P.S. Free & New SC-401 dumps are available on Google Drive shared by TestsDumps: <https://drive.google.com/open?id=1rfh42xgH2Vqbwn6NJoI90rYLJ-2DYTcg>

You do not need to enroll yourself in expensive SC-401 exam training classes. With the Microsoft SC-401 valid dumps, you can easily prepare well for the actual SC-401 exam at home. Do you feel SC-401 Exam Preparation is tough? TestsDumps desktop and web-based online Microsoft SC-401 practice test software will give you a clear idea about the final SC-401 test pattern.

Microsoft SC-401 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Protect Data Used by AI Services: This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.
Topic 2	<ul style="list-style-type: none">• Manage Risks, Alerts, and Activities: This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.

Topic 3	<ul style="list-style-type: none"> • Implement Information Protection: This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.
Topic 4	<ul style="list-style-type: none"> • Implement Data Loss Prevention and Retention: This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.

2026 Microsoft SC-401: Administering Information Security in Microsoft 365 Fantastic Exam Overview

Our SC-401 study practice guide takes full account of the needs of the real exam and conveniences for the clients. Our SC-401 certification questions are close to the real exam and the questions and answers of the test bank cover the entire syllabus of the real exam and all the important information about the exam. Our SC-401 Learning Materials can stimulate the real exam's environment to make the learners be personally on the scene and help the learners adjust the speed when they attend the real SC-401 exam.

Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q76-Q81):

NEW QUESTION # 76

You have a Microsoft 365 E5 subscription that contains the sensitive information types (SITs) shown in the following table.

Name	Primary element	Character proximity	Supporting elements	Additional checks
SIT1	Regular expression: <code>prd:\d{4}</code>	15	Keyword: product	None
SIT2	Regular expression: <code>(\d{10} \d{12})</code>	None	None	Exclude specific values: 111-111-1111
SIT3	Function: <code>Func_credit_card</code>	None	None	None

A user sends the email messages shown in the following table.

Name	Content
Email1	The product code you requested for the bicycle is prd:1234.
Email2	The bank account number is 123456789012. Contact your account rep at 111-111-1111.
Email3	Please use my credit card that ends with 0023 and has an expiration date of 01/25.

For each of the following statements, select Yes if the statement is true. Otherwise, select No NOTE: Each correct selection is worth one point.

Answer Area		
Statements	Yes	No
SIT1 will identify and match the content in Email1.	<input type="radio"/>	<input type="radio"/>
SIT2 will identify and match the content in Email2.	<input type="radio"/>	<input type="radio"/>
SIT3 will identify and match the content in Email3.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Answer Area

Statements	Yes	No
SIT1 will identify and match the content in Email1.	<input type="radio"/>	<input checked="" type="radio"/>
SIT2 will identify and match the content in Email2.	<input checked="" type="radio"/>	<input type="radio"/>
SIT3 will identify and match the content in Email3.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:
Answer Area

Statements	Yes	No
SIT1 will identify and match the content in Email1.	<input type="radio"/>	<input checked="" type="radio"/>
SIT2 will identify and match the content in Email2.	<input checked="" type="radio"/>	<input type="radio"/>
SIT3 will identify and match the content in Email3.	<input type="radio"/>	<input checked="" type="radio"/>

NEW QUESTION # 77

You have a new Microsoft 365 E5 tenant.

You need to create a custom trainable classifier that will detect product order forms. The solution must use the principle of least privilege.

What should you do first? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Action to perform:

- ☒ Create an Exact Data Match (EDM) schema.
- ☒ Import a data loss prevention (DLP) rule package.
- ☐ Start the opt-in process.

To perform the action, assign the role of:

- ☒ Compliance Administrator
- ☐ Global Administrator
- ☐ Security Administrator

Answer:

Explanation:

Answer Area

Action to perform:

- ☒ Create an Exact Data Match (EDM) schema.
- ☒ Import a data loss prevention (DLP) rule package.
- ☐ Start the opt-in process.

To perform the action, assign the role of:

- ☒ Compliance Administrator
- ☐ Global Administrator
- ☐ Security Administrator

NEW QUESTION # 78

You have a Microsoft 365 subscription that contains a Microsoft SharePoint Online site named Site1. Site1 contains three files named File1, File2, and File3.

