2026 Latest FreePdfDump 1z0-1080-25 PDF Dumps and 1z0-1080-25 Exam Engine Free Share: <https://drive.google.com/open?id=1Xe04wSNPAGW8Im7dDtXMAKfGYk11nViQ>

Facing the incoming Oracle 1z0-1080-25 Exam, you may feel stained and anxious, suspicious whether you could pass the exam smoothly and successfully. Actually, you must not impoverish your ambition. Our suggestions are never boggle at difficulties. It is your right time to make your mark.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.
Topic 2	<ul style="list-style-type: none">Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.

Topic 3	<ul style="list-style-type: none"> • Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 4	<ul style="list-style-type: none"> • Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.
Topic 5	<ul style="list-style-type: none"> • Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 6	<ul style="list-style-type: none"> • Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system
Topic 7	<ul style="list-style-type: none"> • Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 8	<ul style="list-style-type: none"> • Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.
Topic 9	<ul style="list-style-type: none"> • Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 10	<ul style="list-style-type: none"> • Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.
Topic 11	<ul style="list-style-type: none"> • Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.
Topic 12	<ul style="list-style-type: none"> • Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.
Topic 13	<ul style="list-style-type: none"> • Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.
Topic 14	<ul style="list-style-type: none"> • Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.
Topic 15	<ul style="list-style-type: none"> • Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.
Topic 16	<ul style="list-style-type: none"> • Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.
Topic 17	<ul style="list-style-type: none"> • Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.

Oracle 1z0-1080-25 Braindumps Torrent | 1z0-1080-25 High Quality

We are a group of IT experts to provide professional study materials to people preparing Oracle certification exam. There are free demo you can download to check the accuracy of our 1z0-1080-25 Braindumps. It just needs to take one or two days to practice FreePdfDump 1z0-1080-25 dumps torrent and review the key points of our pass guide. Clearing exam is 100% guaranteed.

Oracle Planning 2025 Implementation Professional Sample Questions (Q50-Q55):

NEW QUESTION # 50

After enabling and configuring Financials, which of the following is a recommended post-configuration task?

- A. Specify the days in Period and to modify account signage for alternate reporting methods
- **B. Map and rename custom dimensions in Financials that will be used to integrate with other modules**
- C. Disable features that you do not plan to use
- D. Plan headcount and detailed employee compensation by employee, job code, or both

Answer: B

Explanation:

After enabling and configuring the Financials module in Oracle Planning 2024, post-configuration tasks are recommended to optimize its functionality and integration. The most relevant task among the options is:

* A. Plan headcount and detailed employee compensation by employee, job code, or both: Incorrect. This is a Workforce module task, not a post-configuration task for Financials, which focuses on revenue, expenses, and financial statements, not employee-level planning.

* B. Specify the days in Period and to modify account signage for alternate reporting methods: Incorrect.

While period setup occurs during initial configuration (e.g., Planning and Forecast Preparation), modifying account signage or days in periods is not a recommended post-configuration task—it's either part of initial setup or an ad-hoc adjustment.

* C. Map and rename custom dimensions in Financials that will be used to integrate with other modules:

Correct. Post-configuration, mapping and renaming custom dimensions (e.g., Department, Product) ensures seamless integration with other modules like Workforce or Projects. This task aligns dimensions across the application, a common best practice after enabling Financials.

* D. Disable features that you do not plan to use: Incorrect. Disabling features is not a typical post-configuration task; features are enabled/disabled during initial configuration via the Configure card, not as a follow-up step.

The Oracle documentation highlights mapping custom dimensions as a recommended post-configuration task to facilitate data integration and reporting, making C the correct answer.

Oracle Planning 2024 Implementation Study Guide: "Post-Configuration Tasks for Financials" (docs.oracle.com, Published 2024-09-20).

Oracle EPM Cloud Documentation: "Configuring Financials and Integration" (docs.oracle.com, Published 2023-11-10, updated for 2024).

NEW QUESTION # 51

You are currently making modifications to loaded salary information using the Mass Update forms in Workforce. After making changes, which statements are true when working with Mass Update?

