NEW QUESTION # 40

Which statement about the PRINCE2 Agile behaviour 'collaboration' is CORRECT?

- A. It allows many small learnings to accumulate over time
- **B. It creates a shared ownership of goals**
- C. It allows the delivery team to decide how best to get the job done
- D. It uses the most effective channel to communicate

Answer: B

NEW QUESTION # 41

Which is the BEST method of communication to gather feedback?

- **A. Meeting face-to-face to encourage an exchange of views**
- B. Discussing over the telephone to gather feedback quickly from stakeholders

- C. Conducting online surveys to obtain a range of opinions
- D. Receiving emailed diagrams to encourage discussion

Answer: A

NEW QUESTION # 42

What is the MOST important when blending PRINCE2 Project Management with agile?

- A. Following agile processes
- B. Fostering psychological safety
- C. Adopting agile mindset
- D. Using agile techniques

Answer: C

Explanation:

When blending PRINCE2 with agile, adopting an agile mindset is the most important factor for success. The mindset involves embracing agile values such as flexibility, collaboration, delivering value incrementally, and being responsive to change. Without this cultural and attitudinal shift, the use of agile techniques or processes becomes superficial and fails to deliver the benefits of agility. PRINCE2 is a highly structured project management method with defined roles, processes, and controls.

Integrating agile methods requires more than just overlaying practices like Scrum or Kanban; it demands a fundamental shift in thinking about leadership, governance, team dynamics, and customer involvement.

Fostering psychological safety (B) is indeed important because it allows teams to express ideas, take risks, and innovate without fear of negative consequences. However, this psychological safety is a component of the broader agile mindset.

Using agile techniques (C) and following processes (D) are enablers but do not guarantee agile success.

Teams may mechanically perform ceremonies without understanding the principles behind them.

The PRINCE2 Agile guidance emphasizes that the mindset must permeate all levels of the project and organization. Leaders and teams should adopt agility as a philosophy, not just a set of practices.
