- 3) Choose the correct adjective order:
i. Mrignayani's big dark blue eyes cast a spell on me.
ii. Mrignayani's blue dark big eyes cast a spell on me.
iii. Mrignayani's dark blue big eyes cast a spell on me.
iv. Mrignayani's big blue dark eyes cast a spell on me.
[1]
a) Option (ii) b) Option (iv)
c) Option (iii) d) Option (i)
- 4) Choose the correct verb:
If you are in town, you _____ come to me. [1]
a) Are b) Will
c) Were d) Had
- 5) Choose the correct option for tense:
The guests _____ yet. [1]
a) Did not arrive b) Do not arrive
c) Have not arrived d) Are not arriving
- 6) Choose the appropriate article:
On the way, I saw _____ elephant. [1]
a) The b) An
c) A d) No article required

Question No. 7 to 10 are based on the given text. Read the text carefully and answer the questions:
A well dressed young man entered a big textile shop one evening. He was able to draw the attention of sales man who thought him rich and likely to make heavy

purchases. He was shown the superior varieties of suit lengths and sarees. But after casually examining them, he kept moving to the next section where readymade goods were being sold and further on to the hosiery section. By then, the salesman had begun to doubt his intentions and drew the attention of the manager. The manager asked him what exactly he wanted and he replied he wanted courteous treatment. He explained that he had come to the same shop in the morning dressed casually and drawn little attention. His pride was hurt and he wanted to assert himself. He had come in good dress only to get decent treatment, not for getting any textiles. He left without making any purchase. [4]

- 7) The young man was able to catch the attention of the salesman because
a) He was smartly dressed and goodlooking
b) He was loudly dressed and behaved abominably
c) He was well dressed and appeared rich
d) He called out to the salesman and demanded to be attended to
- 8) The salesman showed him the superior variety of goods because
a) He thought that the youngman was a connoisseur of good products
b) The youngman had a lot of money and demanded to be shown only the best available
c) He thought he could sell his less saleable items
d) He thought that the man was rich and would prefer expensive varieties
- 9) The salesman began to doubt the youngman's intention as he:
a) Kept moving from one section to another and didn't buy anything
b) Bought a lot of very expensive things
c) He looked like a well dressed thief
d) Continued to look at the displays in the windows and kept asking to be attended to

Fortinet NSE 7 - FortiSASE 25 Enterprise Administrator 100% Pass**

All consumers who are interested in NSE7_SSE_AD-25 guide materials can download our free trial database at any time by visiting our platform. During the trial process, you can learn about the three modes of NSE7_SSE_AD-25 study quiz and whether the presentation and explanation of the topic in NSE7_SSE_AD-25 Preparation questions is consistent with what you want. If you are interested in our products, I believe that after your trial, you will certainly not hesitate to buy it.

Fortinet NSE 7 - FortiSASE 25 Enterprise Administrator Sample Questions (Q32-Q37):

NEW QUESTION # 32

Refer to the exhibits.

When remote users connected to FortiSASE require access to internal resources on Branch-2, how will traffic be routed?

- A. FortiSASE will use the SD-WAN capability and determine that traffic will be directed to HUB-1, which will then route traffic to Branch-2.
- B. FortiSASE will use the SD-WAN capability and determine that traffic will be directed to HUB-2, which will then route traffic to Branch-2.
- C. FortiSASE will use the AD VPN protocol and determine that traffic will be directed to Branch-2 directly, using a static route
- D. FortiSASE will use the AD VPN protocol and determine that traffic will be directed to Branch-2 directly, using a dynamic route

Answer: A

Explanation:

When remote users connected to FortiSASE require access to internal resources on Branch-2, the following process occurs:

- * SD-WAN Capability:
- * FortiSASE leverages SD-WAN to optimize traffic routing based on performance metrics and priorities.
- * In the priority settings, HUB-1 is configured with the highest priority (P1), whereas HUB-2 has a lower priority (P2).
- * Traffic Routing Decision:
- * FortiSASE evaluates the available hubs (HUB-1 and HUB-2) and selects HUB-1 due to its highest priority setting.
- * Once the traffic reaches HUB-1, it is then routed to the appropriate branch based on internal routing policies.
- * Branch-2 Access:
- * Since HUB-1 has the highest priority, FortiSASE directs the traffic to HUB-1.
- * HUB-1 then routes the traffic to Branch-2, providing the remote users access to the internal resources.