- A. If an existing employee is not loaded from the load file, you won't be able to add their compensation information without first reloading a load file with the existing employee records.
- B. After making changes to salary information, you must run the Calculate Compensation business rule before saving data.
- **C. After making changes to salary information and saving the data on the form a Groovy rule runs to process the changeAfter data.**
- **D. After modifying salary, you can re-apply configured default assignments for benefits, additional earning and taxes**

Answer: C,D

NEW QUESTION # 52

Which two statements are true about approval units?

- A. You can have up to three scenario/version combinations per approval unit.
- **B. Approval units are combinations of scenario, version, and entity or part of an entity.**
- **C. Approval units can also include secondary dimensions within any entity.**
- D. You can set the option in Application Settings to include detailed annotations for approval units.

Answer: B,C

Explanation:

In Oracle Planning 2024, approval units manage the review process. The two true statements are:

* A. You can have up to three scenario/version combinations per approval unit: Incorrect. There's no strict limit of three scenario/version combinations per approval unit; multiple combinations are possible based on hierarchy design.

* B. Approval units are combinations of scenario, version, and entity or part of an entity: Correct.

Approval units are defined by Scenario (e.g., Budget), Version (e.g., Working), and Entity (e.g., Department) or entity hierarchies, forming the basis of the approval process.

* C. Approval units can also include secondary dimensions within any entity: Correct. Secondary dimensions (e.g., Product, Project) can be added to approval units within an entity to refine the scope of approval.

* D. You can set the option in Application Settings to include detailed annotations for approval units:

Incorrect. Annotations are cell-level notes, not an Application Settings option tied to approval units; they're managed separately. The Oracle documentation confirms B and C as accurate descriptions of approval units, making them the correct answers.

References:

Oracle Planning 2024 Implementation Study Guide: "Approval Units Overview" (docs.oracle.com, Published 2024-09-15).

NEW QUESTION # 53

Which two are use cases for Smart Push?

- A. Allow users to run Smart Push in forms to move data from source aggregate storage cubes.
- **B. Allow users to update data in another cube on demand**
- C. Allow the application to schedule when to synchronize data
- **D. Allow users to update data in reporting cube after saving data in the planning web form**

Answer: B,D

NEW QUESTION # 54

Which card in the Application cluster allows you to enable modules?

- A. Cube Editor
- B. Settings
- **C. Configure**
- D. Enable Features
- E. Tools

Answer: C

Explanation:

In Oracle Planning 2024, the Application cluster in the navigator includes cards for managing application settings and features. The card that allows you to enable modules (e.g., Workforce, Projects) is:

* A. Settings: Incorrect. Settings is not a card in the Application cluster; it's typically a broader system-level option, not specific to module enablement.

* B. Configure: Correct. The Configure card in the Application cluster provides access to the Enable Features page, where administrators can turn on modules like Financials, Workforce, or Projects.

* C. Tools: Incorrect. The Tools card offers utilities (e.g., diagnostics, job scheduling), not module enablement.

* D. Enable Features: Incorrect. While "Enable Features" is the specific action/page, it is accessed via the Configure card, not a standalone card in the Application cluster.

* E. Cube Editor: Incorrect. Cube Editor is for managing cube structures (e.g., dimensions), not enabling modules.

The Oracle documentation specifies that the Configure card is the entry point for enabling modules, making B the correct answer.

NEW QUESTION # 55

.....

In recent years, the market has been plagued by the proliferation of learning products on qualifying examinations, so it is extremely difficult to find and select our 1z0-1080-25 test questions in many similar products. However, we believe that with the excellent quality and good reputation of our study materials, we will be able to let users select us in many products. Our study materials allow users to use the 1z0-1080-25 Certification guide for free to help users better understand our products better. Even if you find that part of it is not for you, you can still choose other types of learning materials in our study materials. We can meet all your requirements and solve all your problems by our 1z0-1080-25 certification guide.
