## Peoplecert ITIL 4 Leader: Digital & IT Strategy Exam Sample Questions (Q39-Q44):

### NEW QUESTION # 39

Which is the BEST description of the relationship between organization's products, services, and resources?

- A. An organization's services are based on the organization's products
- B. An organization's resources are combinations of the organization's products
- C. An organization's resources are combinations of the organization's services
- D. An organization's products are required for the execution of an activity

**Answer: D**

### NEW QUESTION # 40

An organization cannot afford the loss that comes from taking risks that go wrong, but they suffer big losses because they often take these risks anyway.

What combination of risk capacity and risk appetite this situation?

- A. High risk capacity, low risk appetite
- B. Low risk capacity, low risk appetite
- C. High risk capacity, high risk appetite
- D. Low risk capacity, high risk appetite

**Answer: D**

Explanation:

A low risk capacity means that an organization cannot afford the loss that comes from taking risks that go wrong, while a high risk appetite means that an organization is willing to take those risks anyway. This situation can lead to big losses and unsustainable outcomes. Reference: ITIL 4 Leader: Digital and IT Strategy, page 57

### NEW QUESTION # 41

Which describes digital technology?

- A. An organization that is enabled to do business significantly differently
- B. A combination of information technology and operational technology
- C. The internal IT team of a service provider organization
- D. The application of technology for detecting changes in physical devices

**Answer: B**

### NEW QUESTION # 42

An organization has established a clear vision for digital transformation and has started their transformation journey. They have documented all their value streams and started to improve these. They use technology appropriately to maximize customer experience and operational excellence. They understand and manage risks, and they have a comprehensive approach to identifying and using innovative ideas.

What else do they need for the digital transformation to succeed?

- A. Management of staff skills and competence
- B. Improved use of automation
- C. Linked processes and practices to value creation
- D. Management of threats and opportunities

**Answer: A**

Explanation:

Management of staff skills and competence is what the organization needs for the digital transformation to succeed. This means that the organization ensures that its staff have the necessary skills and competence to support the digital transformation and deliver value

to customers. This can involve training, development, coaching, mentoring, recruitment, retention, and motivation of staff. Reference: ITIL 4 Leader: Digital and IT Strategy, page 68-69

## NEW QUESTION # 43

An organization strategy requires them to continually maintain market relevance.

Which approach is the MOST relevant to achieve this objective?

- A. Digital transformation
- B. Customer 360
- C. Employee 360
- D. PESTLE analysis

**Answer: B**
