## DSCI DCPLA Latest Study Plan & DCPLA New Braindumps Book

All questions in our DCPLA pass guide are at here to help you prepare for the certification exam. We have developed our learning materials with accurate DCPLA exam answers and detailed explanations to ensure you pass test in your first try. Our PDF files are

printable that you can share your DCPLA free demo with your friends and classmates. You can practice DCPLA real questions and review our study guide anywhere and anytime.

DSCI Certified Privacy Lead Assessor (DCPLA) certification is a globally recognized program designed to equip professionals with the knowledge and skills required to assess and manage privacy programs in organizations. DSCI Certified Privacy Lead Assessor DCPLA certification is awarded by the Data Security Council of India (DSCI), a not-for-profit industry body recognized by the Indian government. The DCPLA certification exam is the final step towards obtaining this prestigious certification.

DSCI DCPLA Certification is an excellent certification for privacy experts who seek to work as lead assessors, auditors, or consultants when evaluating data privacy compliance in organizations in India. DSCI Certified Privacy Lead Assessor DCPLA certification assures that holders are equipped with the fundamental skills and knowledge to conduct audits, assessments, and reviews on an organization's data privacy programs in accordance with globally recognized data privacy frameworks and standards.

## **DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q21-Q26):**

### **NEW QUESTION # 21**

As a newly appointed Data Protection Officer of an IT company gearing up for DSCI's privacy certification, you are trying to understand what data elements are involved in each of the business process, function and if these data elements can be classified as sensitive personal information. What is being accomplished with this effort?

- A. It is a part of the annual exercise per the organization's privacy policy / processes
- B. Gathering inputs to restructure privacy function
- C. Information security controls for confidential information being reviewed
- **D. Organization to get "Visibility" over its exposure to sensitive personal information**

**Answer: D**

Explanation:

The described activity directly aligns with the objectives of the "Visibility over Personal Information (VPI)" practice area of the DSCI Privacy Framework. VPI involves:

- \* Mapping personal data across all business processes and functions
- \* Identifying whether such data qualifies as personal or sensitive personal information (SPI)
- \* Establishing a baseline understanding of data exposure and privacy risk This is the first and foundational step in privacy governance to ensure all subsequent controls are accurately targeted.

### **NEW QUESTION # 22**

From the following list, identify the technology aspects that are specially designed for upholding privacy:

- I) Data minimization
- II) Intrusion prevention system
- III) Data scrambling
- IV) Data loss prevention
- V) Data portability
- VI) Data obfuscation
- VII) Data encryption
- VIII) Data mirroring

- A. Only I, III, V, VII and VIII
- B. Only II, V, VI, VII and VIII
- C. Only I, II, III, VII and VIII
- **D. Only I, III, IV, VI and VII**

**Answer: D**

Explanation:

Privacy-enhancing technologies (PETs) are critical for operationalizing privacy principles. According to the DPF:

- \* Data minimization (I): Collect only necessary data
- \* Data scrambling (III), Obfuscation (VI), and Encryption (VII): Techniques to protect identity and data content
- \* Data loss prevention (IV): Prevent unauthorized sharing or leakage

Data mirroring and intrusion prevention systems are primarily security mechanisms and not specifically privacy-focused. Data portability, while a right, is not a technology per se for "upholding" privacy but for enabling user control. Thus, C includes the most appropriate privacy technologies.

#### NEW QUESTION # 23

As a privacy lead assessor assessing the company for DSCI's privacy certification, you are assessing the adequacy of resources and skills in the organization, to address privacy related responsibilities.

Which DSCI Privacy Framework (DPF) practice area is relevant?

- A. Information Usage and Access (IUA)
- B. Visibility over Personal Information (VPI)
- C. Privacy Organization and Relationship (POR)
- D. Privacy Awareness and Training (PAT)

**Answer: C**

Explanation:

The "Privacy Organization and Relationship (POR)" practice area of the DSCI Privacy Framework focuses on:

\* Establishing a dedicated privacy function

\* Allocating adequate resources (human and technical)

\* Defining roles and responsibilities for privacy across organizational layers It includes the evaluation of whether the organization has the capability (skills and capacity) to manage its privacy obligations effectively - precisely the scope described in this assessment scenario.

#### NEW QUESTION # 24

1. Single out the incorrect statement(s) from among the following:

2. Terms 'Identified individual' and 'identifiable individual' are interchangeable Anonymised Data is personal data

3. Personal Data is based on uniqueness

- A. ii
- B. i&ii
- C. iii
- D. i

**Answer: A**

#### NEW QUESTION # 25

Following aspects can serve as inputs to a privacy organization for ensuring privacy protection:

I) Privacy related incidents detected/reported

II) Contractual obligations

III) Organization's exposure to personal information

IV) Regulatory requirements

- A. None of the above, as privacy and compliance protection mechanisms are evolved based only on organization's privacy policies and procedures
- B. I, II, III and IV
- C. II and IV
- D. I, II and III

**Answer: B**

#### NEW QUESTION # 26

.....

The objective of the TestValid is to help DCPLA exam applicants crack the test. It follows its goal by giving a completely free demo of Real DCPLA Exam Questions. The free demo will enable users to assess the characteristics of the DSCI Certified Privacy Lead

Assessor DCPLA certification exam product.