You create the data loss prevention (DLP) policies shown in the following table.

Name	Applied to	DLP rules
DLP1	Site1	Rule10, Rule12, Rule13
DLP2	Site1	Rule21, Rule22

The DLP rule matches for each file are shown in the following table.

Name	Matches
File1	Rule11, Rule12
File2	Rule21, Rule22
File3	Rule11, Rule22

How many DLP policy matches events will be added to Activity explorer, and how many policy matches will be added to the DLP incidents report? To answer, select the appropriate options in the answer area.

Answer Area

Microsoft

Activity explorer:

Incidents report:

Answer:

Explanation:

Answer Area

Activity explorer:

Incidents report:

Explanation:

Answer Area

Microsoft

Activity explorer:

Incidents report:

Activity Explorer logs a DLP rule match event each time any DLP rule condition is met on a file.

File1 matches Rule11 and Rule12 # 2 events

File2 matches Rule21 and Rule22 # 2 events

File3 matches Rule11 and Rule22 # 2 events

Total events in Activity Explorer = 2 + 2 + 2 = 6.

Microsoft notes that Activity explorer shows granular DLP activities such as policy rule matches per item.

The DLP incidents report aggregates by policy match per item, not by each rule in that policy. Multiple rules from the same policy on the same item count as one incident; if different policies match the same item, each policy creates its own incident.

File1: Rules from DLP1 only # 1 incident

File2: Rules from DLP2 only # 1 incident

File3: One rule from DLP1 and one from DLP2 # 2 incidents

Total incidents = 1 + 1 + 2 = 4.

References: Microsoft Purview DLP explains that Activity explorer records detailed DLP activities, while DLP incidents are created when a policy match occurs for an item, and multiple rule matches within a single policy are consolidated into a single incident for that item.

NEW QUESTION # 79

Your company has offices in multiple countries.

The company has a Microsoft 365 E5 subscription that uses Microsoft Purview insider risk management.

You plan to perform the following actions:

*In a new country, open an office named Office1.

*Create a new user named User1.

*Deploy insider risk management to Office1.

*Add User1 to the Insider Risk Management Admins role group.

You need to ensure that User1 can perform insider risk management tasks for only the users and the devices in Office1.

What should you create first?

- A. a dynamic device group
- B. a dynamic user group
- C. an administrative unit
- D. a management group

Answer: C

NEW QUESTION # 80

You have a Microsoft 365 E5 subscription that contains three users named User1, User2, and User3 and a file named Filetdocx.

You create a sensitivity label named Label1 as shown in the following exhibit.

Assign permissions to specific users and groups *

Assign permissions

3 items

Users and groups	Permissions	Edit	Delete
User1@86s40q.onmicrosoft.com	Co-Author		
User2@86s40q.onmicrosoft.com	Reviewer		
User3@86s40q.onmicrosoft.com	Viewer		

☐ Use dynamic watermarking ⓘ

☒ Use Double Key Encryption ⓘ

You apply Label1 to File1.

For which users can Microsoft 365 Copilot summarize File1?

- A. No user
- B. User1, User2, and User3
- C. User1 and User2 only
- D. User 1 only

Answer: A

Explanation:

The sensitivity label Label1 assigns permissions (User1 = Co-Author, User2 = Reviewer, User3 = Viewer) and enables Double Key Encryption (DKE). Microsoft 365 Copilot can summarize content only when the service can access the file using the user's permissions. Content protected with Double Key Encryption is not accessible to Microsoft cloud services (including Copilot); as a result, Copilot cannot open or process DKE-protected files for any user, even if they can open the file themselves in Office apps. Therefore, no user can use Microsoft 365 Copilot to summarize File1.

Reference: Microsoft Purview Double Key Encryption-service access limitations for Microsoft cloud services, including Copilot and search indexing.

NEW QUESTION # 81

.....

We can claim that the quality of our SC-401 exam questions is the best and we are famous as a brand in the market for some advantages. Firstly, the content of our SC-401 study materials is approved by the most distinguished professionals who are devoting themselves in the field for years. Secondly, our SC-401 preparation braindumps are revised and updated by our experts on regular basis. With these brilliant features our SC-401 learning engine is rated as the most worthwhile, informative and high-effective.
