Government (GCC)</li> <li>- US Government (GCC High)</li> <li>- China Cloud operated by 21Vianet</li> </ul>   |
| Power Apps     | Premium  | All Power Apps regions <small>except the following:</small> <ul style="list-style-type: none"> <li>- US Government (GCC)</li> <li>- US Government (GCC High)</li> <li>- China Cloud operated by 21Vianet</li> </ul>   |

Topic 4, VanArsde1, Ltd

#### Background

VanArsde1, Ltd. builds custom homes. The company has one Azure tenant and uses multiple systems to manage the sales, construction, and warranties of the homes.

The company has three departments: sales, construction, and warranty. Sales, contract, and warranty information is not shared among the departments.

The owner of VanArsde1, Ltd. requires a consolidated system that the company can use to track each home's progress.

#### Sales

- \* Company employees use Microsoft Outlook for all communications.
- \* Company employees use Microsoft Word to create sales contracts.
- \* Employees in the sales department are frequently in different locations and work different hours from each other.
- \* Employees in the sales department use a Contracts team in Microsoft Teams to collaborate.
- \* The company uses a third-party marketing tool to update contacts every day.

#### Current environment

- \* Contacts' names must be formatted before they are imported from the third-party marketing tool.
- \* The company must retain contracts for five years.
- \* The company requires that the sales department display the All Contracts view in Microsoft Teams.
- \* All contract information must be stored in the All Contracts view.
- \* Contracts must not be lost if a device is lost or stolen.

#### Issue

- \* Employees in the sales department store contracts on their local computers.
- \* The construction team receives a copy of a contract only when the sale of a home is complete.

#### Construction

##### Current environment

- \* Employees in the construction department use Project Online to manage schedules.
- \* Employees in the construction department use Microsoft Excel to manage the costs of projects
- \* The main supplier of construction materials provides an API to the company. The company uses the API to manage supplies for projects in near real time.

#### Requirements

- \* Employees in the construction department must be able to demonstrate how their work is performed rather than document their process.
- \* The company requires that project schedules be created less than a week after a contract is signed.
- \* A field must sum up the costs of the materials.

#### Issues

- \* Employees in the construction department are unable to schedule resources because they are not informed of future projects.
- \* Employees in the construction department currently enter basic project information manually for each software application.

#### Warranty

##### Current environment

- \* Employees in the warranty department use Excel to track project issues and resolutions.
- \* The company requires that employees in the warranty department meet with each other in person to discuss their job roles.

#### Requirements

- \* The company requires that warranty claims be resolved in less than a month.
- \* The company requires that all claims be entered in the system along with their related issues.
- \* If a claim is found to be invalid, the company requires that the claim and its related issues be deleted.

#### Issue

- \* Employees in the warranty department report that they are frequently sent to homes without knowledge of what is in scope for the project.

#### General

#### Requirements

- \* The new system must use the development and production environments
- \* The development environment must be the master of all changes.
- \* All table changes must be added to a solution. Changes to the solution must not be allowed to be made in the production environment.
- \* Each department must have a custom app. Employees must be able to access only their department's app.
- \* All sales, contract, and warranty data must be shared among the departments.
- \* The project manager must be solely responsible for creating and owning the deployment plan for projects.
- \* All projects must run by using the Agile methodology.
- \* The deployment plan must include the environment setup, training plan, rollout strategy, and deployment support.

#### Issue

The IT manager reports that the deployment plan is not complete.

## NEW QUESTION # 113

You are a Power Platform consultant for an internet support company.

The company lacks a budget to buy third-party ISVs or add-ons.

The company requires a new system that achieves the following:

- \* All support issues must come in by email, need to be logged, and assigned to the support group.
- \* Accounts must synchronize with the parent company Oracle database.
- \* Reports must be sent to the executives on a weekly basis.
- \* No custom code will be used in the system.

You need to recommend the components that should be configured.

Which two components should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. server-side synchronization
- B. Power Virtual Agents
- C. Microsoft Customer Voice
- D. Microsoft Dataverse

#### Answer: A,D

Explanation:

The Dynamics 365 Customer Voice data is stored in Microsoft Dataverse.

Dynamics 365 Customer Voice is an enterprise feedback management application you can use to easily keep track of the customer metrics that matter the most to your business. ... It provides a personalized experience, enabling you to collect customer feedback and get relevant insights quickly and easily, all in a few clicks.

## NEW QUESTION # 114

#### Hotspot Question

A company uses Dynamics 365 Field Service to manage onsite services provided by frontline workers.

The company has the following requirements:

- Onsite inspectors must be able to collaborate with remote inspectors to carry out inspections.
- Customer support teams must be able to easily manage and maintain

knowledge articles based on customer questions and feedback.

You need to recommend a product that can be implemented for each requirement.

Which products should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

### Answer Area

#### Requirement

Enable collaboration between onsite inspectors and remote inspectors.

#### Product

|                                |
|--------------------------------|
| Power Virtual Agents           |
| Dynamics 365 Remote Assist     |
| Dynamics 365 Customer Voice    |
| Dynamics 365 Customer Insights |

Enable management and maintenance of knowledge articles.

|                                |
|--------------------------------|
| AI Builder                     |
| Dynamics 365 Customer Voice    |
| Dynamics 365 Customer Service  |
| Dynamics 365 Customer Insights |

Answer:

Explanation:

### Answer Area

#### Requirement

 Enable collaboration between onsite inspectors and remote inspectors.

#### Product

|                                |
|--------------------------------|
| Power Virtual Agents           |
| Dynamics 365 Remote Assist     |
| Dynamics 365 Customer Voice    |
| Dynamics 365 Customer Insights |

Enable management and maintenance of knowledge articles.

|                                |
|--------------------------------|
| AI Builder                     |
| Dynamics 365 Customer Voice    |
| Dynamics 365 Customer Service  |
| Dynamics 365 Customer Insights |

### NEW QUESTION # 115

You need to recommend solutions for the organization's technical challenges.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

| Requirement   | Microsoft  | Solution   |
|---|--|--|
| Provide workers a self-service option for viewing personal and skills information.    |  <div style="border: 1px solid black; padding: 5px; margin-top: 5px;"> Power Automate<br/> QnA Maker<br/> Azure Cognitive Services </div> | <div style="border: 1px solid black; padding: 5px; margin-top: 5px;"> Azure Active Directory B2B<br/> Azure Active Directory B2C<br/> Dynamics 365 owner team </div> |
| Authenticate workers who use the self-service option for updating skills information. | <div style="border: 1px solid black; padding: 5px; margin-top: 5px;"> Azure traffic routing<br/> Address input component<br/> Dynamics 365 Field Service </div>  |  |
| Plan routes for audit teams.  |  |  |

**Answer:**

Explanation:

| Requirement   | Solution   |
|---|--|