FortiSASE 23.2 Documentation: Explains how FortiSASE integrates with SD-WAN to route traffic based on defined priorities and performance metrics.

NEW QUESTION # 33

What is the benefit of SD-WAN on-ramp deployment with FortiSASE?

- A. To provide access to private applications using the bookmark portal
- B. To provide device compliance checks using ZTNA tags
- C. To manage branch location endpoints
- D. To secure internet traffic for branch users

Answer: D

Explanation:

SD-WAN on-ramp with FortiSASE directs branch user internet traffic to the FortiSASE cloud for consistent security enforcement and protection, regardless of the branch location.

NEW QUESTION # 34

Refer to the exhibit. An organization must inspect all the endpoint internet traffic on FortiSASE, and exclude Google Maps traffic from the FortiSASE VPN tunnel and redirect it to the endpoint physical interface.

Which configuration must you apply to achieve this requirement?

- A. Add the Google Maps URL in the zero trust network access (ZTNA) TCP access proxy forwarding rule.
- B. Exempt Google Maps in URL filtering in the web filter profile.
- **C. Add the Google Maps URL as a steering bypass destination in the endpoint profile.**
- D. Configure a steering bypass tunnel firewall policy using Google Maps FQDN to exclude and redirect the traffic.

Answer: C

Explanation:

To exclude specific internet traffic (such as Google Maps) from being tunneled through FortiSASE and instead direct it out the local endpoint interface, you must configure it as a steering bypass destination in the FortiClient endpoint profile. This ensures traffic matching the URL bypasses the FortiSASE tunnel.

NEW QUESTION # 35

An organization must block user attempts to log in to non-company resources while using Microsoft Office 365 to prevent users from accessing unapproved cloud resources.

Which FortiSASE feature can you implement to meet this requirement?

- A. web filter with inline-CASB
- **B. application control with inline-CASB**
- C. DNS filter with domain filter
- D. data loss prevention (DLP) with Microsoft Purview Information Protection (MPIP)

Answer: B

Explanation:

Application control with inline-CASB allows FortiSASE to inspect and control application behavior at a granular level. This enables the organization to block login attempts to personal or non- corporate Microsoft Office 365 accounts, ensuring that only approved cloud resources are accessed.

NEW QUESTION # 36

How can digital experience monitoring (DEM) on an endpoint assist in diagnosing connectivity and network issues?

- A. FortiSASE runs SNMP traps to the endpoint using the DEM agent to verify the SaaS application health status.
- **B. FortiSASE runs a trace job on the endpoint using the DEM agent to the Software-as-a-Service (SaaS) application.**
- C. FortiSASE runs a netstat from the endpoint to the SaaS application to see if ports are open.
- D. FortiSASE runs a ping from the endpoint to calculate the TTL to the SaaS application.

Answer: B

Explanation:

The Digital Experience Monitoring (DEM) agent on the endpoint performs a trace route to the SaaS application to measure latency, packet loss, and hop-by-hop performance. This helps diagnose where in the path connectivity or performance issues are occurring.

NEW QUESTION # 37

.....

How to get the test NSE7_SSE_AD-25 certification in a short time, which determines enough qualification certificates to test our learning ability and application level. This may be a contradiction of the problem, we hope to be able to spend less time and energy to take into account the test NSE7_SSE_AD-25 Certification, but the qualification examination of the learning process is very wasted energy, so how to achieve the balance? Our NSE7_SSE_AD-25 exam prep can be done with its high-efficient merit. Try it now!
