# Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q90-Q95):

**NEW QUESTION # 90**
An employee at your organization is resigning They are in charge of organizing and maintaining recurring team events You want to preserve the existing meetings and transfer ownership to the resigning employee's manager What should you do?

- A. Transfer both the events and the resources owned by the resigning employee to their manager by using the Admin console
- B. Assign an Archived User (AU) license for the resigning employee
- C. Delete the existing calendar events and instruct the manager to create new events as the owner
- D. Instruct the resigning employee to share free busy details for their calendar with their manager

**Answer: A**

Explanation:
To transfer ownership of the existing meetings and resources from the resigning employee to their manager, follow these steps:
Sign in to the Google Admin console: Use an account with super administrator privileges.
Navigate to the Calendar settings:
Go to Apps > Google Workspace > Calendar > Manage resources.
Transfer calendar events:
Go to Tools > Data Transfer.
Select the user whose data you want to transfer (the resigning employee).
Choose "Calendar" as the service to transfer.
Enter the email address of the manager who will receive the ownership.
Initiate the transfer.
Verify transfer completion:
Once the transfer is complete, check that the manager now owns the calendar events and resources.
Ensure that all recurring events and resources are correctly transferred.

**NEW QUESTION # 91**
A user joined your organization and is reporting that every time they start their computer they are asked to sign in. This behavior differs from what other users within the organization experience. Others are prompted to sign in biweekly. What is the first step you should take to troubleshoot this issue for the individual user?

- A. Check the session length duration for the organizational unit the user is provisioned in.
- B. Reset the user's sign-in cookies
- C. Verify that 2-Step Verification is enforced for this user.
- D. Confirm that this user has their employee ID populated as a sign-in challenge.

**Answer: D**

**NEW QUESTION # 92**
Your-company.com finance departments want to create an internal application that needs to read data from spreadsheets. As the collaboration engineer, you suggest using App Maker. The Finance team is concerned about data security when creating applications with App Maker.
What security measures should you implement to secure data?

- A. Use Roles, Script, and Owner access permissions for operations on records and data relations.
- B. Enable App Maker access only for the Finance department Organization Unit.
- C. Use a service account with limited permissions to access each data source.
- D. Change owner access permissions to allow internal usage only.

**Answer: A**

Explanation:
* When developing the application in App Maker, define roles that correspond to the different levels of access needed by users.
* Use scripts to control access to data based on user roles. This ensures that only authorized users can perform certain operations.
* Set the owner access permissions appropriately to ensure that data can only be accessed or modified by those with the necessary permissions.
* Regularly review and update roles and permissions to adapt to any changes in the organization or the application's usage.
Implementing these security measures ensures that data in your internal application is accessed and managed securely, mitigating risks associated with unauthorized access.

**NEW QUESTION # 93**
A recent legal investigation requires all emails and Google Drive documents from a specific user to be retrieved. As the administrator, how can you fulfill the legal team's request?

- A. Search Google Drive for all of the user's documents, and ask them to forward all of their emails.
- B. Use the Gmail API and Google Drive API to automatically collect and export data.
- C. Use Security Investigation Tool to Search Google Drive events for all of the user's documents, and use Google Admin > Reports > Email Log Search to find their emails.
- D. Utilize Google Vault to hold, search, and export data of interest.

**Answer: D**

Explanation:
* Access Google Vault: Go to the Google Vault interface.
* Create a Matter: Create a new matter for the legal investigation.
* Set Holds: Place holds on the specific user's email and Google Drive data to preserve the relevant information.
* Conduct Searches: Use the search functionality in Google Vault to find all emails and documents related to the user.
* Export Data: Once the relevant data is identified, export it for the legal team's review.
* Review and Deliver: Ensure the exported data is complete and deliver it to the legal team as required.

**NEW QUESTION # 94**
A team of temporary employees left your organization after completing a shared project. Per company policy, you need to disable their Google Workspace accounts while preserving all project data and related communications in Google Vault for a minimum of two years. You want to comply with this policy while minimizing cost. What should you do?

- A. Purchase and assign Archived User licenses to the former employees.
- B. Purchase additional user licenses and suspend the former employees' accounts.
- C. Transfer the former employees' files and data to active user accounts. Delete the former employees' Workspace accounts.
- D. Move the former employees to their own organizational unit(OU) and disable access to Google services for that OU.

**Answer: A**

Explanation:
Google Workspace offers Archived User licenses, which allow you to retain access to the data and communications of former employees without paying for a full user license. This option ensures compliance with the policy of retaining project data and communications in Google Vault while minimizing costs by avoiding unnecessary full user licenses.
