## DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q82-Q87):

### NEW QUESTION # 82

Which of the following are key contributors that would enhance the complexity in implementing security measures for protection of personal information? (Choose all that apply.)

- A. None of the above
- B. Evolution of nimble and flexible business processes affecting access management
- C. Data collection through multiple modes and channels
- D. Regulatory requirements to issue privacy notice and data breach notification in specified format

**Answer: B,C**

Explanation:

The complexity of implementing data security for personal information is often influenced by operational and architectural factors such as:

\* A: Collecting data through various channels like web forms, mobile apps, customer support, etc., which introduces complexity in tracking and securing each channel.

\* B: Flexible and dynamic business processes that evolve rapidly can complicate access management due to frequent changes in user roles, workflows, and data access needs.

While regulatory requirements (C) do impact privacy governance, they do not directly contribute to the complexity of implementing technical security measures.

### NEW QUESTION # 83

What are the three main approaches for assessing privacy? Tick all that apply.

- A. Organisational competence assessment
- B. Privacy by Design
- C. Privacy risk assessment
- D. Product evaluation
- E. Principle based assessment

**Answer: A,C,E**

Explanation:

The DSCI Assessment Framework for Privacy (DAF-P) outlines three key approaches for privacy assessment:

\* Principle-based assessment (evaluates implementation of privacy principles like purpose limitation, data minimization, etc.)

\* Organisational competence assessment (evaluates maturity of organizational processes and resources for privacy)

\* Privacy risk assessment (identifies and mitigates potential risks to personal data) These approaches collectively enable a comprehensive evaluation of an organization's privacy posture .

### NEW QUESTION # 84

Following aspects can serve as inputs to a privacy organization for ensuring privacy protection:

- I) Privacy related incidents detected/reported
- II) Contractual obligations
- III) Organization's exposure to personal information
- IV) Regulatory requirements

- A. II and IV
- B. I, II and III
- C. None of the above, as privacy and compliance protection mechanisms are evolved based only on organization's privacy policies and procedures
- D. I, II, III and IV

**Answer: D**

### NEW QUESTION # 85

\_\_\_\_\_ layer of the DSCI Privacy Framework (DPF) ensures that adequate level of awareness exists in an organization.

- A. Personal Information Security

- B. Information Usage, Access, Monitoring and Training
- C. None of the above
- D. Privacy Strategy and Processes

**Answer: B**

Explanation:

The layer "Information Usage, Access, Monitoring and Training" in the DSCI Privacy Framework includes:

- \* Raising awareness on privacy principles
- \* Conducting periodic training and education programs
- \* Monitoring usage of information and enforcing accountability

This layer plays a vital role in ensuring that privacy-related roles, risks, and procedures are communicated clearly across the organization.

#### **NEW QUESTION # 86**

Classify the following scenario as major or minor non-conformity.

"The organization defined information access and usage policy and rolled it out across the organization No formal exercise, however, was conducted to prepare the policy During implementation, certain discrepancies came out and these were addressed through appropriate policy revisions though this created a lot of hue and cry in the organization and the policy was criticized for adversely affecting productivity But with appropriate revisions and passage of time, the policy has been accepted In a recently conducted external audit one incident has come to light wherein the usage and access policy has been violated by an employee twice As per the auditor this incident should have been identified by the organization In its explanation to the auditor the management informed that appropriate access and usage monitoring mechanisms have been put in place but admitted that there may have been some lapses".

- A. None of the above
- B. Both Major & Minor
- C. Minor
- D. Major

**Answer: C**
