You'll receive detailed feedback on your performance, so you know what areas to focus on and improve.

Avaya IP Office™ Platform Implement Certified Exam Sample Questions (Q30-Q35):

NEW QUESTION # 30

Which feature allows a user to log into any phone and use their own extension?

- A. Call Forwarding
- B. Mobile Twinning
- C. Remote Worker
- **D. Hot Desking**

Answer: D

Explanation:

Hot Desking (Option B) allows a user to log into any IP Office phone with their extension and profile using a login code, ideal for shared workspaces. Option A (Mobile Twinning) links to external numbers, Option C (Call Forwarding) redirects calls, and Option D (Remote Worker) is a user profile, not a login feature.

References: Avaya IP Office Hot Desking Configuration Guide.

NEW QUESTION # 31

To achieve maximum capacity on an IP500 V2 control unit, how many external expansion modules may be added in total, without adding a 4-port expansion card?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

NEW QUESTION # 32

What is the maximum number of simultaneous calls supported by an IP500 V2 with two VCM32 cards?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

Each VCM32 card supports 32 VoIP calls, so two VCM32 cards on an IP500 V2 support 64 simultaneous calls (Option B). Options A, C, and D reflect incorrect totals for this configuration. References: Avaya IP Office IP500 V2 Installation Manual.

NEW QUESTION # 33

Which feature allows a user to forward their calls to an external number?

- A. Call Forwarding
- B. Call Diversion
- C. Remote Call Forward

- **D. Mobile Twinning**

Answer: D

Explanation:

Mobile Twinning (Option B) allows a user to link their IP Office extension to an external number (e.g., a mobile phone), so calls ring both devices simultaneously or sequentially. This is distinct from Option A (Call Forwarding), which redirects calls to another internal extension or voicemail, not typically an external number without additional setup. Option C (Remote Call Forward) is not a standard IP Office term, and Option D (Call Diversion) is a synonym for forwarding but less specific to external numbers. References: Avaya IP Office Mobile Twinning Configuration Guide.

NEW QUESTION # 34

What is the maximum number of IP500 V2 control units that can be networked in a Small Community Network (SCN)?

- **A. 0**
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

The Small Community Network (SCN) allows multiple IP500 V2 control units to be networked for distributed telephony. The maximum number supported is 32 (Option D), enabling up to 1000 users across the network with proper licensing and configuration. Options A, B, and C represent lower limits not reflective of SCN's full capacity. References: Avaya IP Office SCN Configuration Guide.

NEW QUESTION # 35

.....

Itcertking Avaya 77201X exam information is proven. We can provide the questions based on extensive research and experience.
