Use Genuine Cisco 100-160 Questions for your Exam Preparation

Life is full of choices. Selection does not necessarily bring you happiness, but to give you absolute opportunity. Once missed selection can only regret. Prep4pass's Cisco 100-160 exam training materials are necessary to every IT person. With this materials, all of the problems about the Cisco 100-160 will be solved. Prep4pass's Cisco 100-160 exam training materials have wide coverage, and update speed. This is the most comprehensive training materials. With it, all the IT certifications need not fear, because you will pass the exam.

Cisco 100-160 Exam Syllabus Topics:

Topic	Details
Topic 1	• Basic Network Security Concepts: This section of the exam measures the skills of a Network Defender and focuses on understanding network-level protections, including firewalls, VPNs, and intrusion detection • prevention systems, providing insight into how threats are mitigated within network environments.
Topic 2	• Essential Security Principles: This section of the exam measures the skills of a Cybersecurity Technician and covers foundational cybersecurity concepts such as the CIA triad (confidentiality, integrity, availability), along with basic threat types and vulnerabilities, laying the conceptual groundwork for understanding how to protect information systems.
Topic 3	• Endpoint Security Concepts:This section of the exam measures the skills of an Endpoint Security Specialist and includes securing individual devices, understanding protections such as antivirus, patching, and access control at the endpoint level, essential for maintaining device integrity.
Topic 4	• Incident Handling: This section of the exam measures the skills of an Incident Responder and centers on recognizing security incidents, responding appropriately, and containing threats—forming the essential foundation of incident response procedures.
Topic 5	• Vulnerability Assessment and Risk Management: This section of the exam measures the skills of a Risk Management Analyst and entails identifying and assessing vulnerabilities, understanding risk priorities, and applying mitigation strategies that help manage threats proactively within an organization's systems

Cisco Certified Support Technician (CCST) Cybersecurity Sample Questions (Q49-Q54):

NEW QUESTION # 49
Which of the following is a benefit of utilizing automated threat intelligence within a cybersecurity system?

- A. All of the above
- B. Increased vulnerability detection
- C. Improved incident response time
- D. Reduced false positives

Answer: A

Explanation:
Automated threat intelligence systems gather and analyze vast amounts of data to identify potential threats and vulnerabilities. By utilizing these systems, organizations can benefit from reduced false positives, increased vulnerability detection, and improved incident response time. This comprehensive approach enhances the overall effectiveness of a cybersecurity system.

NEW QUESTION # 50
Which of the following is the primary objective of vulnerability assessment in cybersecurity?

- A. To identify and remove all vulnerabilities from a system.
- B. To determine the likelihood of a vulnerability being exploited.
- C. To assess the impact of identified vulnerabilities on the system.

- D. To evaluate the effectiveness of existing security controls.

Answer: B

Explanation:
The primary objective of vulnerability assessment is to determine the probability of a vulnerability being exploited. It involves identifying and prioritizing vulnerabilities, so resources can be allocated to fix the most critical ones first.

NEW QUESTION # 51
Which of the following is an example of a detective control?

- A. Security information and event management (SIEM) system
- B. Encryption
- C. Patch management
- D. Access control list (ACL)

Answer: A

Explanation:
A SIEM system is a detective control that collects and analyzes security event logs from various sources to identify and detect potential security incidents. It provides real-time monitoring and alerts for suspicious activities, enabling organizations to identify and respond to security events effectively.

NEW QUESTION # 52
Why is updating documentation regularly important in the context of cybersecurity?

- A. To maintain accurate records of security incidents
- B. All of the above
- C. To ensure compliance with industry regulations
- D. To facilitate effective incident response and investigation

Answer: B

Explanation:
Updating documentation regularly is crucial in cybersecurity for multiple reasons. Firstly, it helps maintain accurate records of security incidents, which is essential for future reference and analysis. Secondly, updating documentation ensures compliance with industry regulations and standards, helping organizations avoid potential penalties and legal issues. Lastly, up-to-date documentation facilitates effective incident response and investigation, enabling swift action and minimizing the impact of cybersecurity incidents.

NEW QUESTION # 53
Which of the following is a unique identifier assigned to a network interface card (NIC)?

- A. MAC address
- B. IP address
- C. Subnet mask
- D. Default gateway

Answer: A

Explanation:
A Media Access Control (MAC) address is a unique identifier assigned to a network interface card (NIC) by the manufacturer. It is a 48-bit address typically represented as six groups of two hexadecimal digits separated by colons or hyphens. MAC addresses are used for communication at the data link layer of the network stack.

NEW QUESTION # 54
......

Our passing rate of 100-160 exam guide is 98%-100% and our 100-160 test prep can guarantee that you can pass the exam easily and successfully. Our 100-160 exam materials are highly efficient and useful and can help you pass the exam in a short time and save your time and energy. It is worthy for you to buy our 100-160 Quiz torrent and you can trust our product. You needn't worry about anything as long as you have our 100-160 training material. We guarantee to you our 100-160 exam materials can help you and you will have an extremely high possibility to pass the exam.
