Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q18-Q23):

NEW QUESTION # 18

Which resource could BEST help a CEO determine how to identify the category of CUI ?

- A. CMMC-AB
- **B. NARA**
- C. DoD DFARS Part 252
- D. CMMC Assessment Guide

Answer: B

Explanation:

The best resource for identifying the category of Controlled Unclassified Information (CUI) is NARA , because NARA is the CUI Executive Agent for the federal CUI Program and maintains the authoritative CUI Registry . The Registry is specifically where the government publishes the approved CUI categories (and related markings and handling guidance) used across the Executive Branch. NARA's own CUI FAQs explicitly point users to the CUI Registry as the place that "lists all authorized CUI Categories (basic and specified)." Likewise, NIST's CUI-related FAQ page also points to the NARA CUI Registry for CUI categories, reinforcing that the Registry is the correct source for determining which category applies to a given type of information.

By contrast, DFARS Part 252 (including clauses like 252.204-7012) addresses contractual safeguarding and cyber reporting requirements, not the authoritative categorization list itself. The CMMC Assessment Guide is about how to assess controls for CMMC levels, not how to determine CUI categories. And the Cyber AB (formerly CMMC-AB) administers the ecosystem and assessment processes, not the federal CUI category taxonomy. Therefore, NARA is the best answer.

NEW QUESTION # 19

An OSC lead has provided company information, identified that they are seeking CMMC Level 2, stated that they handle FCI, identified stakeholders, and provided assessment logistics. The OSC has provided the company's cyber hygiene practices that are posted on every workstation, visitor logs, and screenshots of the configuration of their FedRAMP-approved applications. The OSC has not won any DoD government contracts yet but is working on two proposals Based on this information, which statement BEST describes the CMMC Level 2 Assessment requirements?

- A. Ready because all DoD contractors are required to achieve CMMC Level 2; therefore, they are being proactive in seeking certification.
- B. Not ready because the OSC is not on contract because they do not know the scope of FCI protection required by the contract.
- C. Ready because there is no need to certify this company until after they win a DoD contract.
- **D. Not ready because the OSC still lacks artifacts that prove they have implemented all the CMMC Level 2 Assessment requirements.**

Answer: D

NEW QUESTION # 20

The director of sales, in a meeting, stated that the sales team received feedback on some emails that were sent, stating that the emails were not marked correctly. Which training should the director of sales refer the sales team to regarding information as to how to mark emails?

- **A. NARA CUI Introduction to Marking**

- B. C3PAO CUI Introduction to Marking
- C. CMMC-AB CUI Introduction to Marking
- D. FBI CUI Introduction to Marking

Answer: A

Explanation:

The Controlled Unclassified Information (CUI) Program, established by Executive Order 13556, standardizes the handling and marking of unclassified information that requires safeguarding or dissemination controls across federal agencies and their contractors. The National Archives and Records Administration (NARA) serves as the Executive Agent responsible for implementing the CUI Program.

In the context of the Cybersecurity Maturity Model Certification (CMMC) 2.0, particularly at Level 2, organizations are required to protect CUI by adhering to the security requirements outlined in NIST Special Publication 800-171. This includes proper marking of CUI to ensure that all personnel recognize and handle such information appropriately.

The NARA CUI Introduction to Marking provides comprehensive guidance on the correct procedures for marking documents and communications containing CUI. This resource is essential for training purposes, as it offers detailed instructions and examples to help personnel understand and implement proper CUI markings.

By referring the sales team to the NARA CUI Introduction to Marking, the director of sales ensures that the team receives authoritative and standardized training on how to appropriately mark emails and other documents containing CUI, thereby maintaining compliance with federal regulations and CMMC requirements.
