NEW QUESTION # 158

Cloud Kicks (CK) has built a site using Salesforce Experience Builder. The CTO of CK wants to give customers the ability to log in to the site using their Google credentials. CK also wants to access customers' basic Google profile data when they log in so the company can serve content that matches customers' interests. How should the Experience Cloud consultant implement this?

- A. Create a custom self-registration page and a custom login page by using Visualforce and Apex controllers.
- B. Set up a login flow for communities that accepts the customers' Google credentials and matches with the credentials stored on the user records in Salesforce.
- C. Create an Authentication Provider by choosing Google as the provider type and add relevant parameters to access the customers' basic profile data.

- D. Create a custom login page using Lightning components and use the Google REST API to access customers' basic profile data.

Answer: C

Explanation:

This option allows CK to use Google as an external identity provider and enable customers to log in to the site using their Google credentials. CK can also access customers' basic profile data, such as name, email, and picture, by specifying the scopes and attributes in the authentication provider settings. CK can also use the authentication provider to configure single sign-on (SSO) and just-in-time (JIT) provisioning for the site.

NEW QUESTION # 159

Ursa Major Solar (UMS) has a discussion thread on its Experience Cloud site for customers to provide feedback on the company's latest product release. To help ensure new members understand what the discussion thread is meant for and to monitor their first posts, UMS would like to approve the first post of any new member who has joined within 7 days or less.

What is needed to configure this?

- A. Create a moderation rule with the appropriate member criteria.
- B. Create a Community moderator with Delete permissions.
- C. Create a Community moderator with Approval permissions.
- D. Create a moderation rule with the appropriate content criteria.

Answer: A

Explanation:

This option allows UMS to approve the first post of any new member who has joined within 7 days or less.

UMS can create a moderation rule that applies to posts and comments, and specify the member criteria as "Joined Date is within last 7 days". UMS can also choose the action as "Require Approval" and assign a moderator group to review and approve the posts.
