

100% Pass Latest Cisco - 300-425 - Online Designing Cisco Enterprise Wireless Networks Lab Simulation

P.S. Free 2026 Cisco 300-425 dumps are available on Google Drive shared by TroytecDumps: https://drive.google.com/open?id=18KsXb1C4j74LnbLPg8M_dz890LTwbb_Y

We can promise that we will provide you with quality 300-425 Exam Questions, reasonable price and professional after sale service. Because customer first, service first is our principle of service. If you buy our 300-425 study guide, you will find our after sale service is so considerate for you. We are glad to meet your all demands and answer your all question about our study materials. And you can find that our price is affordable even for the students. Besides, we will the most professional support by our technicals if you have any problem on buying or downloading.

Everyone wants to have a good job and decent income. But if they don't have excellent abilities and good major knowledge they are hard to find a decent job. Passing the test 300-425 certification can make you realize your dream and find a satisfied job. Our study materials are a good tool that can help you pass the exam easily. You will feel convenient if you buy our product not only because our 300-425 Exam Prep is of high pass rate but also our service is also perfect. What's more, our update can provide the latest and most useful 300-425 exam guide to you, in order to help you learn more and master more.

Designing Cisco Enterprise Wireless Networks Study Question Has Reasonable Prices but Various Benefits - TroytecDumps

The 24/7 support team is just an e-mail away for our customers so that they can contact us anytime. Our team will solve all of their issues as quickly as possible. Free demos and up to 1 year of free updates of our Sitecore Exams are also available at TroytecDumps. Buy updated and Real 300-425 Exam Questions now and earn your dream 300-425 certification with TroytecDumps!

Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q273-Q278):

NEW QUESTION # 273

An engineer has successfully configured high availability and SSO using two Cisco 5508 Wireless LAN Controllers. The engineer can access the Active Primary WLC, but the Secondary Standby WLC is not accessible. Which two methods allow access to the standby unit? (Choose two.)

- A. SSH to the management interface of the primary WLC
- B. via the console connection
- C. SSH to the service port interface
- D. SSH to the redundancy management interface of the primary WLC
- E. SSH to the virtual interface of the secondary WLC

Answer: B,C

Explanation:

□

NEW QUESTION # 274

Which two statements are correct about 5 GHz WLAN compared to 2.4 GHz? (Choose two.)

- A. 5 GHz is less prone to interference.
- B. 5 GHz requires fewer APs for coverage.
- C. 5 GHz supports higher throughput.
- D. 5 GHz provides better coverage through walls.
- E. 5 GHz has more non-overlapping channels.

Answer: A,C,E

NEW QUESTION # 275

A wireless engineer must design a backhaul link. The engineer has a mesh access point that has a wired connection back to the infrastructure. What must be changed in the AP role before a change is made in the AP mode?

- A. bridge
- B. monitor
- C. RAP
- D. local

Answer: A

Explanation:

When designing a backhaul link, the mesh AP role should be set to 'bridge' to enable it to connect separate network segments or extend coverage to remote areas.

NEW QUESTION # 276

A wireless consultant is creating a wireless design for a multistory building. The building will house several groups that will use the wireless network for different operations. Depending on how the wireless network is used, different wireless approach designs must be taken. Drag and drop the services from the left onto the AP density levels on the right based on the wireless deployment requirements.

□

Answer:

Explanation:

□

NEW QUESTION # 277

An engineer has successfully configured high availability and SSO using two Cisco 5508 Wireless LAN Controllers. The engineer can access the Active Primary WLC, but the Secondary Standby WLC is not accessible. Which two methods allow access to the standby unit? (Choose two.)

- A. SSH to the management interface of the primary WLC
- B. via the console connection
- C. SSH to the service port interface
- D. SSH to the redundancy management interface of the primary WLC
- E. SSH to the virtual interface of the secondary WLC
